## How is the Fund Organized?

The Fund is a diversified portfolio of Money Market Obligations Trust (the “Trust”). The Trust is an open-end, management investment company that was established under the laws of the Commonwealth of Massachusetts on October 3, 1988. The Trust may offer a separate series of shares representing interests in separate portfolios of securities.

The Board of Trustees (the “Board”) has established five classes of shares of the Fund, known as Service Shares, Wealth Shares, Cash II Shares, Capital Shares and Cash Series Shares (“Shares”). Effective October 27, 2017, the Fund’s outstanding Investment Shares were converted to Cash II Shares and, immediately thereafter, the Investment Shares class was terminated. This SAI relates to all classes of Shares. The Fund’s investment adviser is Federated Investment Management Company (the “Adviser”).

## Securities in Which the Fund Invests

The principal securities or other investments in which the Fund invests are described in the Fund’s Prospectus. The Fund also may invest in securities or other investments as non-principal investments for any purpose that is consistent with its investment objective. The following information is either additional information in respect of a principal security or other investment referenced in the Prospectus or information in respect of a non-principal security or other investment (in which case there is no related disclosure in the Prospectus).

### **SECURITIES DESCRIPTIONS AND TECHNIQUES**

#### **FIXED-INCOME SECURITIES**

Fixed-income securities pay interest, dividends or distributions at a specified rate. The rate may be a fixed percentage of the principal or may be adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time. Fixed-income securities provide more regular income than equity securities. However, the returns on fixed-income securities are limited and normally do not increase with the issuer’s earnings. This limits the potential appreciation of fixed-income securities as compared to equity securities.

A security’s yield measures the annual income earned on a security as a percentage of its price. A security’s yield will increase or decrease depending upon whether it costs less (a “discount”) or more (a “premium”) than the principal amount. If the issuer may redeem the security before its scheduled maturity, the price and yield on a discount or premium security may change based upon the probability of an early redemption. Securities with higher risks generally have higher yields.

The following further describes the types of fixed-income securities in which the Fund may invest.

#### **Municipal Leases (A Type of Tax-Exempt, Fixed-Income Security)**

Municipalities may enter into leases for equipment or facilities. In order to comply with state public financing laws, these leases are typically subject to annual appropriation. In other words, a municipality may end a lease, without penalty, by not providing for the lease payments in its annual budget. After the lease ends, the lessor can resell the equipment or facility but may lose money on the sale. The Fund may invest in securities supported by pools of municipal leases. The most common type of lease-backed securities is certificates of participation (COPs). However, the Fund may also invest directly in individual leases.

#### **Callable Securities (A Type of Tax-Exempt, Fixed-Income Security)**

Certain fixed-income securities in which the Fund invests are callable at the option of the issuer. Certain callable securities invested in by the Fund also may be callable by parties other than the issuer. Callable securities are subject to call risk.

#### **Zero-Coupon Securities (A Type of Tax-Exempt, Fixed-Income Security)**

Zero-coupon securities do not pay interest or principal until final maturity unlike debt securities that provide periodic payments of interest (referred to as a “coupon payment”). Investors buy zero-coupon securities at a price below the amount payable at maturity. The difference between the purchase price and the amount paid at maturity represents interest on the zero-coupon security. Investors must wait until maturity to receive interest and principal, which increases the interest rate risks and credit risks of a zero-coupon security.

There are many forms of zero-coupon securities. Some are issued at a discount and are referred to as zero-coupon or capital appreciation bonds. In addition, some securities give the issuer the option to deliver additional securities in place of cash interest payments, thereby increasing the amount payable at maturity. These are referred to as pay-in-kind, PIK securities or toggle securities.

### **Tax Increment Financing Bonds (A Type of Tax-Exempt, Fixed-Income Security)**

Tax increment financing (TIF) bonds are payable from increases in taxes or other revenues attributable to projects within the TIF district. For example, a municipality may issue TIF bonds to redevelop a commercial area. The TIF bonds would be payable solely from any increase in sales taxes collected from merchants in the area. The bonds could fail to pay principal or interest if merchants' sales, and related tax collections, failed to increase as anticipated.

### **Municipal Mortgage-Backed Securities (A Type of Tax-Exempt, Fixed-Income Security)**

Municipal mortgage-backed securities are special revenue bonds, the proceeds of which may be used to provide mortgage loans for single family homes or to finance multifamily housing. Municipal mortgage-backed securities represent interests in pools of mortgages. The mortgages that comprise a pool normally have similar interest rates, maturities and other terms. Mortgages may have fixed or adjustable rates. Municipal mortgage-backed securities generally have fixed interest rates.

Municipal mortgage-backed securities come in a variety of forms. The simplest forms of municipal mortgage-backed securities are unstructured bonds backed by the net interest and principal payments and prepayments from the underlying mortgages. As a result, the holders assume all interest rate and prepayment risks of the underlying mortgages. Other municipal mortgage-backed securities may have more complicated financial structures.

## **OTHER INVESTMENTS, TRANSACTIONS, TECHNIQUES**

### **Inter-Fund Borrowing and Lending Arrangements**

The Securities and Exchange Commission (SEC) has granted an exemption that permits the Fund and all other funds advised by subsidiaries of Federated Investors, Inc. ("Federated funds") to lend and borrow money for certain temporary purposes directly to and from other Federated funds. Participation in this inter-fund lending program is voluntary for both borrowing and lending Federated funds, and an inter-fund loan is only made if it benefits each participating Federated fund. Federated Investors, Inc. ("Federated") administers the program according to procedures approved by the Fund's Board, and the Board monitors the operation of the program. Any inter-fund loan must comply with certain conditions set out in the exemption, which are designed to assure fairness and protect all participating Federated funds.

For example, inter-fund lending is permitted only: (a) to meet shareholder redemption requests; (b) to meet commitments arising from "failed" trades; and (c) for other temporary purposes. All inter-fund loans must be repaid in seven days or less. The Fund's participation in this program must be consistent with its investment policies and limitations, and must meet certain percentage tests. Inter-fund loans may be made only when the rate of interest to be charged is more attractive to the lending Federated fund than market-competitive rates on overnight repurchase agreements ("Repo Rate") and more attractive to the borrowing Federated fund than the rate of interest that would be charged by an unaffiliated bank for short-term borrowings ("Bank Loan Rate"), as determined by the Board. The interest rate imposed on inter-fund loans is the average of the Repo Rate and the Bank Loan Rate.

### **Delayed Delivery Transactions**

Delayed delivery transactions, including when-issued transactions, are arrangements in which the Fund buys securities for a set price, with payment and delivery of the securities scheduled for a future time. During the period between purchase and settlement, no payment is made by the Fund to the issuer and no interest accrues to the Fund. The Fund records the transaction when it agrees to buy the securities and reflects their value in determining the price of its Shares. Settlement dates may be a month or more after entering into these transactions so that the market values of the securities bought may vary from the purchase prices. Therefore, delayed delivery transactions create interest rate risks for the Fund. Delayed delivery transactions also involve credit risks in the event of a counterparty default.

### **Asset Segregation**

In order to secure its obligations in connection with special transactions, such as reverse repurchase agreements or when-issued and delayed delivery transactions, the Fund will either enter into offsetting transactions or set aside readily marketable securities in each case, as provided by the SEC or SEC staff guidance. Unless the Fund has other readily marketable assets to set aside, it cannot trade assets used to secure such obligations without terminating a special transaction. This may cause the Fund to miss favorable trading opportunities or to realize losses on special transactions.

## **TEMPORARY INVESTMENTS**

The Fund may make temporary investments in taxable, fixed-income securities and the following other taxable securities:

### **Treasury Securities (A Type of Fixed-Income Security)**

Treasury securities are direct obligations of the federal government of the United States.

### **Government Securities (A Type of Fixed-Income Security)**

Government securities are issued or guaranteed by a federal agency or instrumentality acting under federal authority. Some government securities, including those issued by Government National Mortgage Association (“Ginnie Mae”), are supported by the full faith and credit of the United States and are guaranteed only as to the timely payment of interest and principal.

Other government securities receive support through federal subsidies, loans or other benefits, but are not backed by the full faith and credit of the United States. For example, the U.S. Treasury is authorized to purchase specified amounts of securities issued by (or otherwise make funds available to) the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (“Freddie Mac”) and Federal National Mortgage Association (“Fannie Mae”) in support of such obligations.

Some government agency securities have no explicit financial support, and are supported only by the credit of the applicable agency, instrumentality or corporation. The U.S. government has provided financial support to Freddie Mac and Fannie Mae, but there is no assurance that it will support these or other agencies in the future.

The Fund treats mortgage-backed securities guaranteed by a federal agency or instrumentality as government securities. Although such a guarantee helps protect against credit risk, it does not eliminate it entirely or reduce other risks.

***Additional Information Related to Freddie Mac and Fannie Mae.*** The extreme and unprecedented volatility and disruption that impacted the capital and credit markets beginning in 2008 led to market concerns regarding the ability of Freddie Mac and Fannie Mae to withstand future credit losses associated with securities held in their investment portfolios, and on which they provide guarantees, without the direct support of the federal government. On September 7, 2008, Freddie Mac and Fannie Mae were placed under the conservatorship of the Federal Housing Finance Agency (FHFA). Under the plan of conservatorship, the FHFA assumed control of, and generally has the power to direct, the operations of Freddie Mac and Fannie Mae, and is empowered to exercise all powers collectively held by their respective shareholders, directors and officers, including the power to: (1) take over the assets of and operate Freddie Mac and Fannie Mae with all the powers of the shareholders, the directors and the officers of Freddie Mac and Fannie Mae and conduct all business of Freddie Mac and Fannie Mae; (2) collect all obligations and money due to Freddie Mac and Fannie Mae; (3) perform all functions of Freddie Mac and Fannie Mae which are consistent with the conservator’s appointment; (4) preserve and conserve the assets and property of Freddie Mac and Fannie Mae; and (5) contract for assistance in fulfilling any function, activity, action or duty of the conservator.

In connection with the actions taken by the FHFA, the Treasury has entered into certain preferred stock purchase agreements (SPAs) with each of Freddie Mac and Fannie Mae which establish the Treasury as the holder of a new class of senior preferred stock in each of Freddie Mac and Fannie Mae. The senior preferred stock was issued in connection with financial contributions from the Treasury to Freddie Mac and Fannie Mae. Although the SPAs are subject to amendment from time to time, currently the Treasury is obligated to provide such financial contributions up to an aggregate maximum amount determined by a formula set forth in the SPAs, and until such aggregate maximum amount is reached, there is not a specific end date to the Treasury’s obligations.

The future status and role of Freddie Mac and Fannie Mae could be impacted by (among other things) the actions taken and restrictions placed on Freddie Mac and Fannie Mae by the FHFA in its role as conservator, the restrictions placed on Freddie Mac’s and Fannie Mae’s operations and activities under the SPAs, market responses to developments at Freddie Mac and Fannie Mae, downgrades or upgrades in the credit ratings assigned to Freddie Mac and Fannie Mae by nationally recognized statistical rating organizations (NRSROs) or ratings services, and future legislative and regulatory action that alters the operations, ownership, structure and/or mission of these institutions, each of which may, in turn, impact the value of, and cash flows on, any securities guaranteed by Freddie Mac and Fannie Mae.

In addition, the future of Freddie Mac and Fannie Mae, and other U.S. government-sponsored enterprises that are not backed by the full faith and credit of the U.S. government (GSEs), remains in question as the U.S. government continues to consider options ranging from structural reform, nationalization, privatization or consolidation, to outright elimination. The issues that have led to significant U.S. government support for Freddie Mac and Fannie Mae have sparked serious debate regarding the continued role of the U.S. government in providing mortgage loan liquidity.

### **Bank Instruments (A Type of Fixed-Income Security)**

Bank instruments are unsecured, interest-bearing deposits with banks. Bank instruments include, but are not limited to, bank accounts, time deposits, certificates of deposit and banker’s acceptances. Yankee instruments are denominated in U.S. dollars and issued by U.S. branches of foreign banks. Euro-dollar instruments are denominated in U.S. dollars and issued by non-U.S. branches of U.S. or foreign banks.

### **Corporate Debt Securities (A Type of Fixed-Income Security)**

Corporate debt securities are fixed-income securities issued by businesses. Notes, bonds, debentures and commercial paper are the most prevalent types of corporate debt securities.

### **Commercial Paper (A Type of Corporate Debt Security)**

Commercial paper is an issuer's obligation with a maturity of less than nine months. Companies typically issue commercial paper to pay for current expenditures. Most issuers constantly reissue their commercial paper and use the proceeds (or bank loans) to repay maturing paper. If the issuer cannot continue to obtain liquidity in this fashion, its commercial paper may default.

