## **SUPPLEMENT TO SUMMARY PROSPECTUS, PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION DATED NOVEMBER 30, 2019**

On August 14, 2020, the Board of Trustees (the “Board”) of Federated Hermes High Yield Trust approved a Plan of Liquidation for Federated Hermes Equity Advantage Fund (the “Fund”) pursuant to which the Fund will be liquidated on or about September 25, 2020 (the “Liquidation” or the “Liquidation Date”). In approving the Liquidation, the Board determined that the liquidation of the Fund is in the best interests of the Fund and its shareholders.

Accordingly, the Fund’s investment adviser will begin positioning the Fund for liquidation, which may cause the Fund to deviate from its stated investment objectives and strategies. It is anticipated that the Fund’s portfolio will be converted into cash on or prior to the Liquidation Date. Effective as of the close of business on September 11, 2020, the Fund will be closed to new investors and closed to additional investments by existing shareholders.

Any shares outstanding at the close of business on the Liquidation Date will be automatically redeemed. Such redemptions shall follow the procedures set forth in the Fund’s Plan of Liquidation. Dividends and capital gains, if any, will be distributed to shareholders prior to the Liquidation.

Prior to the Liquidation Date, the shareholders of the Fund may redeem their shares of the Fund pursuant to the procedures set forth in the Fund’s Plan of Liquidation. Shareholders of the Fund’s Class A Shares may exchange shares into shares of the same class of another Federated Hermes fund. Shareholders of the Fund’s Institutional Shares may exchange shares of the Fund for shares of any Federated Hermes fund or share class that does not have a stated sales charge or contingent deferred sales charge, except shares of Federated Hermes Institutional Money Market Management, Federated Hermes Institutional Tax-Free Cash Trust, Federated Hermes Institutional Prime Obligations Fund, Federated Hermes Institutional Prime Value Obligations Fund, Class A Shares of Federated Hermes Government Reserves Fund, and no-load Class A Shares and Class R Shares of any Fund if the shareholder meets the eligibility criteria and investment minimum for the Federated Hermes fund for which the shareholder is exchanging.

The Liquidation of the Fund will be a recognition event for tax purposes. In addition, any income or capital gains distributed to shareholders prior to the Liquidation Date or as part of the liquidation proceeds may also be subject to taxation. All investors should consult with their tax advisor regarding the tax consequences of this Liquidation.

## **FRONT-END LOAD DISCOUNTS AVAILABLE AT EDWARD JONES:**

### **Rights of Accumulation (ROA)**

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except any money market funds and retirement plan share classes) of the fund family held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations (“pricing groups”). This includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible fund family assets in the rights of accumulation calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation.
- ROA is determined by calculating the higher of cost or market value (current shares x NAV).

### **Letter of Intent (LOI)**

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not covered under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.

## **OTHER IMPORTANT INFORMATION**

### **Minimum Purchase Amounts**

1. \$250 initial purchase minimum
2. \$50 subsequent purchase minimum

### **Minimum Balances**

3. Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:
  1. A fee-based account held on an Edward Jones platform
  2. A 529 account held on an Edward Jones platform
  3. An account with an active systematic investment plan or letter of intent (LOI)

### **Changing Share Classes**

4. At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder’s holdings in a fund to Class A shares.

# IMPORTANT INFORMATION REGARDING THE FEDERATED HERMES FUNDS\*

## SUPPLEMENT DATED MARCH 19, 2020, TO ALL CURRENT PROSPECTUSES OF THE FEDERATED HERMES FUNDS

In light of recent market events we wanted to let you know that Federated Hermes is committed to providing uninterrupted delivery of its investment products and services to clients around the world while at the same time safeguarding the health and safety of our employees. As a global enterprise, the company prepares for events that have the potential to disrupt business, such as the current coronavirus outbreak. In addition, we have communicated with our key service providers and remain confident that they have sufficient Business Continuity Plans to continue to provide our Funds with the level of service we expect.

