(continued on reverse)

Holdings are as of 2/28/19. The fund is a managed portfolio and holdings are subject to change.

* Trailing 12-Month Dividend Yield (TTM Dividend Yield): Percentage income the stock returned over the past 12 months.

February 2019 TTM, 39 companies within the portfolio raised their dividends, accounting for 41 increases overall.

February 2019 TTM: Three companies had a dividend increase prior to the sale in the trailing twelve months. On 5/30/18, Bank of Montreal increased its dividend by 3.2%. On 4/19/18, Unilever PLC increased its dividend by 8.0%. On 10/31/18, Red Electrica Corporacion SA increased its dividend by 7.0%.

February 2019 TTM, two companies within the portfolio declared special dividends. Skand Enskilda BKN declared a special dividend valued at .5SEK/share, payable in April 2019. Including the special dividend Skand Enskilda will provide a yield of 6.9 for 2019. Telenor ASA declared a special dividend valued at 4.4NOK/share, payable in October 2018. Including the special dividend Telenor will provide a yield of 7.1% for 2018.

Dividend growth for Sumitomo Mitsui Financial Group is measured based upon finalized distributions announced at ex-date.

In February 2019 Kimberly-Clark de Mexico announced a change to its dividend policy, which had previously aimed to increase the dividend each year in real terms. Due to the recent decline in earnings that resulted from a weaker Mexican Peso and rising input costs, the Company's board of directors adopted a new dividend policy, electing to keep its maximum EPS payout ratio at approximately 100%. The result of that change in 2019 was a -1.9% decrease in the company's annual dividend.

** Dividend growth not quantifiable for Brazilian investments due to the payment of irregular dividends. Past performance is no guarantee of future results. For current fund performance, visit FederatedInvestors.com.

Performance quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than what is stated. To view performance current to the most recent month-end, and for after-tax returns, contact us or visit FederatedInvestors.com. Maximum Offering Price figures reflect the maximum sales charge of 5.5% for A Shares. See the prospectus for other fees and expenses that apply to a continued investment in the fund.

***The fund's expense ratio is from the most recent prospectus. The expense ratio may reflect voluntary fee waivers and/or expense reimbursements determined by the fund's Advisor and its affiliates. The voluntary waivers and/or reimbursements, if applicable, are in effect up to but not including the later of 2/1/19 or the date of the fund's next effective prospectus.

30-day yield (also known as "SEC yield") is a compounded and annualized figure calculated according to a formula set by the SEC. The formula requires use of a specific methodology for calculating dividends and interest earned, and expenses accrued, during the period, and reflects the maximum offering price per fund share. The standardized computation is designed to facilitate yield comparisons among different funds. The figure is compounded and annualized. In the absence of temporary expense waivers or reimbursements, the 30-day yield would have been 4.16% at maximum offering price and 4.41% at net asset value for A Shares, 4.66% for Institutional Shares and 4.67% for R6 Shares.

The fund's R6 Shares commenced operations on June 30, 2016. For the period prior to the commencement of operations of the R6 Shares, the performance information shown is for the fund's Institutional Shares adjusted to remove any voluntary waiver of fund expenses related to the fund's Institutional Shares that may have occurred during the periods prior to the commencement of operations of the fund's R6 Shares.

Investors should carefully consider the fund's investment objectives, risks, charges and expenses before investing. To obtain a summary prospectus or prospectus containing this and other information, contact us or visit FederatedInvestors.com. Please carefully read the summary prospectus or prospectus before investing.

There are no guarantees that dividend-paying stocks will continue to pay dividends. In addition, dividend-paying stocks may not experience the same capital appreciation potential as non-dividend-paying stocks.

Because the fund may allocate relatively more assets to certain industry sectors than others, the fund's performance may be more susceptible to any developments which affect those sectors emphasized by the fund.

International investing involves special risks including currency risk, increased volatility, political risks and differences in auditing and other financial standards.