### **Repurchase Agreements**

Repurchase agreements are transactions in which the Fund buys a security from a dealer or bank and agrees to sell the security back at a mutually agreed-upon time and price. The repurchase price exceeds the sale price, reflecting the Fund's return on the transaction. This return is unrelated to the interest rate on the underlying security. The Fund will enter into repurchase agreements only with banks and other recognized financial institutions, such as securities dealers, deemed creditworthy by the Adviser.

The Fund's custodian or subcustodian will take possession of the securities subject to repurchase agreements. The Adviser or subcustodian will monitor the value of the underlying security each day to ensure that the value of the security always equals or exceeds the repurchase price.

Repurchase agreements are subject to credit risks. In addition to taxable repurchase agreements, the Fund also may invest in municipal repurchase agreements as a non-principal investment.

### **Reverse Repurchase Agreements**

Reverse repurchase agreements (which are considered a type of special transaction for asset segregation purposes) are repurchase agreements in which the Fund is the seller (rather than the buyer) of the securities, and agrees to repurchase them at an agreed-upon time and price. A reverse repurchase agreement may be viewed as a type of borrowing by the Fund. Reverse repurchase agreements are subject to credit risks. In addition, reverse repurchase agreements create leverage risks because the Fund must repurchase the underlying security at a higher price, regardless of the market value of the security at the time of repurchase. In addition to taxable reverse repurchase agreements, the Fund also may invest in municipal reverse repurchase agreements as a non-principal investment.

### **MINIMAL CREDIT RISK**

Under Rule 2a-7, money market funds, such as the Fund, may generally invest in "Eligible Securities" which include securities issued by another money market fund, government securities or securities that have a remaining maturity of no more than 397 calendar days and are determined by the fund's board or its delegate to present minimal credit risk based on an assessment of the issuer's credit quality, including the capacity of the issuer or guarantor to meet its financial obligations. The Fund's Board has adopted procedures by which the Adviser will conduct this initial and ongoing assessment, as required. Such analysis of whether a security presents minimal credit risk will include, to the extent appropriate: consideration of the security's issuer or guarantor's financial condition, sources of liquidity, ability to react to future market-wide and issuer or guarantor-specific events, including the ability to repay debt in a highly adverse situation; and strength of the issuer or guarantor's industry within the economy and relative to economic trends, as well as the issuer or guarantor's competitive position within its industry. In addition, a minimal credit risk evaluation may also include consideration of whether the price and/or yield of the security itself is similar to that of other securities in the Fund's portfolio. The Adviser will perform an ongoing review of whether each security (other than a government security) continues to present minimal credit risks.

## **Investment Risks**

There are many risk factors which may affect an investment in the Fund. The Fund's principal risks are described in its Prospectus. The following information is either additional information in respect of a principal risk factor referenced in the Prospectus or information in respect of a non-principal risk factor applicable to the Fund (in which case there is no related disclosure in the Prospectus).

### **LEVERAGE RISK**

Leverage risk is created when an investment exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund's risk of loss and potential for gain.

### **RISK ASSOCIATED WITH THE INVESTMENT ACTIVITIES OF OTHER ACCOUNTS**

Investment decisions for the Fund are made independently from those of other accounts managed by the Adviser and accounts managed by affiliates of the Adviser. Therefore, it is possible that investment-related actions taken by such other accounts could adversely impact the Fund with respect to, for example, the value of Fund portfolio holdings, and/or prices paid to or received by the Fund on its portfolio transactions and/or the Fund's ability to obtain or dispose of portfolio securities. Related considerations are discussed elsewhere in this SAI under "Brokerage Transactions and Investment Allocation."

## **CYBERSECURITY RISK**

Like other funds and business enterprises, Federated's business relies on the security and reliability of information and communications technology, systems and networks. Federated uses digital technology, including, for example, networked systems, email and the Internet, to conduct business operations and engage clients, customers, employees, products, accounts, shareholders, and relevant service providers, among others. Federated, as well as its funds and certain service providers, also generate, compile and process information for purposes of preparing and making filings or reports to governmental agencies, and a cybersecurity attack or incident that impacts that information, or the generation and filing processes, may prevent required regulatory filings and reports from being made. The use of the Internet and other electronic media and technology exposes the Fund, the Fund's shareholders, and the Fund's service providers, and their respective operations, to potential risks from cybersecurity attacks or incidents (collectively, "cyber-events").

Cyber-events can result from intentional (or deliberate) attacks or unintentional events by insiders or third parties, including cybercriminals, competitors, nation-states and "hacktivists," among others. Cyber-events may include, for example, phishing, use of stolen access credentials, unauthorized access to systems, networks or devices (such as, for example, through "hacking" activity), structured query language attacks, infection from or spread of malware, ransomware, computer viruses or other malicious software code, corruption of data, and attacks (including, but not limited to, denial of service attacks on websites) which shut down, disable, slow, impair or otherwise disrupt operations, business processes, technology, connectivity or website or internet access, functionality or performance. Like other funds and business enterprises, the Fund and its service providers have experienced, and will continue to experience, cyber-events consistently. In addition to intentional cyber-events, unintentional cyber-events can occur, such as, for example, the inadvertent release of confidential information. To date, cyber-events have not had a material adverse effect on the Fund's business operations or performance.

Cyber-events can affect, potentially in a material way, Federated's relationships with its clients, customers, employees, products, accounts, shareholders and relevant service providers. Any cyber-event could adversely impact the Fund and its shareholders and cause the Fund to incur financial loss and expense, as well as face exposure to regulatory penalties, reputational damage and additional compliance costs associated with corrective measures. A cyber-event may cause the Fund, or its service providers, to lose proprietary information, suffer data corruption, lose operational capacity (such as, for example, the loss of the ability to process transactions, calculate the Fund's NAV, or allow shareholders to transact business or other disruptions to operations), and/or fail to comply with applicable privacy and other laws. Among other potentially harmful effects, cyber-events also may result in theft, unauthorized monitoring and failures in the physical infrastructure or operating systems that support the Fund and its service providers. In addition, cyber-events affecting issuers in which the Fund invests could cause the Fund's investments to lose value.

The Fund's Adviser and its relevant affiliates have established risk management systems reasonably designed to seek to reduce the risks associated with cyber-events. The Fund's Adviser employs various measures aimed at mitigating cybersecurity risk, including, among others, use of firewalls, system segmentation, system monitoring, virus scanning, periodic penetration testing, employee phishing training and an employee cybersecurity awareness campaign. Among other vendor management efforts, Federated also conducts due diligence on key service providers (or vendors) relating to cybersecurity. Federated has established a committee to oversee Federated's information security and data governance efforts, and updates on cyber-events and risks are reviewed with relevant committees, as well as Federated's and the Fund's Boards of Directors or Trustees, on a periodic (generally quarterly) basis (and more frequently when circumstances warrant) as part of risk management oversight responsibilities. However, there is no guarantee that the efforts of Federated, the Fund's Adviser or its affiliates, or other service providers, will succeed, either entirely or partially as there are limits on Federated's and the Fund's ability to prevent or mitigate cyber-events. Among other reasons, the cybersecurity landscape is constantly evolving, the nature of malicious cyber-events is becoming increasingly sophisticated and the Fund's Adviser, and its relevant affiliates, cannot control the cyber systems and cybersecurity systems of issuers or third-party service providers.

## **Investment Objective (and Policies) and Investment Limitations**

The fundamental investment objective of the Fund is to provide current income exempt from federal regular income tax and the personal income taxes imposed by the state of California consistent with stability of principal.

Under normal circumstances, the Fund will invest its assets so that at least 80% of its annual interest income will be exempt from federal regular income tax and California state income tax or so that 80% of its net assets is invested in obligations, the interest income from which is exempt from federal regular income tax and California state income tax.

Only for purposes of compliance with Rule 35d-1, the Fund will invest its assets so that at least 80% of the income that it distributes will be exempt from federal regular income tax and California state income tax.

The fundamental investment objective and policies may not be changed by the Board without shareholder approval.

## **INVESTMENT LIMITATIONS**

### **Diversification**

With respect to securities comprising 75% of the value of its total assets, the Fund will not purchase securities of any one issuer (other than cash; cash items; securities issued or guaranteed by the government of the United States or its agencies or instrumentalities and repurchase agreements collateralized by such U.S. government securities; and securities of other investment companies) if, as a result, more than 5% of the value of its total assets would be invested in the securities of that issuer, or the Fund would own more than 10% of the outstanding voting securities of that issuer.

### **Concentration of Investments**

The Fund will not make investments that will result in the concentration of its investments in the securities of issuers primarily engaged in the same industry. Government securities, municipal securities and bank instruments will not be deemed to constitute an industry.

### **Investing in Real Estate**

The Fund may not purchase or sell real estate, provided that this restriction does not prevent the Fund from investing in issuers which invest, deal or otherwise engage in transactions in real estate or interests therein, or investing in securities that are secured by real estate or interests therein. The Fund may exercise its rights under agreements relating to such securities, including the right to enforce security interests and to hold real estate acquired by reason of such enforcement until that real estate can be liquidated in an orderly manner.

### **Underwriting**

The Fund may not underwrite the securities of other issuers, except that the Fund may engage in transactions involving the acquisition, disposition or resale of its portfolio securities, under circumstances where it may be considered to be an underwriter under the Securities Act of 1933.

### **Investing in Commodities**

The Fund may not purchase or sell physical commodities, provided that the Fund may purchase securities of companies that deal in commodities.

### **Issuing Senior Securities and Borrowing Money**

The Fund may borrow money, directly or indirectly, and issue senior securities to the maximum extent permitted under the Investment Company Act of 1940 (the "1940 Act").

### **Lending Cash or Securities**

The Fund may not make loans, provided that this restriction does not prevent the Fund from purchasing debt obligations, entering into repurchase agreements, lending its assets to broker/dealers or institutional investors and investing in loans, including assignments and participation interests.

**The above limitations cannot be changed unless authorized by the Board and by the "vote of a majority of the Fund's outstanding voting securities," as defined by the 1940 Act. The following limitations, however, may be changed by the Board without shareholder approval. Shareholders will be notified before any material change in these limitations becomes effective.**

### **Pledging Assets**

The Fund will not mortgage, pledge or hypothecate any of its assets, provided that this shall not apply to the transfer of securities in connection with any permissible borrowing or to collateral arrangements in connection with permissible activities.

### **Buying on Margin**

The Fund will not purchase securities on margin, provided that the Fund may obtain short-term credits necessary for the clearance of purchases and sales of securities.

### **Illiquid Securities**

The Fund will not acquire securities that cannot be sold or disposed of in the ordinary course of business within seven days at approximately the value ascribed to them by the Fund if, immediately after the acquisition, the Fund would have invested more than 5% of its total assets in such securities.

### **Investing in Restricted Securities**

The Fund may invest in securities subject to restrictions on resale under the Securities Act of 1933.

## **Additional Information**

For purposes of the diversification limitation, the Fund considers certificates of deposit and demand and time deposits issued by a U.S. branch of a domestic bank or savings association having capital, surplus and undivided profits in excess of \$100,000,000 at the time of investment to be “cash items.”

Except with respect to borrowing money, if a percentage limitation is adhered to at the time of investment, a later increase or decrease in percentage resulting from any change in value or net assets will not result in a violation of such limitation.

As a non-fundamental operating policy, the investment of more than 25% of the value of the Fund’s total assets in any one industry will constitute “concentration.” For purposes of the concentration limitation: (a) utility companies will be divided according to their services, for example, gas, gas transmission, electric and telephone will each be considered a separate industry; (b) financial service companies will be classified according to the end users of their services, for example, automobile finance, bank finance and diversified finance will each be considered a separate industry; and (c) asset-backed securities will be classified according to the underlying assets securing such securities.

To conform to the current view of the SEC staff that only domestic bank instruments may be excluded from industry concentration limitations, the Fund will not exclude foreign bank instruments from industry concentration limitation tests so long as the policy of the SEC remains in effect. Investments in private activity bonds will be classified according to the non-governmental entity from which the bond’s principal and interest payments are principally derived. In addition, investments in certain industrial development bonds funded by activities in a single industry will be deemed to constitute investment in an industry, except when held for temporary defensive purposes.

## **REGULATORY COMPLIANCE**

The Fund may follow non-fundamental operational policies that are more restrictive than its fundamental investment limitations, as set forth in the Prospectus and this SAI, in order to comply with applicable laws and regulations, including the provisions of and regulations under the 1940 Act. In particular, the Fund will comply with the various requirements of Rule 2a-7 (the “Rule”), which regulates money market mutual funds. The Fund may change these operational policies to reflect changes in the laws and regulations without the approval of its shareholders.

The SEC has implemented a number of requirements, including liquidity fees and temporary redemption gates, for money market funds based on the amount of Fund assets that are “weekly liquid assets,” which generally includes cash, direct obligations of the U.S. government, certain other U.S. government or agency securities and securities that will mature or are subject to a demand feature that is exercisable and payable within five business days.