Please add the following risk disclosure to the section entitled “**What are the Specific Risks of Investing in the Fund?**”

### “Epidemic and Pandemic Risk

An outbreak of respiratory disease caused by a novel coronavirus was first detected in China in December 2019 and subsequently spread internationally. This coronavirus has resulted in closing borders, enhanced health screenings, healthcare service preparation and delivery, quarantines, cancellations, disruptions to supply chains, workflow operations and customer activity, as well as general concern and uncertainty. The impact of this coronavirus may be short-term or may last for an extended period of time and result in a substantial economic downturn. Health crises caused by outbreaks, such as the coronavirus outbreak, may exacerbate other pre-existing political, social and economic risks. The impact of this outbreak, and other epidemics and pandemics that may arise in the future, could negatively affect the worldwide economy, as well as the economies of individual countries, individual companies (including fund service providers) and the market in general in significant and unforeseen ways. Any such impact could adversely affect the Fund’s performance.”

### Federated Equity Advantage Fund (the “Fund”)

#### RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund’s investment objective is to seek capital appreciation. The objective may be changed by the Fund’s Trustees without shareholder approval.

#### RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy and hold Class A Shares (A), and Institutional Shares (IS) of the Fund. You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in certain classes (e.g., A class) of Federated Funds. More information about these and other discounts is available from your financial professional, in the “What Do Shares Cost?” section of the Prospectus on page 8 and in “Appendix B” to this Prospectus. If you purchase the Fund’s IS Shares through a broker acting as an agent on behalf of its customers, you may be required to pay a commission to such broker; such commissions, if any, are not reflected in the Example below.

1 The Fund has adopted a Distribution (12b-1) Plan for its Class A Shares pursuant to which the A class of the Fund may incur and pay a Distribution (12b-1) Fee of up to a maximum amount of 0.05%. No such fee is currently incurred and paid by the A class of the Fund. The A class of the Fund will not incur and pay such a Distribution (12b-1) Fee until such time as approved by the Funds Board of Trustees (the “Trustees”).

2 The Adviser and certain of its affiliates on their own initiative have agreed to waive certain amounts of their respective fees and/or reimburse expenses. Total annual fund operating expenses (excluding acquired fund fees and expenses, interest expense, extraordinary expenses and proxy-related expenses paid by the Fund, if any) paid by the Fund’s A and IS classes (after the voluntary waivers and/or reimbursements) will not exceed 1.22% and 0.97% (the “Fee Limit”), respectively, up to but not including the later of (the “Termination Date”): (a) December 1, 2020 or (b) the date of the Fund’s next effective Prospectus. While the Adviser and its affiliates currently do not anticipate terminating or increasing these arrangements prior to the Termination Date, these arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Trustees.

#### Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that operating expenses are as shown in the table above and remain the same. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

| Share Class | 1 Year  | 3 Years | 5 Years | 10 Years |
|-------------|---------|---------|---------|----------|
| <b>A:</b>   |         |         |         |          |
| Expenses    | \$1,461 | \$3,151 | \$4,681 | \$7,898  |
| <b>IS:</b>  |         |         |         |          |
| Expenses    | \$956   | \$2,734 | \$4,345 | \$7,742  |

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the reporting period, the Fund’s portfolio turnover rate was 51% of the average value of its portfolio.

## RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

### What are the Fund’s Main Investment Strategies?

The Fund pursues its investment objective by primarily investing in leveraged company stocks across all market capitalizations. Leveraged companies utilize relatively high levels of debt as part of their capital structure. The Fund’s portfolio is managed using a fundamental bottom-up investment process that integrates high-yield credit research and equity analysis focusing on stable and predictable operating companies with leveraged balance sheets. The Fund does not focus on a particular investment style (growth and/or value), but rather seeks the best opportunities across its investable universe.

The Fund is a non-diversified portfolio of Federated High Yield Trust. The Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity investments. The Fund will notify shareholders at least 60 days in advance of any change in its investment policy that would enable the Fund to invest, under normal circumstances, less than 80% of its net assets (plus any borrowings for investment purposes) in equity investments.