The Fund has adopted policies and procedures such that the Fund will be able to impose liquidity fees on redemptions and/or temporarily suspend redemptions for up to 10 business days in any 90-day period in the event that the Fund’s weekly liquid assets were to fall below a designated threshold, subject to a determination by the Fund’s Board that such a liquidity fee or redemption gate is in the Fund’s best interest. If the Fund’s weekly liquid assets fall below 30% of its total assets, the Fund may impose liquidity fees of up to 2% of the value of the shares redeemed and/or temporarily suspend redemptions, if the Board, including a majority of the independent Trustees, determines that imposing a liquidity fee or temporarily suspending redemptions is in the Fund’s best interest. If the Fund’s weekly liquid assets fall below 10% of its total assets at the end of any business day, the Fund will impose a liquidity fee of 1% on all redemptions beginning on the next business day, unless the Board, including a majority of the independent Trustees, determines that imposing such a fee would not be in the best interests of the Fund or determines that a lower or higher fee (not to exceed 2%) would be in the best interests of the Fund, which would remain in effect until weekly liquid assets return to 30% or the Board determines that the fee is no longer in the best interests of the Fund. In the event that a liquidity fee is imposed and/or redemptions are temporarily suspended, the Board may take certain other actions based on the particular facts and circumstances, including, but not limited to, modifying the timing and frequency of the Fund’s NAV determinations.

If liquidity fees are imposed or redemptions are temporarily suspended, the Fund will notify shareholders on the Fund’s website or by press release. In addition to identifying the Fund, such notifications will include the Fund’s percentage of total assets invested in weekly liquid assets, the time of implementation of the liquidity fee and/or redemption gate and details regarding the amount of the liquidity fee. If the Board, including a majority of the independent Trustees, changes or removes a liquidity fee or a temporary redemption gate, the Fund will notify shareholders in the same manner as described above. The imposition and termination of a liquidity fee or redemption gate will also be reported by the Fund to the SEC on Form N-CR. If redemptions are temporarily suspended, the Fund and your financial intermediary will not accept redemption or exchange orders until the Fund has notified shareholders that the redemption gate has been lifted. Shareholders wishing to redeem or exchange shares once the redemption gate has been lifted will need to submit a new redemption or exchange request to the Fund or their financial intermediary.

All liquidity fees payable by shareholders to the Fund can be used to offset any losses realized by the Fund when seeking to honor redemption requests during times of market stress. The Fund expects to treat such liquidity fees as not constituting income to the Fund.

A liquidity fee imposed by the Fund will reduce the amount you will receive upon the redemption of your shares, and will decrease the amount of any capital gain or increase the amount of any capital loss you will recognize from such redemption. Although there is some degree of uncertainty with respect to the tax treatment of liquidity fees received by money market funds, it is anticipated at this time that a liquidity fee will have no tax effect on the Fund. As the tax treatment will likely be the subject of future guidance issued by the Internal Revenue Service, the Fund will re-visit the applicable treatment of liquidity fees when they are received.

If the Fund's weekly liquid assets fall below 10% and the Board determines that it would not be in the best interests of the Fund to continue operating, the Board may suspend redemptions in the Fund and may approve the liquidation of the Fund. The Board may also suspend redemptions and liquidate the Fund if the Board determines that the deviation between its amortized cost price per share and its market-based NAV may result in material dilution or other unfair results to investors or existing shareholders. Prior to suspending redemptions, the Fund would be required to notify the SEC of its decision to liquidate and suspend redemptions. If the Fund ceases honoring redemptions and determines to liquidate, the Fund expects that it would notify shareholders on the Fund's website or by press release. Distributions to shareholders of liquidation proceeds may occur in one or more disbursements.

Purchase orders received after the last NAV determination of a given day, but prior to notification of the imposition of liquidity fees or a redemption gate will be cancelled unless re-confirmed. Under certain circumstances, the Fund may honor redemption or exchange orders (or pay redemptions without adding a liquidity fee to the redemption amount) if the Fund can verify that the redemption or exchange order was received in good order by the Fund or the Fund's agent before the Fund imposed liquidity fees or temporarily suspended redemptions.

## What Do Shares Cost?

### **DETERMINING MARKET VALUE OF SECURITIES**

The Board has decided that the best method for determining the value of portfolio instruments is amortized cost. Under the amortized cost valuation method, an investment is valued initially at its cost as determined in accordance with generally accepted accounting principles in the United States (GAAP). The Fund then adjusts the amount of interest income accrued each day over the term of the investment to account for any difference between the initial cost of their investment and the amount payable at its maturity. If the amount payable at maturity exceeds the initial cost (a "discount"), then the daily accrual is increased; if the initial cost exceeds the amount payable at maturity (a "premium"), then the daily accrual is decreased. The Fund adds the amount of the increase to (in the case of a discount), or subtracts the amount of the decrease from (in the case of a premium), the investment's cost each day. The Fund uses this adjusted cost to value the investment.

Accordingly, neither the amount of daily income nor the net asset value (NAV) is affected by any unrealized appreciation or depreciation of the portfolio. In periods of declining interest rates, the indicated daily yield on Shares of the Fund, computed by dividing the annualized daily income on the Fund's portfolio by the NAV, computed as above, may tend to be higher than a similar computation made by using a method of valuation based upon market prices and estimates. In periods of rising interest rates, the opposite may be true.

The Fund's use of the amortized cost method of valuing portfolio instruments depends on its compliance with certain conditions in the Rule. Under the Rule, the Board must establish procedures reasonably designed to stabilize the NAV per Share, as computed for purposes of distribution and redemption, at \$1.00 per Share, taking into account current market conditions and the Fund's investment objective. The procedures include monitoring the relationship between the amortized cost value per Share and the NAV per Share based upon available indications of market value. The Board will decide what, if any, steps should be taken if there is a difference of more than 0.5 of 1% between the two values. The Board will take any steps it considers appropriate (such as redemption in-kind or shortening the average portfolio maturity) to minimize any material dilution or other unfair results arising from differences between the two methods of determining NAV.

## How is the Fund Sold?

Under the Distributor's Contract with the Fund, the Distributor ("Federated Securities Corp.") offers Shares on a continuous, best-efforts basis.

## **RULE 12B-1 PLAN (CASH II SHARES AND CASH SERIES SHARES)**

As a compensation-type plan, the Rule 12b-1 Plan is designed to pay the Distributor for activities principally intended to result in the sale of Shares such as advertising and marketing of Shares (including printing and distributing prospectuses and sales literature to prospective shareholders and financial intermediaries) and providing incentives to financial intermediaries to sell Shares. The Plan is also designed to cover the cost of administrative services performed in conjunction with the sale of Shares, including, but not limited to, shareholder services, recordkeeping services and educational services, as well as the costs of implementing and operating the Plan. The Rule 12b-1 Plan allows the Distributor to contract with financial intermediaries to perform activities covered by the Plan. The Rule 12b-1 Plan is expected to benefit the Fund in a number of ways. For example, it is anticipated that the Plan will help the Fund attract and retain assets, thus providing cash for orderly portfolio management and Share redemptions and possibly helping to stabilize or reduce other operating expenses.

In addition, the Plan is integral to the multiple class structure of the Fund, which promotes the sale of Shares by providing a range of options to investors. The Fund's service providers that receive asset-based fees also benefit from stable or increasing Fund assets.

The Fund may compensate the Distributor more or less than its actual marketing expenses. In no event will the Fund pay for any expenses of the Distributor that exceed the maximum Rule 12b-1 Plan fee.

For some classes of shares the maximum Rule 12b-1 Plan fee that can be paid in any one year may not be sufficient to cover the marketing-related expenses the Distributor has incurred. Therefore, it may take the Distributor a number of years to recoup these expenses.

## **ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES**

The Distributor may pay out of its own resources amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators. In some cases, such payments may be made by, or funded from the resources of, companies affiliated with the Distributor (including the Adviser). While Financial Industry Regulatory Authority, Inc. (FINRA) regulations limit the sales charges that you may bear, there are no limits with regard to the amounts that the Distributor may pay out of its own resources. In addition to the payments which are generally described herein and in the Prospectus, the financial intermediary also may receive payments under the Rule 12b-1 Plan and/or Service Fees. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated funds within the financial intermediary's organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary's organization. The same financial intermediaries may receive payments under more than one or all categories. These payments assist in the Distributor's efforts to support the sale of Shares. These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary sells or may sell; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund's and/or other Federated funds' relationship with the financial intermediary. Not all financial intermediaries receive such payments and the amount of compensation may vary by intermediary. You should ask your financial intermediary for information about any payments it receives from the Distributor or the Federated funds and any services it provides, as well as the fees and/or commissions it charges.

Regarding the Fund's Wealth Share Class, the Wealth Share Class of the Fund currently does not accrue, pay or incur any shareholder services/account administration fees, although the Board of Trustees has approved the Wealth Share Class of the Fund to accrue, pay and incur such fees in amounts up to a maximum amount of 0.25%, or some lesser amount as the Board of Trustees shall approve from time to time. The Wealth Share Class of the Fund will not incur or charge such fees until such time as approved by the Fund's Board of Trustees.

The categories of additional payments are described below.

### **Supplemental Payments**

The Distributor may make supplemental payments to certain financial intermediaries that are holders or dealers of record for accounts in one or more of the Federated funds. These payments may be based on such factors as: the number or value of Shares the financial intermediary sells or may sell; the value of client assets invested; or the type and nature of services or support furnished by the financial intermediary.

### **Processing Support Payments**

The Distributor may make payments to certain financial intermediaries that sell Federated fund shares to help offset their costs associated with client account maintenance support, statement processing and transaction processing. The types of payments that the Distributor may make under this category include: payment of ticket charges on a per-transaction basis; payment of networking fees; and payment for ancillary services such as setting up funds on the financial intermediary's mutual fund trading system.

## Retirement Plan Program Servicing Payments

The Distributor may make payments to certain financial intermediaries who sell Federated fund shares through retirement plan programs. A financial intermediary may perform retirement plan program services itself or may arrange with a third party to perform retirement plan program services. In addition to participant recordkeeping, reporting or transaction processing, retirement plan program services may include: services rendered to a plan in connection with fund/investment selection and monitoring; employee enrollment and education; plan balance rollover or separation; or other similar services.

## Marketing Support Payments

From time to time, the Distributor, at its expense, may provide additional compensation to financial intermediaries that sell or arrange for the sale of Shares. Such compensation, provided by the Distributor, may include financial assistance to financial intermediaries that enable the Distributor to participate in or present at conferences or seminars, sales or training programs for invited registered representatives and other employees, client entertainment, client and investor events and other financial intermediary-sponsored events.

The Distributor also may hold or sponsor, at its expense, sales events, conferences and programs for employees or associated persons of financial intermediaries and may pay the travel and lodging expenses of attendees. The Distributor also may provide, at its expense, meals and entertainment in conjunction with meetings with financial intermediaries. Other compensation may be offered to the extent not prohibited by applicable federal or state law or regulations, or the rules of any self-regulatory agency, such as FINRA. These payments may vary depending on the nature of the event or the relationship.

For the year ended December 31, 2018, the following is a list of FINRA member firms that received additional payments from the Distributor or an affiliate. Additional payments may also be made to certain other financial intermediaries that are not FINRA member firms that sell Federated fund shares or provide services to the Federated funds and shareholders. These firms are not included in this list. Any additions, modifications or deletions to the member firms identified in this list that have occurred since December 31, 2018, are not reflected. You should ask your financial intermediary for information about any additional payments it receives from the Distributor.

## Purchases In-Kind

You may contact the Distributor to request a purchase of Shares using securities you own. The Fund reserves the right to determine whether to accept your securities and the minimum market value to accept. The Fund will value your securities in the same manner as it values its assets in determining the market value of the portfolio for purposes of its comparison with amortized cost valuation. An in-kind purchase may be treated as a sale of your securities for federal tax purposes; please consult your tax adviser regarding potential tax liability.

## Redemption In-Kind

Although the Fund generally intends to pay Share redemptions in cash, it reserves the right, on its own initiative or in response to a shareholder request, to pay the redemption price in whole or in part by a distribution of the Fund's portfolio securities.

Because the Fund has elected to be governed by Rule 18f-1 under the 1940 Act, the Fund is obligated to pay Share redemptions to any one shareholder in cash only up to the lesser of \$250,000 or 1% of the net assets represented by such Share class during any 90-day period.

Any Share redemption payment greater than this amount will also be in cash unless the Fund elects to pay all or a portion of the remainder of the redemption in portfolio securities, valued in the same way as the Fund determines its NAV.

Redemption in-kind is not as liquid as a cash redemption. Shareholders receiving the portfolio securities could have difficulty selling them, may incur related transaction costs and would be subject to risks of fluctuations in the securities' values prior to sale.

## Massachusetts Partnership Law

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Trust. The Declaration of Trust provides that no shareholder or former shareholder, merely by reason of his or her being or having been a shareholder, will be subject to any personal liability in connection with Trust property or the affairs of the Trust.

In the unlikely event a shareholder or former shareholder is held personally liable for the Trust's obligations, such shareholder will be entitled, out of the assets belonging to the applicable series, to be indemnified against all claims and reimbursed for all reasonably incurred expenses in connection with such claims. On request, the Trust will defend any claim made and pay any judgment against a shareholder from the assets belonging to the relevant series.

## Share Information

### **ORGANIZATION, CAPITALIZATION, VOTING RIGHTS AND OTHER MATTERS**

The Trust is a Massachusetts business trust established under a Declaration of Trust dated October 3, 1988, as amended and restated November 11, 2015. The Trust's Declaration of Trust may be amended at any time by a majority of the Trustees. Under the Declaration of Trust, the Trustees have the authority to create and classify shares of beneficial interest in separate series and classes without further action by shareholders. Each series and class thereof may issue an unlimited number of shares of beneficial interest, with no par value. Shares of each series represent equal proportionate interests in the assets of that series only and have identical voting, dividend, redemption, liquidation and other rights of shares in the same series except that expenses allocated to a class may be borne solely by such class as determined by the Trustees and a class may have exclusive voting rights with respect to matters affecting only that class. Shares entitle their holders to one vote per share (and fractional votes for fractional shares), are freely transferable and, except as specifically provided by the Trustees, have no preference, preemptive, appraisal, exchange, subscription or conversion rights. All shares issued are fully paid and non-assessable. In the event of a liquidation or termination of a series, each shareholder is entitled to receive his pro rata share of the net assets of that series.

It is not anticipated that the Trust will hold shareholders' meetings unless required by law or the Declaration of Trust. The Board will call special meetings of shareholders of the Trust, a series or class thereof only if required under the 1940 Act, in their discretion, or upon the written request of holders of 10% or more of the outstanding shares of the Trust or of the relevant series or class, entitled to vote at such meeting.

The Declaration of Trust provides that the Trustees may redeem shares in certain circumstances, such as when a shareholder does not meet the qualifications for ownership of a particular series or class, or when such redemptions are required to comply with applicable laws and regulations. The Declaration of Trust also provides that the Board may, without shareholder approval unless required by the 1940 Act, cause the Trust or any series or class to dissolve, convert, merge, consolidate, reorganize, sell all or any part of its assets, provided that the surviving or resulting entity is an open-end management investment company under the 1940 Act, or a series thereof. The Trust or any series or class may be terminated at any time by the Trustees by written notice to the shareholders.

### **SHAREHOLDERS OF THE FUND**

As of February 6, 2019, the following shareholders owned of record, beneficially or both, 5% or more of outstanding Service Shares: Hilltop Securities Inc., Dallas, TX, owned approximately 78,184,102 Shares (55.03%); Band & Co, Milwaukee, WI, owned approximately 29,954,287 Shares (21.08%); and TD Ameritrade Inc., Omaha, NE, owned approximately 22,058,274 Shares (15.52%).

As of February 6, 2019, the following shareholders owned of record, beneficially or both, 5% or more of outstanding Wealth Shares: Morgan Stanley Smith Barney, Jersey City, NJ, owned approximately 231,744,935 Shares (49.34%); JPMS LLC, Brooklyn, NY, owned approximately 29,802,666 Shares (6.34%); and Raymond James, St. Petersburg, FL, owned approximately 25,973,418 Shares (5.53%).

As of February 6, 2019, the following shareholders owned of record, beneficially or both, 5% or more of outstanding Cash II Shares: TD Ameritrade Inc., Omaha, NE, owned approximately 205,895,565 Shares (95.05%).

As of February 6, 2019, the following shareholders owned of record, beneficially or both, 5% or more of outstanding Cash Series Shares: Pershing LLC, Jersey City, NJ, owned approximately 40,883,107 Shares (96.41%).

As of February 6, 2019, the following shareholder owned of record, beneficially or both, 5% or more of outstanding Capital Shares: Pershing LLC, Jersey City, NJ, owned approximately 148,160,619 Shares (99.17%).

Shareholders owning 25% or more of outstanding Shares may be in control and be able to affect the outcome of certain matters presented for a vote of shareholders.

Hilltop Securities Inc. is organized in the state of Delaware and is a subsidiary of Hilltop Holdings Inc. organized in the state of Delaware.

Morgan Stanley Smith Barney is organized in the state of Delaware and is a subsidiary of Morgan Stanley; organized in the state of Delaware.

TD Ameritrade, Inc. is organized in the state of New York.

Pershing is organized in the state of New Jersey and is a subsidiary of The Bank of New York Mellon, organized in the state of New York.

## Tax Information

### FEDERAL INCOME TAX

The Fund intends to meet requirements of Subchapter M of the Internal Revenue Code (“Code”) applicable to regulated investment companies. If these requirements are not met, it will not receive special tax treatment and will be subject to federal corporate income tax.

The Fund will be treated as a single, separate entity for federal income tax purposes so that income earned and capital gains and losses realized by the Trust’s other portfolios will be separate from those realized by the Fund.

### State Taxes

Under existing California laws, distributions made by the Fund will not be subject to California individual income taxes to the extent that such distributions qualify as exempt-interest dividends under the California Revenue and Taxation Code, and provided further that at the close of each quarter, at least 50% of the value of the total assets of the Fund consists of obligations the interest on which is exempt from California taxation under either the Constitution or laws of California or the Constitution or laws of the United States. The Fund will furnish its shareholders with a written note designating exempt-interest dividends within 60 days after the close of its taxable year. Conversely, to the extent that distributions made by the Fund are derived from other types of obligations, such distributions will be subject to California individual income taxes.

Dividends of the Fund are not exempt from the California taxes payable by corporations.

## Who Manages and Provides Services to the Fund?

### BOARD OF TRUSTEES

The Board of Trustees is responsible for managing the Trust’s business affairs and for exercising all the Trust’s powers except those reserved for the shareholders. The following tables give information about each Trustee and the senior officers of the Fund. Where required, the tables separately list Trustees who are “interested persons” of the Fund (i.e., “Interested” Trustees) and those who are not (i.e., “Independent” Trustees). Unless otherwise noted, the address of each person listed is Federated Investors Tower, 1001 Liberty Avenue, Pittsburgh, PA 15222. The address of all Independent Trustees listed is 4000 Ericsson Drive, Warrendale, PA 15086-7561; Attention: Mutual Fund Board. As of December 31, 2018, the Trust comprised 20 portfolios, and the Federated Fund Complex consisted of 40 investment companies (comprising 102 portfolios). Unless otherwise noted, each Officer is elected annually. Unless otherwise noted, each Trustee oversees all portfolios in the Federated Fund Complex and serves for an indefinite term.

As of February 6, 2019, the Fund’s Board and Officers as a group owned less than 1% of each Class of the Fund’s outstanding Shares.

### QUALIFICATIONS OF INDEPENDENT TRUSTEES

Individual Trustee qualifications are noted in the “Independent Trustees Background and Compensation” chart. In addition, the following characteristics are among those that were considered for each existing Trustee and will be considered for any Nominee Trustee.

- Outstanding skills in disciplines deemed by the Independent Trustees to be particularly relevant to the role of Independent Trustee and to the Federated funds, including legal, accounting, business management, the financial industry generally and the investment industry particularly.
- Desire and availability to serve for a substantial period of time, taking into account the Board’s current mandatory retirement age of 75 years.
- No conflicts which would interfere with qualifying as independent.
- Appropriate interpersonal skills to work effectively with other Independent Trustees.
- Understanding and appreciation of the important role occupied by Independent Trustees in the regulatory structure governing regulated investment companies.
- Diversity of background.

## OFFICERS\*

Name Birth Date Positions Held with Trust Date Service Began	Principal Occupation(s) and Previous Position(s)
<b>Lori A. Hensler</b> Birth Date: January 6, 1967 TREASURER Officer since: April 2013	<b>Principal Occupations:</b> Principal Financial Officer and Treasurer of the Federated Fund Complex; Senior Vice President, Federated Administrative Services; Financial and Operations Principal for Federated Securities Corp. and Edgewood Services, Inc.; and Assistant Treasurer, Federated Investors Trust Company. Ms. Hensler has received the Certified Public Accountant designation.  <b>Previous Positions:</b> Controller of Federated Investors, Inc.; Senior Vice President and Assistant Treasurer, Federated Investors Management Company; Treasurer, Federated Investors Trust Company; Assistant Treasurer, Federated Administrative Services, Federated Administrative Services, Inc., Federated Securities Corp., Edgewood Services, Inc., Federated Advisory Services Company, Federated Equity Management Company of Pennsylvania, Federated Global Investment Management Corp., Federated Investment Counseling, Federated Investment Management Company, Passport Research, Ltd. and Federated MDTA, LLC; Financial and Operations Principal for Federated Securities Corp., Edgewood Services, Inc. and Southpointe Distribution Services, Inc.
<b>Peter J. Germain</b> Birth Date: September 3, 1959 CHIEF LEGAL OFFICER, SECRETARY AND EXECUTIVE VICE PRESIDENT Officer since: January 2005	<b>Principal Occupations:</b> Mr. Germain is Chief Legal Officer, Secretary and Executive Vice President of the Federated Fund Complex. He is General Counsel, Chief Legal Officer, Secretary and Executive Vice President, Federated Investors, Inc.; Trustee and Senior Vice President, Federated Investors Management Company; Trustee and President, Federated Administrative Services; Director and President, Federated Administrative Services, Inc.; Director and Vice President, Federated Securities Corp.; Director and Secretary, Federated Private Asset Management, Inc.; Secretary, Federated Shareholder Services Company; and Secretary, Retirement Plan Service Company of America. Mr. Germain joined Federated in 1984 and is a member of the Pennsylvania Bar Association.  <b>Previous Positions:</b> Deputy General Counsel, Special Counsel, Managing Director of Mutual Fund Services, Federated Investors, Inc.; Senior Vice President, Federated Services Company; and Senior Corporate Counsel, Federated Investors, Inc.
<b>Stephen Van Meter</b> Birth Date: June 5, 1975 CHIEF COMPLIANCE OFFICER AND SENIOR VICE PRESIDENT Officer since: July 2015	<b>Principal Occupations:</b> Senior Vice President and Chief Compliance Officer of the Federated Fund Complex; Vice President and Chief Compliance Officer of Federated Investors, Inc. and Chief Compliance Officer of certain of its subsidiaries. Mr. Van Meter joined Federated in October 2011. He holds FINRA licenses under Series 3, 7, 24 and 66.  <b>Previous Positions:</b> Mr. Van Meter previously held the position of Compliance Operating Officer, Federated Investors, Inc. Prior to joining Federated, Mr. Van Meter served at the United States Securities and Exchange Commission in the positions of Senior Counsel, Office of Chief Counsel, Division of Investment Management and Senior Counsel, Division of Enforcement.
<b>Deborah A. Cunningham</b> Birth Date: September 15, 1959 CHIEF INVESTMENT OFFICER Officer since: May 2004	<b>Principal Occupations:</b> Deborah A. Cunningham was named Chief Investment Officer of Federated's money market products in 2004. She joined Federated in 1981 and has been a Senior Portfolio Manager since 1997 and an Executive Vice President of the Fund's Adviser since 2009. Ms. Cunningham has received the Chartered Financial Analyst designation and holds an M.S.B.A. in Finance from Robert Morris College.
<b>Mary Jo Ochson</b> Birth Date: September 12, 1953 CHIEF INVESTMENT OFFICER Officer since: May 2004	<b>Principal Occupations:</b> Mary Jo Ochson was named Chief Investment Officer of Federated's tax-exempt, fixed-income products in 2004 and Chief Investment Officer of Federated's Tax-Free Money Markets in 2010. She joined Federated in 1982 and has been a Senior Portfolio Manager and a Senior Vice President of the Fund's Adviser since 1996. Ms. Ochson has received the Chartered Financial Analyst designation and holds an M.B.A. in Finance from the University of Pittsburgh.

\* Officers do not receive any compensation from the Fund.

In addition, the Fund has appointed an Anti-Money Laundering Compliance Officer.

## DIRECTOR/TRUSTEE EMERITUS PROGRAM

The Board has created a position of Director/Trustee Emeritus, whereby an incumbent Director/Trustee who has attained the age of 75 and completed a minimum of five years of service as a director/trustee, may, in the sole discretion of the Committee of Independent Directors/Trustees ("Committee"), be recommended to the full Board of Directors/Trustees of the Fund to serve as Director/Trustee Emeritus.