### What are the Main Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund’s returns include:

- **Stock Market Risk.** The value of equity securities in the Fund’s portfolio will fluctuate and, as a result, the Fund’s Share price may decline suddenly or over a sustained period of time. Information publicly available about a company, whether from the company’s financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company’s shares in the market. Among other factors, equity securities may decline in value because of an increase in interest rates or changes in the stock market. Recent and potential future changes in industry and/or economic trends, as well as changes in monetary policy made by central banks and/or their governments, also can affect the level of interest rates and contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects (such as a decline in a company’s stock price), which could negatively impact the Fund’s performance.
- **Leveraged Company Risk.** Securities issued by leveraged companies, including securities of companies that issue below investment grade debt or “junk bonds”, may be more volatile, be more sensitive to adverse issuer, political, market or economic developments and have limited access to additional capital than securities of other, higher quality companies or the market as a whole, which can limit their opportunities and ability to weather challenging business environments. Companies that experience a decrease in credit quality or that have lower-quality debt or highly leveraged capital structures may undergo difficult business circumstances and face a greater risk of liquidation, reorganization or bankruptcy than other companies.
- **Small-Cap Company Risk.** The Fund may invest in small capitalization (or “small-cap”) companies. Small-cap companies may have less liquid stock, a more volatile share price, unproven track records, a limited product or service base, and limited access to capital. The above factors could make small-cap companies more likely to fail than larger companies, and increase the volatility of the Fund’s portfolio, performance and Share price.
- **Mid-Cap Company Risk.** The Fund may invest in mid-capitalization (or “mid-cap”) companies. Mid-cap companies often have narrower markets, limited managerial and financial resources, more volatile performance and greater risk of failure, compared to larger, more established companies. These factors could increase the volatility of the Fund’s portfolio, performance and Share price.
- **Large-Cap Company Risk.** The Fund may invest in large capitalization (or “large-cap”) companies. In addition, large cap companies may have fewer opportunities to expand the market for their products or services, may focus their competitive efforts on maintaining or expanding their market share, and may be less capable of responding quickly to competitive challenges. These factors could result in the share price of large companies not keeping pace with the overall stock market or growth in the general economy, and could have a negative effect on the Fund’s portfolio, performance and Share price.
- **Risk Related to the Economy.** The value of the Fund’s portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or the other markets. Economic, political and financial conditions, or industry or economic trends and developments, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions, or other potentially adverse effects.

- **Risk Related to Investing for Growth.** Due to their relatively high valuations, growth stocks are typically more volatile than value stocks. Additionally, growth stocks may not pay dividends or may pay lower dividends than value stocks.
- **Risk Related to Investing for Value.** Due to their relatively low valuations, value stocks are typically less volatile than growth stocks. Additionally, value stocks tend to have higher dividends than growth stocks. This means they depend less on price changes for returns and may lag behind growth stocks in an up market.
- **Liquidity Risk.** The equity securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time.
- **Sector Risk.** The Funds may allocate relatively more assets to certain industry sectors than to others; therefore, the Funds' performance may be more susceptible to any developments which affect those sectors emphasized by the Funds.
- **Risk of Non-Diversified Fund.** The Fund is non-diversified. Compared to diversified mutual funds, it may invest a higher percentage of its assets among fewer issuers of portfolio securities. In certain situations, being non-diversified may reduce the Fund's credit risk by enabling it to avoid investing in certain countries, regions or sectors that exhibit above average credit risk. However, being non-diversified may also increase the Fund's risk by magnifying the impact (positively or negatively) that only one issuer has on the Fund's share price and performance.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy description in this Prospectus. For example, proprietary and third party data and systems are utilized to support decision making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

## **PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES**

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

## **What are the Fund's Investment Strategies?**

While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this Prospectus. The Fund's Statement of Additional Information (SAI) provides information about the Fund's non-principal strategies.

The Fund's objective is to seek capital appreciation. The Fund pursues its investment objective by primarily investing in leveraged company stocks across all market capitalizations. The Fund defines "leveraged company stocks" as stocks of companies that utilize relatively high levels of debt as part of their capital structure. The Fund determines that a company has a relatively high level of debt if the company has debt rated "BBB" and below. Accordingly, the Fund may invest in companies with "junk" related debt and may also invest in companies in bankruptcy and/or companies in financial distress.