A Director/Trustee Emeritus that has been approved as such receives an annual fee in an amount equal to a percent of the annual base compensation paid to a Director/Trustee. Effective August 16, 2013, in the case of a Director/Trustee Emeritus who had previously served at least five years but less than 10 years as a Director/Trustee, the percent will be 10%. In the case of a Director/Trustee Emeritus who had previously served at least 10 years as a Director/Trustee, the percent will be 20%. Directors/Trustees Emeritus appointed prior to August 16, 2013 are paid 20% of the annual base compensation. In addition, the Director/Trustee Emeritus will be reimbursed for any expenses incurred in connection with their service, including expenses of travel and lodging incurred in attendance at Board meetings. Director/Trustee Emeritus will continue to receive relevant materials concerning the Funds, will be expected to attend at least one regularly scheduled quarterly meeting of the Board of Directors/Trustees each year and will be available to consult with the Committees or its representatives at reasonable times as requested by the Chairman; however, a Director/Trustee Emeritus does not have any voting rights at Board meetings and is not subject to election by shareholders of the Funds.

The Director/Trustee Emeritus will be permitted to serve in such capacity at the pleasure of the Committee, but the annual fee will cease to be paid at the end of the calendar year during which he or she has attained the age of 80 years, thereafter the position will be honorary.

The following table shows the fees paid to each Director/Trustee Emeritus for the Fund's most recently ended fiscal year and the portion of that fee paid by the Fund or Trust.<sup>1</sup>

#### EMERITUS TRUSTEES AND COMPENSATION

Director/Trustee Emeritus	Compensation From Trust (past fiscal year)	Total Compensation Paid to Director/Trustee Emeritus <sup>1</sup>
Nicholas Constantakis	\$90.91	\$50,000.00
Peter E. Madden	\$70.32	\$50,000.00

<sup>1</sup> The fees paid to each Director/Trustee are allocated among the funds that were in existence at the time the Director/Trustee elected Emeritus status, based on each fund's net assets at that time.

#### BOARD LEADERSHIP STRUCTURE

As required under the terms of certain regulatory settlements, the Chairman of the Board is not an interested person of the Fund and neither the Chairman, nor any firm with which the Chairman is affiliated, has a prior relationship with Federated or its affiliates or (other than his position as a Trustee) with the Fund.

#### COMMITTEES OF THE BOARD

Board Committee	Committee Members	Committee Functions	Meetings Held During Last Fiscal Year
<b>Executive</b>	J. Christopher Donahue John T. Collins John S. Walsh	In between meetings of the full Board, the Executive Committee generally may exercise all the powers of the full Board in the management and direction of the business and conduct of the affairs of the Trust in such manner as the Executive Committee shall deem to be in the best interests of the Trust. However, the Executive Committee cannot elect or remove Board members, increase or decrease the number of Trustees, elect or remove any Officer, declare dividends, issue shares or recommend to shareholders any action requiring shareholder approval.	One
<b>Audit</b>	John T. Collins G. Thomas Hough Maureen Lally-Green Thomas M. O'Neill	The purposes of the Audit Committee are to oversee the accounting and financial reporting process of the Fund, the Fund's internal control over financial reporting and the quality, integrity and independent audit of the Fund's financial statements. The Committee also oversees or assists the Board with the oversight of compliance with legal requirements relating to those matters, approves the engagement and reviews the qualifications, independence and performance of the Fund's independent registered public accounting firm, acts as a liaison between the independent registered public accounting firm and the Board and reviews the Fund's internal audit function.	Seven
<b>Nominating</b>	John T. Collins G. Thomas Hough Maureen Lally-Green Charles F. Mansfield, Jr. Thomas M. O'Neill P. Jerome Richey John S. Walsh	The Nominating Committee, whose members consist of all Independent Trustees, selects and nominates persons for election to the Fund's Board when vacancies occur. The Committee will consider candidates recommended by shareholders, Independent Trustees, officers or employees of any of the Fund's agents or service providers and counsel to the Fund. Any shareholder who desires to have an individual considered for nomination by the Committee must submit a recommendation in writing to the Secretary of the Fund, at the Fund's address appearing on the back cover of this SAI. The recommendation should include the name and address of both the shareholder and the candidate and detailed information concerning the candidate's qualifications and experience. In identifying and evaluating candidates for consideration, the Committee shall consider such factors as it deems appropriate. Those factors will ordinarily include: integrity, intelligence, collegiality, judgment, diversity, skill, business and other experience, qualification as an "Independent Trustee," the existence of material relationships which may create the appearance of a lack of independence, financial or accounting knowledge and experience and dedication and willingness to devote the time and attention necessary to fulfill Board responsibilities.	One

## BOARD'S ROLE IN RISK OVERSIGHT

The Board's role in overseeing the Fund's general risks includes receiving performance reports for the Fund and risk management reports from Federated's Chief Risk Officer at each regular Board meeting. The Chief Risk Officer is responsible for enterprise risk management at Federated, which includes risk management committees for investment management and for investor services. The Board also receives regular reports from the Fund's Chief Compliance Officer regarding significant compliance risks.

On behalf of the Board, the Audit Committee plays a key role overseeing the Fund's financial reporting and valuation risks. The Audit Committee meets regularly with the Fund's Principal Financial Officer and outside auditors, as well as with Federated's Chief Audit Executive to discuss financial reporting and audit issues, including risks relating to financial controls.

## BOARD OWNERSHIP OF SHARES IN THE FUND AND IN THE FEDERATED FAMILY OF INVESTMENT COMPANIES AS OF DECEMBER 31, 2018

<b>Interested Board Member Name</b>	<b>Dollar Range of Shares Owned in Federated California Municipal Cash Trust</b>	<b>Aggregate Dollar Range of Shares Owned in Federated Family of Investment Companies</b>
J. Christopher Donahue	None	Over \$100,000
Thomas R. Donahue	None	Over \$100,000
<b>Independent Board Member Name</b>		
John T. Collins	None	Over \$100,000
G. Thomas Hough	None	Over \$100,000
Maureen Lally-Green	None	Over \$100,000
Charles F. Mansfield, Jr.	None	\$50,001-\$100,000
Thomas M. O'Neill	None	Over \$100,000
P. Jerome Richey	None	Over \$100,000
John S. Walsh	None	Over \$100,000

## INVESTMENT ADVISER

The Adviser conducts investment research and makes investment decisions for the Fund.

The Adviser is a wholly owned subsidiary of Federated.

The Adviser shall not be liable to the Trust or any Fund shareholder for any losses that may be sustained in the purchase, holding or sale of any security or for anything done or omitted by it, except acts or omissions involving willful misfeasance, bad faith, gross negligence or reckless disregard of the duties imposed upon it by its contract with the Trust.

## Services Agreement

Federated Advisory Services Company, an affiliate of the Adviser, provides certain support services to the Adviser. The fee for these services is paid by the Adviser and not by the Fund.

## Other Related Services

Affiliates of the Adviser may, from time to time, provide certain electronic equipment and software to institutional customers in order to facilitate the purchase of Fund Shares offered by the Distributor.

## CODE OF ETHICS RESTRICTIONS ON PERSONAL TRADING

As required by Rule 17j-1 of the Investment Company Act of 1940 and Rule 204A-1 under the Investment Advisers Act (as applicable), the Fund, its Adviser and its Distributor have adopted codes of ethics. These codes govern securities trading activities of investment personnel, Fund Trustees and certain other employees. Although they do permit these people to trade in securities, including those that the Fund could buy, as well as Shares of the Fund, they also contain significant safeguards designed to protect the Fund and its shareholders from abuses in this area, such as requirements to obtain prior approval for, and to report, particular transactions.

## VOTING PROXIES ON FUND PORTFOLIO SECURITIES

The Board has delegated to the Adviser authority to vote proxies on the securities held in the Fund's portfolio. The Board has also approved the Adviser's policies and procedures for voting the proxies, which are described below.

## Proxy Voting Policies

The Adviser's general policy is to cast proxy votes in favor of management proposals and shareholder proposals that the Adviser anticipates will enhance the long-term value of the securities being voted. Generally, this will mean voting for proposals that the Adviser believes will: (a) improve the management of a company; (b) increase the rights or preferences of the voted securities; and/or (c) increase the chance that a premium offer would be made for the company or for the voted securities. This approach to voting proxy proposals will be referred to hereafter as the "General Policy."

The following examples illustrate how the General Policy may apply to management proposals and shareholder proposals submitted for approval or ratification by holders of the company's voting securities. However, whether the Adviser supports or opposes a proposal will always depend on the specific circumstances described in the proxy statement and other available information.

On matters related to the board of directors, generally the Adviser will vote to elect nominees to the board in uncontested elections except in certain circumstances, such as where the director: (1) had not attended at least 75% of the board meetings during the previous year; (2) serves as the company's chief financial officer; (3) has committed himself or herself to service on a large number of boards, such that we deem it unlikely that the director would be able to commit sufficient focus and time to a particular company; (4) is the chair of the nominating or governance committee when the roles of chairman of the board and CEO are combined and there is no lead independent director; (5) served on the compensation committee during a period in which compensation appears excessive relative to performance and peers; or (6) served on a board that did not implement a shareholder proposal that Federated supported and received more than 50% shareholder support the previous year. In addition, the Adviser will generally vote in favor of: (7) a full slate of directors, where the directors are elected as a group and not individually, unless more than half of the nominees are not independent; (8) shareholder proposals to declassify the board of directors; (9) shareholder proposals to require a majority voting standard in the election of directors; (10) shareholder proposals to separate the roles of chairman of the board and CEO; and (11) a proposal to require a company's audit committee to be comprised entirely of independent directors.

On other matters of corporate governance, generally the Adviser will vote in favor of: (1) proposals to grant shareholders the right to call a special meeting if owners of at least 25% of the outstanding stock agree; (2) a proposal to require independent tabulation of proxies and/or confidential voting of shareholders; (3) a proposal to ratify the board's selection of auditors, unless: (a) compensation for non-audit services exceeded 50% of the total compensation received from the company; or (b) the previous auditor was dismissed because of a disagreement with the company; (4) a proposal to repeal a shareholder rights plan (also known as a "poison pill") and against the adoption of such a plan, unless the plan is designed to facilitate, rather than prevent, unsolicited offers for the company; (5) shareholder proposals to eliminate supermajority requirements in company bylaws; and (6) shareholder proposals to allow shareholders owning at least 3% of the outstanding common stock for at least three years to nominate candidates for election to the board of directors ("Proxy Access"). The Adviser will generally withhold support from shareholder proposals to grant shareholders the right to act by written consent, especially if they already have the right to call a special meeting.

On environmental and social matters, generally the Adviser will vote in favor of shareholder proposals calling for enhanced disclosure of the company's approach to: (1) mitigating environmental risks, such as climate change; (2) monitoring gender pay equity; and (3) achieving and maintaining diversity on the board of directors. Generally, the Adviser will not support shareholder proposals calling for limitations on political activity by the company, including political contributions, lobbying and memberships in trade associations.

On matters of capital structure, generally the Adviser will vote against a proposal to authorize or issue shares that are senior in priority or voting rights to the voted securities, and in favor of a proposal to: (1) reduce the amount of shares authorized for issuance (subject to adequate provisions for outstanding convertible securities, options, warrants, rights and other existing obligations to issue shares); (2) grant authorities to issue shares with and without pre-emptive rights unless the size of the authorities would threaten to unreasonably dilute existing shareholders; and (3) authorize a stock repurchase program.

On matters relating to management compensation, generally the Adviser will vote in favor of stock incentive plans (including plans for directors) that align the recipients of stock incentives with the interests of shareholders, without creating undue dilution, and against: (1) the advisory vote on executive compensation plans ("Say On Pay") when the plan has failed to align executive compensation with corporate performance; (2) the advisory vote on the frequency of the Say On Pay vote when the frequency is other than annual; (3) proposals that would permit the amendment or replacement of outstanding stock incentives having more favorable terms (e.g., lower purchase prices or easier vesting requirements); and (4) executive compensation plans that do not disclose the maximum amounts of compensation that may be awarded or the criteria for determining awards.

On matters relating to corporate transactions, the Adviser will generally vote in favor of mergers, acquisitions, and sales of assets based upon the Advisers' analysis of the proposed business strategy, the transaction price and the expected impact on the total return for shareholders.

In addition, the Adviser will not vote any proxy if it determines that the consequences or costs of voting outweigh the potential benefit of voting. For example, if a foreign market requires shareholders voting proxies to retain the voted shares until the meeting date (thereby rendering the shares “illiquid” for some period of time), the Adviser will not vote proxies for such shares. In addition, the Adviser is not obligated to incur any expense to send a representative to a shareholder meeting or to translate proxy materials into English.

To the extent that the Adviser is permitted to loan securities, the Adviser will not have the right to vote on securities while they are on loan. However, the Adviser will take all reasonable steps to recall shares prior to the record date when the meeting raises issues that the Adviser believes materially affect shareholder value, including, but not limited to, excessive compensation, mergers and acquisitions, contested elections and weak oversight by the audit committee. However, there can be no assurance that the Adviser will have sufficient notice of such matters to be able to terminate the loan in time to vote thereon.

If proxies are not delivered in a timely or otherwise appropriate basis, the Adviser may not be able to vote a particular proxy.

For an Adviser that employs a quantitative investment strategy for certain funds or accounts that does not make use of qualitative research (“Non-Qualitative Accounts”), the Adviser may not have the kind of research to make decisions about how to vote proxies for them. Therefore, the Adviser will vote the proxies of these Non-Qualitative Accounts as follows: (a) in accordance with the Standard Voting Instructions (defined below) adopted by the Adviser with respect to issues subject to the proxies; (b) if the Adviser is directing votes for the same proxy on behalf of a regular qualitative account and a Non-Qualitative Account, the Non-Qualitative Account would vote in the same manner as the regular qualitative account; (c) if neither of the first two conditions apply, as the proxy voting service is recommending; and (d) if none of the previous conditions apply, as recommended by the Proxy Voting Committee (“Proxy Committee”).

### **Proxy Voting Procedures**

The Adviser has established a Proxy Voting Committee (“Proxy Committee”), to exercise all voting discretion granted to the Adviser by the Board in accordance with the proxy voting policies. To assist it in carrying out the day-to-day operations related to proxy voting, the Proxy Committee has created the Proxy Voting Management Group (PVMG). The day-to-day operations related to proxy voting are carried out by the Proxy Voting Operations Team (PVOT) and overseen by the PVMG. This work includes, interacting with a proxy voting service on the Proxy Committee’s behalf; soliciting voting recommendations from the Adviser’s investment professionals, as necessary; bringing voting recommendations to the Proxy Committee from the Adviser’s investment professionals; filing any required proxy voting reports; providing proxy voting reports to clients and investment companies as they are requested from time to time; keeping the Proxy Committee informed of any issues related to proxy voting; and voting client shares as directed by the Proxy Committee.

The Adviser has hired a proxy voting service to obtain, vote and record proxies in accordance with the directions of the Proxy Committee. The Proxy Committee has supplied the proxy voting services with general instructions (the “Standard Voting Instructions”) that represent decisions made by the Proxy Committee in order to vote common proxy proposals. As the Proxy Committee believes that a shareholder vote is equivalent to an investment decision, the Proxy Committee retains the right to modify the Standard Voting Instructions at any time or to vote contrary to them at any time in order to cast proxy votes in a manner that the Proxy Committee believes is: (a) in the best interests of the Adviser’s clients (and shareholders of the funds advised by the Adviser); and (b) will enhance the long-term value of the securities being voted. The proxy voting service may vote any proxy as directed in the Standard Voting Instructions without further direction from the Proxy Committee. However, if the Standard Voting Instructions require case-by-case direction for a proposal, the PVOT will work with the investment professionals and the proxy voting service to develop a voting recommendation for the Proxy Committee and to communicate the Proxy Committee’s final voting decision to the proxy voting service. Further, if the Standard Voting Instructions require the PVOT to analyze a ballot question and make the final voting decision, the PVOT will report such votes to the Proxy Committee on a quarterly basis for review.

### **Conflicts of Interest**

The Adviser has adopted procedures to address situations where a matter on which a proxy is sought may present a potential conflict between the interests of the Fund (and its shareholders) and those of the Adviser or Distributor. This may occur where a significant business relationship exists between the Adviser (or its affiliates) and a company involved with a proxy vote.

A company that is a proponent, opponent, or the subject of a proxy vote, and which to the knowledge of the Proxy Committee has this type of significant business relationship, is referred to below as an “Interested Company.”

The Adviser has implemented the following procedures in order to avoid concerns that the conflicting interests of the Adviser or its affiliates have influenced proxy votes. Any employee of the Adviser or its affiliates who is contacted by an Interested Company regarding proxies to be voted by the Adviser must refer the Interested Company to a member of the Proxy Committee, and must inform the Interested Company that the Proxy Committee has exclusive authority to determine how the proxy will be voted. Any Proxy Committee member contacted by an Interested Company must report it to the full Proxy Committee and provide a written summary of the communication. Under no circumstances will the Proxy Committee or any member of the Proxy Committee make a commitment to an Interested Company regarding the voting of proxies or disclose to an Interested Company how the

Proxy Committee has directed such proxies to be voted. If the Standard Voting Instructions already provide specific direction on the proposal in question, the Proxy Committee shall not alter or amend such directions. If the Standard Voting Instructions require the Proxy Committee to provide further direction, the Proxy Committee shall do so in accordance with the proxy voting policies, without regard for the interests of the Adviser with respect to the Interested Company. If the Proxy Committee provides any direction as to the voting of proxies relating to a proposal affecting an Interested Company, it must disclose annually to the Fund's Board information regarding: the significant business relationship; any material communication with the Interested Company; the matter(s) voted on; and how, and why, the Adviser voted as it did. In certain circumstances it may be appropriate for the Adviser to vote in the same proportion as all other shareholders, so as to not affect the outcome beyond helping to establish a quorum at the shareholders' meeting. This is referred to as "proportional voting." If the Fund owns shares of another Federated mutual fund, the Adviser will proportionally vote the client's proxies for that fund or seek direction from the Board or the client on how the proposal should be voted. If the Fund owns shares of an unaffiliated mutual fund, the Adviser may proportionally vote the Fund's proxies for that fund depending on the size of the position. If the Fund owns shares of an unaffiliated exchange-traded fund, the Adviser will proportionally vote the Fund's proxies for that fund.

### **Downstream Affiliates**

If the Proxy Committee gives further direction, or seeks to vote contrary to the Standard Voting Instructions, for a proxy relating to a portfolio company in which the Fund owns more than 10% of the portfolio company's outstanding voting securities at the time of the vote (Downstream Affiliate), the Proxy Committee must first receive guidance from counsel to the Proxy Committee as to whether any relationship between the Adviser and the portfolio company, other than such ownership of the portfolio company's securities, gives rise to an actual conflict of interest. If counsel determines that an actual conflict exists, the Proxy Committee must address any such conflict with the executive committee of the board of directors or trustees of any investment company client prior to taking any action on the proxy at issue.

### **Proxy Advisers' Conflicts of Interest**

Proxy advisory firms may have significant business relationships with the subjects of their research and voting recommendations. For example, a proxy voting service client may be a public company with an upcoming shareholders' meeting and the proxy voting service has published a research report with voting recommendations. In another example, a proxy voting service board member also sits on the board of a public company for which the proxy voting service will write a research report. These and similar situations give rise to an actual or apparent conflict of interest.

In order to avoid concerns that the conflicting interests of the engaged proxy voting service have influenced proxy voting recommendations, the Adviser will take the following steps:

- A due diligence team made up of employees of the Adviser and/or its affiliates will meet with the proxy voting service on an annual basis and determine through a review of their policies and procedures and through inquiry that the proxy voting service has established a system of internal controls that provide reasonable assurance that their voting recommendations are not influenced by the business relationships they have with the subjects of their research.
- Whenever the standard voting guidelines call for voting a proposal in accordance with the proxy voting service recommendation and the proxy voting service has disclosed that they have a conflict of interest with respect to that issuer, the PVOT will take the following steps: (a) the PVOT will obtain a copy of the research report and recommendations published by another proxy voting service for that issuer; (b) the Head of the PVOT, or his designee, will review both the engaged proxy voting service research report and the research report of the other proxy voting service and determine what vote will be cast. The PVOT will report all proxies voted in this manner to the Proxy Committee on a quarterly basis. Alternatively, the PVOT may seek direction from the Committee on how the proposal shall be voted.

### **Proxy Voting Report**

A report on "Form N-PX" of how the Fund voted any proxies during the most recent 12-month period ended June 30 is available via the Proxy Voting Record (Form N-PX) link associated with the Fund and share class name at [www.FederatedInvestors.com/FundInformation](http://www.FederatedInvestors.com/FundInformation). Form N-PX filings are also available at the SEC's website at [www.sec.gov](http://www.sec.gov).

### **PORTFOLIO HOLDINGS INFORMATION**

Information concerning the Fund's portfolio holdings is available via the link to the Fund and share class name at [www.FederatedInvestors.com/FundInformation](http://www.FederatedInvestors.com/FundInformation). Such information is posted on the website five business days after both mid-month and month-end then remains posted on the website for six months thereafter. Summary portfolio composition information as of the close of each month is posted on the website 15 days (or the next business day) after month-end and remains until replaced by the information for the succeeding month. The summary portfolio composition information may include identification of the Fund's top 10 credit/obligor exposures, weighted average maturity, weighted average life and percentage breakdowns of the portfolio by effective maturity range and type of security. The Fund's WAM and WAL, Shadow NAV (market-based value of the Fund's portfolio), Weekly Liquid Assets and Daily Flows are posted every business day and remain posted on the website for six months thereafter.

You may also access portfolio information as of the end of the Fund's fiscal quarters via the link to the Fund and share class name at [www.FederatedInvestors.com/FundInformation](http://www.FederatedInvestors.com/FundInformation). The Fund's Annual Shareholder Report and Semi-Annual Shareholder Report contain complete listings of the Fund's portfolio holdings as of the end of the Fund's second and fourth fiscal quarters. The Fund's Form N-Q filings contain complete listings of the Fund's portfolio holdings as of the end of the Fund's first and third fiscal quarters. Fiscal quarter information is made available on the website within 70 days after the end of the fiscal quarter. This information is also available in reports filed with the SEC at the SEC's website at [www.sec.gov](http://www.sec.gov).

The disclosure policy of the Fund and the Adviser prohibits the disclosure of portfolio holdings information to any investor or intermediary before the same information is made available to other investors. Employees of the Adviser or its affiliates who have access to nonpublic information concerning the Fund's portfolio holdings are prohibited from trading securities on the basis of this information. Such persons must report all personal securities trades and obtain pre-clearance for all personal securities trades other than mutual fund shares.

Firms that provide administrative, custody, financial, accounting, legal or other services to the Fund may receive nonpublic information about Fund portfolio holdings for purposes relating to their services. The Fund may also provide portfolio holdings information to publications that rate, rank or otherwise categorize investment companies. Traders or portfolio managers may provide "interest" lists to facilitate portfolio trading if the list reflects only that subset of the portfolio for which the trader or portfolio manager is seeking market interest. A list of service providers, publications and other third parties who may receive nonpublic portfolio holdings information appears in the Appendix to this SAI.

The furnishing of nonpublic portfolio holdings information to any third party (other than authorized governmental or regulatory personnel) requires the prior approval of the President of the Adviser and of the Chief Compliance Officer of the Fund. The President of the Adviser and the Chief Compliance Officer will approve the furnishing of nonpublic portfolio holdings information to a third party only if they consider the furnishing of such information to be in the best interests of the Fund and its shareholders. In that regard, and to address possible conflicts between the interests of Fund shareholders and those of the Adviser and its affiliates, the following procedures apply. No consideration may be received by the Fund, the Adviser, any affiliate of the Adviser or any of their employees in connection with the disclosure of portfolio holdings information. Before information is furnished, the third party must sign a written agreement that it will safeguard the confidentiality of the information, will use it only for the purposes for which it is furnished and will not use it in connection with the trading of any security. Persons approved to receive nonpublic portfolio holdings information will receive it as often as necessary for the purpose for which it is provided. Such information may be furnished as frequently as daily and often with no time lag between the date of the information and the date it is furnished. The Board receives and reviews annually a list of the persons who receive nonpublic portfolio holdings information and the purposes for which it is furnished.

#### **BROKERAGE TRANSACTIONS AND INVESTMENT ALLOCATION**

When selecting brokers and dealers to handle the purchase and sale of portfolio instruments, the Adviser looks for prompt execution of the order at a favorable price. Fixed-income securities are generally traded in an over-the-counter market on a net basis (i.e., without commission) through dealers acting as principal or in transactions directly with the issuer. Dealers derive an undisclosed amount of compensation by offering securities at a higher price than they bid for them. Some fixed-income securities may have only one primary market maker. The Adviser seeks to use dealers it believes to be actively and effectively trading the security being purchased or sold, but may not always obtain the lowest purchase price or highest sale price with respect to a security. The Adviser makes decisions on portfolio transactions and selects brokers and dealers subject to review by the Fund's Board.

Investment decisions for the Fund are made independently from those of other accounts managed by the Adviser and accounts managed by affiliates of the Adviser. When the Fund and one or more of those accounts invests in, or disposes of, the same security, available investments or opportunities for sales will be allocated among the Fund and the account(s) in a manner believed by the Adviser to be equitable. While the coordination and ability to participate in volume transactions may benefit the Fund, it is possible that this procedure could adversely impact the price paid or received and/or the position obtained or disposed of by the Fund. Investment decisions, and trading, for certain separately managed or wrap-fee accounts, and other accounts, of the Adviser and/or certain investment adviser affiliates of the Adviser are generally made, and conducted, independently from the Fund. It is possible that such independent trading activity could adversely impact the prices paid or received and/or positions obtained or disposed of by the Fund.