The Fund's portfolio is managed using a fundamental, bottom-up investment process that integrates high-yield credit research and equity analysis focusing on stable and predictable operating companies with leveraged balance sheets. The Fund does not focus on a particular investment style (growth and/or value), but rather seeks the best opportunities across its investable universe. Federated Investment Management Company ("Adviser") actively manages the Fund's portfolio, seeking total returns in excess of the Fund's benchmark indices, the Russell 2000<sup>®</sup> Index and Credit Suisse Leveraged Equity Index, over longer time periods.

When evaluating equity securities in which the Fund may invest, the Adviser performs a bottom-up, fundamental analysis on each company, combining credit analysis and equity valuation. A credit analysis is performed on each company to forecast its EBITDA and free cash flow and to gain an understanding of the company's business, management team, products, industry, competitors, free cash flow characteristics and capital structure. Then, each debt security in a company's capital structure is analyzed to understand its individual characteristics, including coupon, maturity, call and put features, covenants and collateral and guarantee packages. In addition, the Adviser seeks to identify capital structure catalysts, such as debt refinancings and covenant changes, and operational catalysts, such as operational restructurings, which have the potential to create equity value.

The objective of the security selection process is to determine a company's ability to generate stable and predictable free cash flow. For each company, a financial model is constructed to forecast the sources and uses of its discretionary free cash flow, and free cash flow yield is the primary valuation metric used to determine whether to buy or sell a stock.

The Fund is a non-diversified portfolio of Federated High Yield Trust. The Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity investments. The Fund will notify shareholders at least 60 days in advance of any change in its investment policy that would enable the Fund to invest, under normal circumstances, less than 80% of its net assets (plus any borrowings for investment purposes) in equity investments.

## **What are the Fund's Principal Investments?**

The following provides general information on the Fund's principal investments. The Fund's Statement of Additional Information (SAI) provides information about the Fund's non-principal investments and may provide additional information about the Fund's principal investments.

### **EQUITY SECURITIES**

Equity securities represent a share of an issuer's earnings and assets, after the issuer pays its liabilities. The Fund cannot predict the income it will receive from equity securities because issuers generally have discretion as to the payment of any dividends or distributions. However, equity securities offer greater potential for appreciation than many other types of securities, because their value increases directly with the value of the issuer's business.

The following describes the equity securities in which the Fund principally invests.

#### **Common Stocks**

Common stocks are the most prevalent type of equity security. Common stocks receive the issuer's earnings after the issuer pays its creditors and any preferred stockholders. As a result, changes in an issuer's earnings directly influence the value of its common stock.

## **Master Limited Partnerships**

The Fund also may invest in the equity securities of master limited partnerships (MLPs) of any market capitalization range. MLPs are entities structured as master limited partnerships are publicly traded and are treated as partnerships for federal income tax purposes. The units for these entities are listed and traded on a U.S. securities exchange and may provide the investor more liquidity than ordinary limited partnerships. To qualify as a master limited partnership, the entity must receive at least 90% of its gross income from qualifying sources as set forth in Section 7704(d) of the Code. These qualifying sources include natural resource-based activities such as the exploration, development, mining, production, processing, refining, transportation, storage, gathering, processing, distribution and marketing of mineral or natural resources. Limited partnerships have two classes of interests: general partner interests and limited partner interests. The general partner typically controls the operations and management of the partnership through an equity interest in the partnership (typically up to 2% of total equity). Limited partners own the remainder of the partnership and have a limited role in the MLP's operations and management. The Fund is not eligible for a deduction from income received from MLPs that is available to individuals who invest directly in MLPs.

## **What are the Specific Risks of Investing in the Fund?**

The following provides general information on the risks associated with the Fund's principal investments. Any additional risks associated with the Fund's non-principal investments are described in the Fund's SAI. The Fund's SAI also may provide additional information about the risks associated with the Fund's principal investments.

### **STOCK MARKET RISK**

The value of equity securities in the Fund's portfolio will rise and fall. These fluctuations could be a sustained trend or a drastic movement. Historically, the equity market has moved in cycles, and the value of the fund's securities may fluctuate from day to day. The Fund's portfolio will reflect changes in prices of individual portfolio stocks or general changes in stock valuations. Consequently, the Fund's Share price may decline.

Information publicly available about a company, whether from the company's financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company's shares in the market. The price of a company's shares depends significantly on the information publicly available about the company. The reporting of poor results by a company, the restatement of a company's financial statements or corrections to other information regarding a company or its business may adversely affect the price of its shares, as would allegations of fraud or other misconduct by the company's management. The Fund may also be disadvantaged if some market participants have access to material information not readily available to other market participants, including the Fund.

### **LEVERAGED COMPANY RISK**

Securities issued by leveraged companies, including securities of companies that issue below investment grade debt or "junk bonds" may be more volatile than securities of companies that issue investment grade debt. In addition, securities of leveraged companies tend to be more sensitive to adverse issuer, political, market or economic developments than the market as a whole and the securities of other types of companies. A decrease in the credit quality of a leveraged company is likely to lead to a decrease in the value of the company's securities. Leveraged companies can have limited access to additional capital, which can limit their ability to capitalize on attractive business opportunities and make it more difficult for them to weather challenging business environments. Companies with lower-quality debt or highly leveraged capital structures may undergo difficult business circumstances. These companies may face a greater risk of liquidation, reorganization or bankruptcy than companies without lower-quality debt or with lower levels of leverage. In the event of liquidation, reorganization or bankruptcy, a company's creditors generally take precedence over the company's stockholders, which makes recovery of those stockholders' investment relatively less likely.

### **SMALL-CAP COMPANY RISK**

The Fund may invest in small capitalization (or "small-cap") companies. Market capitalization is determined by multiplying the number of a company's outstanding shares by the current market price per share. Generally, the smaller the market capitalization of a company, the fewer the number of shares traded daily, the less liquid its stock and the more volatile its price. Companies with smaller market capitalizations also tend to have unproven track records, a limited product or service base and limited access to capital. Newer companies with unproven business strategies also tend to be smaller companies. The above factors increase risks and make these companies more likely to fail than companies with larger market capitalizations, and could increase the volatility of the Fund's portfolio and performance. Shareholders should expect that the value of the Fund's Shares will be more volatile than a fund that invests exclusively in mid-cap or large-cap companies.

## **MID-CAP COMPANY RISK**

The Fund may invest in mid-capitalization (or “mid-cap”) companies. Market capitalization is determined by multiplying the number of a company’s outstanding shares by the current market price per share. Mid-cap companies often have narrower markets and limited managerial and financial resources compared to larger, more established companies. The performance of mid-cap companies can be more volatile and they face greater risk of business failure, compared to larger, more established companies, which could increase the volatility of the Fund’s portfolio and performance. Shareholders should expect that the value of the Fund’s Shares will be more volatile than a fund that invests exclusively in large-cap companies.

## **LARGE-CAP COMPANY RISK**

The Fund may invest in large-capitalization (or “large-cap”) companies. Market capitalization is determined by multiplying the number of a company’s outstanding shares by the current market price per share. Larger, more established, companies may have fewer opportunities to expand the market for their products or services, may focus their competitive efforts on maintaining or expanding their market share, and may be unable to respond quickly to new competitive challenges, like price competition, changes in consumer tastes or innovative products. These factors could result in the share price of larger companies not keeping pace with the overall stock market or growth in the general economy, and could have a negative effect on the Fund’s portfolio, performance and Share price.