#### **ADMINISTRATOR**

Federated Administrative Services (FAS), a subsidiary of Federated, provides administrative personnel and services, including certain legal, compliance, recordkeeping and financial reporting services ("Administrative Services"), necessary for the operation of the Fund. FAS provides Administrative Services for a fee based upon the rates set forth below paid on the average daily net assets of the Fund. For purposes of determining the appropriate rate breakpoint, "Investment Complex" is defined as all of the Federated Funds subject to a fee under the Administrative Services Agreement with FAS. FAS is also entitled to reimbursement for certain out-of-pocket expenses incurred in providing Administrative Services to the Fund.

<b>Administrative Services Fee Rate</b>	<b>Average Daily Net Assets of the Investment Complex</b>
0.100 of 1%	on assets up to \$50 billion
0.075 of 1%	on assets over \$50 billion

#### **CUSTODIAN**

State Street Bank and Trust Company, Boston, Massachusetts, is custodian for the securities and cash of the Fund.

#### **TRANSFER AGENT AND DIVIDEND DISBURSING AGENT**

State Street Bank and Trust Company, the Fund's registered transfer agent, maintains all necessary shareholder records.

#### **INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The independent registered public accounting firm for the Fund, Ernst & Young LLP, conducts its audits in accordance with the standards of the Public Company Accounting Oversight Board (United States), which require it to plan and perform its audits to provide reasonable assurance about whether the Fund's financial statements and financial highlights are free of material misstatement.

#### **FEES PAID BY THE FUND FOR SERVICES**

<b>For the Year Ended October 31</b>	<b>2018</b>	<b>2017</b>	<b>2016</b>
Advisory Fee Earned	\$1,858,575	\$1,542,188	\$2,434,544
Advisory Fee Waived	\$1,088,038	\$1,148,184	\$2,217,736
Net Administrative Fee	\$ 454,246	\$ 304,280	\$ 475,954
<b>Net 12b-1 Fee:</b>			
Investment Shares	\$ —	\$ 4,450	\$ 4,168
Cash II Shares	\$ 14,212	\$ 9,955	\$ 16,483
Cash Series Shares	\$ 225,011	\$ 269,916	\$ 122,712
<b>Net Shareholder Services Fee:</b>			
Investment Shares	\$ —	\$ 4,850	\$ 2,395
Service Shares	\$ 370,672	\$ 371,237	\$ 249,222
Cash II Shares	\$ 23,687	\$ 16,373	\$ 8,154
Capital Shares	\$ 110,240	\$ 59,002	\$ 56,139
Cash Series Shares	\$ 107,312	\$ 36,087	\$ 5,646

Fees are allocated among classes based on their pro rata share of Fund assets, except for marketing ("Rule 12b-1") fees and shareholder services fees, which are borne only by the applicable class of Shares.

#### **SECURITIES LENDING ACTIVITIES**

The Fund does not participate in a securities lending program and did not engage in any securities lending activities during the Fund's most recent fiscal year.

### **Financial Information**

The Financial Statements for the Fund for the fiscal year ended October 31, 2018, are incorporated herein by reference to the Annual Report to Shareholders of Federated California Municipal Cash Trust dated October 31, 2018.

### **Investment Ratings**

#### **STANDARD & POOR'S (S&P) RATINGS**

##### **S&P MUNICIPAL SHORT-TERM NOTE RATINGS**

An S&P note rating reflects the liquidity factors and market access risks unique to notes.

**SP-1**—Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

**SP-2**—Satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

**SP-3**—Speculative capacity to pay principal and interest.

## **S&P DUAL RATINGS**

S&P may assign dual ratings to debt issues that have a put option or demand feature. The first component of the rating addresses the likelihood of repayment of principal and interest as due, and the second component of the rating addresses only the demand feature. The first component of the rating can relate to either a short-term or long-term transaction and accordingly use either short-term or long-term rating symbols. The second component of the rating relates to the put option and is assigned a short-term rating symbol (for example, 'AAA/A-1+' or 'A-1+/A-1'). With U.S. municipal short-term demand debt, the U.S. municipal short-term note rating symbols are used for the first component of the rating (for example, 'SP-1+/A-1+'). The definitions for the long-term and the short-term ratings are provided below.

### **S&P SHORT-TERM ISSUE CREDIT RATINGS**

**A-1**—A short-term obligation rated "A-1" is rated the highest category by S&P. The obligor's capacity to meet its financial commitments on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitments on these obligations is extremely strong.

**A-2**—A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitments on the obligation is satisfactory.

**A-3**—A short-term obligation rated "A-3" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely weaken an obligor's capacity to meet its financial commitments on the obligation.

### **S&P LONG-TERM ISSUE CREDIT RATINGS\***

**\* RATINGS FROM 'AA' TO 'A' MAY BE MODIFIED BY THE ADDITION OF A PLUS (+) OR MINUS (-) SIGN TO SHOW RELATIVE STANDING WITHIN THE RATING CATEGORIES.**

**AAA**—An obligation rated "AAA" has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitments on the obligation is extremely strong.

**AA**—An obligation rated "AA" differs from the highest rated obligations only to a small degree. The obligor's capacity to meet its financial commitments on the obligation is very strong.

**A**—An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitments on the obligation is still strong.

## **MOODY'S INVESTORS SERVICE, INC. (MOODY'S) RATINGS**

### **MOODY'S SHORT-TERM MUNICIPAL OBLIGATION RATINGS**

Moody's short-term ratings are designated Moody's Investment Grade (MIG or VMIG). (See below.) The purpose of the MIG or VMIG ratings is to provide investors with a simple system by which the relative investment qualities of short-term obligations may be evaluated.

The Municipal Investment Grade (MIG) scale is used to rate US municipal bond anticipation notes of up to five years maturity. Municipal notes rated on the MIG scale may be secured by either pledged revenues or proceeds of a take-out financing received prior to note maturity. MIG ratings expire at the maturity of the obligation, and the issuer's long-term rating is only one consideration in assigning the MIG rating.

**MIG 1**—This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support or demonstrated broad based access to the market for refinancing.

**MIG 2**—This designation denotes strong credit quality. Margins of protection are ample although not as large as in the preceding group.

**MIG 3**—This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

### **MOODY'S VARIABLE RATE DEMAND NOTES (VRDNS) AND TENDER OPTION BONDS (TOBS) RATINGS**

Short-term ratings on issues with demand features are differentiated by the use of the VMIG symbol to reflect such characteristics as payment upon periodic demand rather than fixed maturity dates and payment relying on external liquidity. In this case, two ratings are usually assigned, (for example, Aaa/VMIG-1); the first representing an evaluation of risk associated with scheduled principal and interest payments, and the second representing an evaluation of risk associated with the ability to receive purchase price upon demand ("demand feature"). The VMIG rating can be assigned a 1 or 2 designation using the same definitions described above for the MIG rating.

**VMIG 1**—This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

**VMIG 2**—This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

**VMIG 3**—This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

#### **MOODY'S COMMERCIAL PAPER (CP) RATINGS**

**P-1**—Issuers (or supporting institutions) rated P-1 have a superior ability to repay short-term debt obligations.

**P-2**—Issuers (or supporting institutions) rated P-2 have a strong ability to repay short-term debt obligations.

**P-3**—Issuers (or supporting institutions) rated P-3 have an acceptable ability to repay short-term obligations.

#### **MOODY'S LONG-TERM DEBT RATINGS**

**Aaa**—Obligations rated “Aaa” are judged to be of the highest quality, subject to the lowest level of credit risk.

**Aa**—Obligations rated “Aa” are judged to be of high quality and are subject to very low credit risk.

**A**—Obligations rated “A” are judged to be upper-medium grade and are subject to low credit risk.

#### **FITCH RATINGS, INC. (FITCH)**

##### **FITCH SHORT-TERM DEBT RATINGS**

**F1**—Indicates the strongest capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. Under the agency's National Rating scale, this rating is assigned to the lowest default risk relative to others in the same country or monetary union. Where the liquidity profile is particularly strong, a “+” is added to the assigned rating.

**F2**—Indicates a good capacity for timely payment of financial commitments relative to other issuers or obligations in the same country or monetary union. However, the margin of safety is not as great as in the case of the higher ratings.

**F3**—Indicates an adequate capacity for timely payment of financial commitments relative to other issuers or obligations in the same country or monetary union.

##### **FITCH LONG-TERM DEBT RATINGS**

**AAA**—**Highest credit quality.** “AAA” ratings denote the lowest expectation of default risk. They are assigned only in case of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

**AA**—**Very high credit quality.** “AA” ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

**A**—**High credit quality.** “A” ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

**BBB**—**Good credit quality.** “BBB” ratings indicate that expectations of a default risk are currently low. The capacity for timely payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity.

#### **DBRS, INC. (DBRS®) RATINGS**

##### **DBRS SHORT-TERM DEBT AND COMMERCIAL PAPER RATINGS**

The DBRS short-term debt rating scale provides an opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner.

**R-1 (high)**—Highest credit quality. The capacity for the payment of short-term financial obligations as they fall due is exceptionally high. Unlikely to be adversely affected by future events.

**R-1 (middle)**—Superior credit quality. The capacity for payments of short-term financial obligations as they fall due is very high. Differs from R-1 (high) by a relatively modest degree. Unlikely to be significantly vulnerable to future events.

**R-1 (low)**—Good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial. Overall strength is not as favorable as higher rating categories. May be vulnerable to future events, but qualifying negative factors are considered manageable.

**R-2 (high)**—Upper end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events.

**R-2 (middle)**—Adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events or may be exposed to other factors that could reduce credit quality.

**R-2 (low)**—Lower end of adequate credit quality. The capacity for the payment of short-term financial obligations as they fall due is acceptable. May be vulnerable to future events. A number of challenges are present that could affect the issuer’s ability to meet such obligations.

**R-3**—Lowest end of adequate credit quality. There is a capacity for the payment of short-term financial obligations as they fall due. May be vulnerable to future events and the certainty of meeting such obligations could be impacted by a variety of developments.

#### **DBRS LONG-TERM DEBT RATINGS**

The DBRS long-term rating scale provides an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which an obligations has been issued.

**AAA**—Highest quality credit. The capacity for the payment of financial obligations is exceptionally high and unlikely to be adversely affected by future events.

**AA**—Superior credit quality. The capacity for the payment of financial obligations is considered high. Credit quality differs from AAA only to a small degree. Unlikely to be significantly vulnerable to future events.

**A**—Good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than AA. May be vulnerable to future events, but qualifying negative factors are considered manageable.

**BBB**—Adequate credit quality. The capacity for the payment of financial obligations is considered acceptable. May be vulnerable to future events.

**High or low** grades are used to indicate the relative standing of a credit within a particular rating category. The absence of one of these designations indicates the rating is in the middle of the category. Note that “high” and “low” grades are not used for the AAA category.

#### **NOT RATED**

Certain nationally recognized statistical rating organizations (NRSROs) such as S&P and Moody’s may designate certain issues as NR, meaning that the issue or obligation is not rated.

The Yield Book, Inc.

Wolters Kluwer N.V.

## Appendix B – California State Risk

### STATE SPECIFIC INFORMATION

**Risks of Concentration.** The following information as to certain state specific considerations is given to investors in view of the Fund's policy of concentrating its investments in particular state issuers. Such information supplements the information in the prospectus. It is derived from sources that are generally available to investors and is believed to be accurate. Such information constitutes only a brief summary, does not purport to be a complete description and is based on information from official statements relating to securities offerings of issuers of each particular state. The Trust has not independently verified this information.

The following describes economic conditions which may not continue and could change materially. There can be no assurance that particular bond issues may not be adversely affected by changes in economic, political or other conditions.

### CALIFORNIA

*Information as of February 1, 2019*

#### Special Considerations Relating to California

##### Population and Economy of the State

The State of California (the "State" or "California") is by far the most populous state in the nation, over 48 percent larger than the second-ranked state, according to the 2010 U.S. Census data. The 2018 estimate of the State's population was 39.8 million, which is approximately 12 percent of the total United States population.

California's economy, the largest among the 50 states and one of the largest and most diverse in the world, has major components in high technology, trade, entertainment, agriculture, manufacturing, government, tourism, construction and services. The relative proportion of the various components of the California economy closely resembles the make-up of the national economy. The California economy continues to benefit from broad-based growth.

The U.S. economy is in its ninth year of expansion from the recession that officially ended in 2009. Strengthening demand is driving the current U.S. expansion, and this has had positive implications for state and local budgets. The State's unemployment rate in December 2018 (seasonally adjusted) was 4.2 percent, compared to 3.9 percent nationally.

The housing market showed continued growth during the 2016-17 fiscal year, with the number of residential building permits issued increasing by 10.7 percent, to nearly 108,000 units, compared to the prior fiscal year. However, commercial construction permits fell 4 percent from the previous year. The median price of homes in California increased during the fiscal year by 7 percent, higher than the 5.4 percent increase in the prior fiscal year. The State's median home price in June 2017 was over \$555,000, more than double the national median price of \$263,000.