## **RISK RELATED TO THE ECONOMY**

The value of the Fund’s portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets based on negative developments in the U.S. and global economies. Economic, political and financial conditions, or industry or economic trends and developments, may, from time to time, and for varying periods of time, cause volatility, illiquidity or other potentially adverse effects in the financial markets, including the fixed-income market. The commencement, continuation or ending of government policies and economic stimulus programs, changes in monetary policy, increases or decreases in interest rates, or other factors or events that affect the financial markets, including the fixed-income markets, may contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects which could negatively impact the Fund’s performance. For example, the value of certain portfolio securities may rise or fall in response to changes in interest rates, which could result from a change in government policies, and has the potential to cause investors to move out of certain portfolio securities, including fixed-income securities, on a large scale. This may increase redemptions from funds that hold large amounts of certain securities and may result in decreased liquidity and increased volatility in the financial markets. Market factors, such as the demand for particular portfolio securities, may cause the price of certain portfolio securities to fall while the prices of other securities rise or remain unchanged.

## **RISK RELATED TO INVESTING FOR GROWTH**

Due to their relatively high valuations, growth stocks are typically more volatile than value stocks. For instance, the price of a growth stock may experience a larger decline on a forecast of lower earnings, a negative fundamental development or an adverse market development. Further, growth stocks may not pay dividends or may pay lower dividends than value stocks. This means they depend more on price changes for returns and may be more adversely affected in a down market compared to value stocks that pay higher dividends.

## **RISK RELATED TO INVESTING FOR VALUE**

Due to their relatively low valuations, value stocks are typically less volatile than growth stocks. For instance, the price of a value stock may experience a smaller increase on a forecast of higher earnings, a positive fundamental development or positive market development. Further, value stocks tend to have higher dividends than growth stocks. This means they depend less on price changes for returns and may lag behind growth stocks in an up market.

## **MASTER LIMITED PARTNERSHIP RISK**

Investments in the equity securities of MLPs involve risks that differ from investments in the debt and equity securities of corporate issuers, including risks related to limited control and limited rights to vote on matters affecting the partnership, risks related to potential conflicts of interest between the partnership and its general partner, cash flow risks, dilution risks and risk related to the general partner’s right to require unitholders to sell their common units at an desirable time or price. MLPs may have limited financial resources, their securities may be relatively illiquid, and they may be subject to more erratic price movements because of the underlying assets they hold. In addition, there are certain tax risks associated with an investment in an MLP because, as a partnership, an MLP has no tax liability at the entity level. If, as a result of a change in current law or a change in an MLP’s business, an MLP were treated as a corporation for federal income tax purposes, such MLP would be obligated to pay federal income tax on its income at the corporate tax rate.

Many MLPs in which the Fund may invest operate oil, natural gas, petroleum, or other facilities within the energy sector. As a result, the Fund will be susceptible to adverse economic, environmental, or regulatory occurrences impacting the energy sector. MLPs and other companies operating in the energy sector are subject to specific risks, including, among others, fluctuations in commodity prices; reduced consumer demand for commodities such as oil, natural gas, or petroleum products; reduced availability of natural gas or other commodities for transporting, processing, storing, or delivering; slowdowns in new construction; extreme weather or other natural disasters; and threats of attack by terrorists on energy assets. Additionally, changes in the regulatory environment for energy companies may adversely impact their profitability. Over time, depletion of natural gas reserves and other energy reserves may also affect the profitability of energy companies.

Effective for taxable years beginning after December 31, 2017, the recently enacted Tax Cuts and Jobs Act generally allows individuals and certain other non-corporate entities, such as partnerships, a deduction for 20% of “qualified publicly traded partnership income” such as income from MLPs. However, the new law does not include any provision for a RIC to pass the character of its qualified publicly traded partnership income through to its shareholders. As a result, an investor who invests directly in MLPs will be able to receive the benefit of that deduction, while a shareholder in the Fund will not.

#### **LIQUIDITY RISK**

Trading opportunities are more limited for equity securities that are not widely held. This may make it more difficult to sell or buy a security at a favorable price or time. Consequently, the Fund may have to accept a lower price to sell a security, sell other securities to raise cash or give up an investment opportunity, any of which could have a negative effect on the Fund’s performance. Infrequent trading of securities may also lead to an increase in their price volatility.

Liquidity risk also refers to the possibility that the Fund may not be able to sell a security when it wants to. If this happens, the Fund will be required to continue to hold the security, and the Fund could incur losses.