##### Recent State Budget Issues

Budget deficits had recurred from year-to-year for over a decade prior to the 2013-14 fiscal year. In addition, the State's revenues (particularly the personal income tax) can be volatile and correlate to the overall economic conditions. During the last recession, the State experienced a significant economic downturn and the State tax revenues declined precipitously, resulting in budget deficits in the tens of billions of dollars.

California's budget challenges have been exacerbated by an unprecedented level of debts, deferrals, and budgetary obligations accumulated over the prior decade, although the State has paid down a substantial amount of these debts in the past several years. In addition, the State faces hundreds of billions of dollars in other long-term cost pressures, debts and liabilities, including State retiree pension and health care costs. As the State's economy has recovered, the State has paid off billions of dollars of budgetary borrowings, debts and deferrals which were accumulated in order to balance budgets during the previous recession and years prior.

The passage of Proposition 2 in November 2014 gives the State a means to seek to avoid repeating the prior boom-and-bust cycles. Proposition 2 takes into account the State's heavy dependence on the performance of the stock market and the resulting capital gains. Under Proposition 2, upswings in personal income taxes derived from capital gains will be deposited in the Budget Stabilization Account ("BSA") and used to pay off certain of the State's debts and limits. Beginning with fiscal year 2015-16, Proposition 2 prompted several requirements. For example, the maximum size to be reserved in the BSA is set at 10 percent of the General Fund revenues, with the excess earmarked for infrastructure, including deferred maintenance. In addition, Proposition 2 requires that the State provide a multi-year budget forecast to help better manage the State's longer-term finances. The 2018-2019 budget (the "Budget") supplements the BSA with an additional \$5.3 billion deposit – bringing the fund's balance to \$13.8 billion next year, or one hundred percent of its constitutional target.

## Fiscal Year 2018-19 State Budget

The Budget, including the 2018 Budget Act, was enacted on June 27, 2018. General Fund revenues for fiscal year 2018-19 are projected at \$137.7 billion, an increase of \$5.2 billion or 3.9 percent compared with revised estimates for fiscal year 2017-18. General Fund expenditures for fiscal year 2018-19 are projected at \$138.7 billion, an increase of \$11.6 billion or 9.2 percent compared with revised estimates for fiscal year 2017-18. The Budget also includes special fund expenditures of \$58.5 billion and bond fund expenditures of \$4.1 billion.

The Budget also includes major General Fund expenditures for K-12 education, higher education, health and human services, and corrections and rehabilitation. For K-12 education, the Budget includes funding of \$56.7 billion for fiscal year 2018-19, of which \$55.9 billion is from the General Fund (both Non-Proposition 98 and Proposition 98), \$0.106 billion is from special funds and \$0.656 billion is from bond funds. For higher education, the Budget includes funding of \$16.6 billion for fiscal year 2018-19, of which \$16.1 billion is from the General Fund (both Non-Proposition 98 and Proposition 98 expenditures), \$0.173 billion is from special funds and \$0.335 billion is from bond funds, for the University of California, California State University and the community colleges. For health and human services, the Budget includes funding of \$64.3 billion for fiscal year 2018-19, of which \$39.5 billion is from the General Fund and \$24.8 billion is from special funds. For corrections and rehabilitation, the Budget includes funding of \$15 billion for fiscal year 2018-19, of which \$12.1 billion is from the General Fund and \$2.9 billion is from special funds.

## Ratings

As of February 2019, the following ratings for California general obligation bonds have been received from Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Ratings Services ("S&P") and Fitch Ratings, Inc. ("Fitch"):

<b>Fitch</b>	<b>Moody's</b>	<b>S&amp;P</b>
AA-	Aa3	AA-

These ratings are among the lowest of any of the 50 states. These ratings apply to the State only and are not indicative of the ratings assigned to local governments, such as counties, cities, school districts and other local agencies.

Any explanation of the significance of such ratings may be obtained only from the rating agency furnishing such ratings. There is no assurance that such ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely if, in the judgment of the particular rating agency, circumstances so warrant.

## Local Governments

**General.** The primary units of local government in California are the 58 counties, which range in population from approximately 1,154 in Alpine County to over 10.2 million in Los Angeles County. Counties are responsible for the provision of many basic services, including indigent health care, welfare, jails, and public safety in unincorporated areas. There are also 482 incorporated cities in California and thousands of special districts formed for education, utilities, and other services. Spending and revenues collected by the State or by local government has shifted over the past decades.

The fiscal condition of local governments has been constrained since Proposition 13, which added Article XIII A to the State Constitution, was approved by California voters in 1978. Proposition 13 reduced and limited the future growth of property taxes and limited the ability of local governments to impose "special taxes" (those devoted to a specific purpose) without two-thirds voter approval. Proposition 218, another constitutional amendment enacted by initiative in 1996, further limited the ability of local governments to raise taxes, fees, and other exactions. Counties, in particular, have had fewer options to raise revenues than many other local government entities, while they have been required to maintain many services.

In the aftermath of Proposition 13, the State provided aid to local governments from the General Fund to make up some of the loss of property tax moneys, including assuming principal responsibility for funding K-12 schools and community colleges. During the recession of the early 1990s, the State Legislature reduced the post-Proposition 13 aid to local government entities other than K-12 schools and community colleges by requiring cities and counties to transfer some of their property tax revenues to school districts. However, the State Legislature also provided additional funding sources, such as sales taxes, and reduced certain mandates for local services funded by cities and counties.

The 2004 Budget Act, related legislation and the enactment of Proposition 1A in 2004 and Proposition 22 in 2010 (described below) dramatically changed the State-local fiscal relationship. These constitutional and statutory changes implemented an agreement negotiated between former Governor Schwarzenegger and local government officials (the "State-local agreement") in connection with the 2004 Budget Act.

As part of the State-local agreement, voters at the November 2004 election approved Proposition 1A, which amended the State Constitution to, among other items, reduce the State Legislature's authority over local government revenue sources by placing restrictions on the State's access to local governments' property, sales, and vehicle license fee revenues. Proposition 22, adopted on November 2, 2010, supersedes Proposition 1A of 2004 and prohibits any future borrowing by the State from local government funds, and generally prohibits the Legislature from making changes in local government funding sources. Allocation of local transportation funds cannot be changed without an extensive process.

In addition, the 2011 Budget Act included a major realignment of public safety programs from the State to local governments. The realignment was designed to move program and fiscal responsibility to the level of government that can best provide the service, eliminate duplication of effort, generate savings, and increase flexibility. The implementation of the Community Corrections Grant Program authorized by the 2011 Budget Act moved lower-level offenders from State prisons to county supervision and reduced the number of parole violators in the State's prisons. Other realigned programs include local public safety programs, mental health, substance abuse, foster care, child welfare services, and adult protective services. It is funded through two sources: (i) a State special fund sales tax of 1.0625 percent and (ii) vehicle license fees. The Budget includes \$109.3 million to continue this successful program. In November 2016, the voters approved Proposition 57, which reforms the juvenile and adult criminal justice system in California by creating a parole consideration process for nonviolent offenders who have served the full term for their primary criminal offense in state prison. Overall, the 2017-18 budget estimated that Proposition 57 would result in net savings of approximately \$186 million in 2020-21.

Proposition 26, approved by voters in 2010, specifies that a two-thirds vote of both houses of the State Legislature is required for any increase in any tax on any taxpayer, thereby eliminating the prior practice where a tax increase coupled with a tax reduction could be adopted by a majority vote. It also provides that any increase in a fee beyond the amount needed to provide the specific service or benefit is deemed a tax requiring two-thirds vote.

Proposition 98, enacted in 1988, directs a minimum portion of General Fund revenues to support K-12 schools and community colleges. In 2002, the voters approved Proposition 49, which requires the State to expand funding for before and after school programs in the State's public elementary, middle and junior high schools. Since fiscal year 2006-07, these after school programs have been funded at \$550 million annually. These funds are part of the Proposition 98 minimum funding guarantee for K-14 education and expenditures can only be reduced in certain low revenue years.

#### **State of California Finances**

The moneys of the State are segregated into the General Fund and over 1,000 other funds, including special, bond and other funds. The General Fund consists of revenues received by the State Treasury and is not required by law to be credited to any fund; earnings from the investment of State moneys are not allocable to another Fund. The General Fund is the principal operating fund for the majority of governmental activities and is the depository of most of the major revenue sources of California. The State's major revenue sources are from personal income tax, sales and use tax, and corporation tax.

#### **Retirement Liabilities**

The State participates in two principal retirement systems, CalPERS and CalSTRS. In each case, the State makes annual contributions from the General Fund, and additional contributions are made by other employers which are part of the systems, and by employees. The State's annual contribution to CalPERS is determined by the CalPERS Board of Administration, and depends upon a variety of factors, including future investment performance, actuarial assumptions, and additional potential changes in retirement benefits. The State's annual contribution to CalSTRS is set by statute, and the CalSTRS Board has limited authority to adjust the State's contribution. The State has always made its mandatory contributions. For fiscal year 2018-19, the State's contribution to CalPERS is \$6.2 billion and its contribution to CalSTRS is \$3.1 billion. Both systems currently have unfunded liabilities in the tens of billions of dollars, and both systems have taken steps in recent years to address these gaps (such as by lowering the estimated investment return on system assets), which will result in increased State contributions in future years.

#### **Constitutional and Statutory Limitations on Taxes and Appropriations; Constraints on the State Budget Process; Future Initiatives**

California's fiscal year begins on July 1st and ends on June 30th of the following year. Under the California Constitution, money may be drawn from the Treasury only through an appropriation made by law. The primary source of the annual expenditure is the annual Budget Act as approved by the State Legislature and signed by the Governor. The annual budget is proposed by the Governor by January 10 of each year for the next fiscal year (the "Governor's Budget"). Under State law and the State Constitution, the annual proposed Governor's Budget cannot provide for projected expenditures in excess of projected resources for the ensuing fiscal year. Following the submission of the Governor's Budget, the State Legislature takes up the proposal.

As required by the Balanced Budget Amendment (“Proposition 58”) adopted by the voters in 2004, beginning with fiscal year 2004–05, the State Legislature may not pass a budget bill in which General Fund expenditures exceed estimated General Fund revenues and beginning fund balances at the time of the passage and as set forth in the budget bill. Proposition 58 also provides for mid-year adjustments in the event that the budget falls out of balance and the Governor calls a special legislative session to address the shortfall. Proposition 58 prohibits the use of general obligation bonds, revenue bonds, and certain other forms of borrowing to cover fiscal year end budget deficits. The restriction does not apply to certain other types of borrowing, such as: (i) short-term borrowing to cover cash shortfalls in the General Fund (including revenue anticipation notes or revenue anticipation warrants), or (ii) inter-fund borrowings.

Under the State Constitution, money may be drawn from the State Treasury only through an appropriation made by law. The primary source of annual expenditure appropriations is the annual Budget Act as approved by the State Legislature and signed by the Governor. Pursuant to Proposition 25, enacted in 2010, the Budget Act (and other appropriation bills/“trailer bills” which are part of a budget package) must be approved by a majority vote of each House of the State Legislature, rather than the previously required two-thirds vote, and legislators must forfeit their pay if the State Legislature fails to pass the budget bill on time. The Governor may reduce or eliminate specific line items in the Budget Act or any other appropriations bill without vetoing the entire bill. Such individual line-item vetoes are subject to override by a two-thirds majority vote of each House of the State Legislature.

Appropriations also may be included in legislation other than the Budget Act. Continuing appropriations, available without regard to fiscal year, may also be provided by statute or the State Constitution. Funds necessary to meet an appropriation are not required to be in the State Treasury at the time an appropriation is enacted; revenues may be appropriated in anticipation of their receipt.

In addition to Proposition 58, a number of other laws and constitutional amendments have been enacted over the years, often through voter initiatives, which have made it more difficult to raise California’s taxes, have restricted the use of California’s General Fund or special fund revenues, or have otherwise limited the State Legislature and Governor’s discretion in enacting budgets. Other examples of constraints on the budget process include Proposition 10 (raising taxes on tobacco products but mandating the expenditure of such revenues), Proposition 63 (imposing a 1 percent tax surcharge on taxpayers with annual taxable income of more than \$1 million in order to fund mental health services and limiting the State Legislature or the Governor from redirecting funds now used for mental health services), Proposition 30 (transferring 1.0625 percent of the State sales tax to local governments to fund realignment), and Proposition 39 (requiring corporations to base their State tax liability on sales in California).

### **Litigation**

The State is a party to numerous legal proceedings, many of which normally occur in governmental operations. The State is involved in certain other legal proceedings that, if decided against the State, might require the State to make significant future expenditures or substantially impair future revenue sources. Because of the prospective nature of these proceedings, it is not possible to predict their outcome or estimate the potential impact on the ability of the State to pay debt service costs on its obligations.

### **Additional Information**

The information herein has not been independently verified and constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal bonds and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal bonds held by the Fund are subject. Information regarding the State’s financial condition is included in various public documents issued by the State, such as the official statements prepared in connection with the issuance of general obligation bonds of California.