#### **SECTOR RISK**

Companies with similar characteristics may be grouped together in broad categories called sectors. Sector risk is the possibility that a certain sector may underperform other sectors or the market as a whole. As the Adviser allocates more of the Fund’s portfolio holdings to a particular sector, the Fund’s performance will be more susceptible to any economic, business or other developments which generally affect that sector.

#### **RISK OF NON-DIVERSIFIED FUND**

The Fund is non-diversified. Compared to diversified mutual funds, it may invest a higher percentage of its assets among fewer issuers of portfolio securities. In certain situations, being non-diversified may reduce the Fund’s credit risk by enabling it to avoid investing in certain countries, regions or sectors that exhibit above average credit risk. However, being non-diversified may also increase the Fund’s risk by magnifying the impact (positively or negatively) that only one issuer has on the Fund’s share price and performance.

#### **TECHNOLOGY RISK**

The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

## **What Do Shares Cost?**

#### **CALCULATION OF NET ASSET VALUE**

When the Fund receives your transaction request in proper form (as described in this Prospectus under the sections entitled “How to Purchase Shares” and “How to Redeem and Exchange Shares”), it is processed at the next calculated net asset value of a Share (NAV) plus any applicable front-end sales charge (“public offering price”). A Share’s NAV is determined as of the end of regular trading on the New York Stock Exchange (NYSE) (normally 4:00 p.m. Eastern time), each day the NYSE is open. The Fund calculates the NAV of each class by valuing the assets allocated to the Share’s class, subtracting the liabilities allocated to each class and dividing the balance by the number of Shares of the class outstanding. The NAV for each class of Shares may differ due to the level of expenses allocated to each class as well as a result of the variance between the amount of accrued investment income and capital gains or losses allocated to each class and the amount actually distributed to shareholders of each class. The Fund’s current NAV and/or public offering price may be found at [FederatedInvestors.com](http://FederatedInvestors.com), via online news sources and in certain newspapers.

You can purchase, redeem or exchange Shares any day the NYSE is open.

When the Fund holds securities that trade principally in foreign markets on days the NYSE is closed, the value of the Fund's assets may change on days you cannot purchase or redeem Shares. This may also occur when the U.S. markets for fixed-income securities are open on a day the NYSE is closed.

In calculating its NAV, the Fund generally values investments as follows:

- Equity securities listed on an exchange or traded through a regulated market system are valued at their last reported sale price or official closing price in their principal exchange or market.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Fund's valuation policies and procedures, or if information furnished by a pricing service, in the opinion of the Valuation Committee, is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures generally described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share.

Shares of other mutual funds are valued based upon their reported NAVs. The prospectuses for these mutual funds explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

#### **FAIR VALUATION AND SIGNIFICANT EVENTS PROCEDURES**

The Board has ultimate responsibility for determining the fair value of investments for which market quotations are not readily available. The Board has appointed a Valuation Committee comprised of officers of the Fund, the Adviser and certain of the Adviser's affiliated companies to assist in determining fair value and in overseeing the calculation of the NAV. The Board has also authorized the use of pricing services recommended by the Valuation Committee to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Board. The Board periodically reviews and approves the fair valuations made by the Valuation Committee and any changes made to the procedures. The Fund's SAI discusses the methods used by pricing services and the Valuation Committee to assist the Board in valuing investments.

Using fair value to price investments may result in a value that is different from an investment's most recent closing price and from the prices used by other mutual funds to calculate their NAVs. The application of the fair value procedures to an investment represent a good faith determination of such investment's fair value. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share.

The Board also has adopted procedures requiring an investment to be priced at its fair value whenever the Adviser determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment's value will change in response to the event and a reasonable basis for quantifying the resulting change in value.

Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- With respect to securities traded principally in foreign markets, significant trends in U.S. equity markets or in the trading of foreign securities index futures contracts;
- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded; and
- Announcements concerning matters such as acquisitions, recapitalizations or litigation developments or a natural disaster affecting the issuer's operations or regulatory changes or market developments affecting the issuer's industry.

The Board has adopted procedures whereby the Valuation Committee uses a pricing service to determine the fair value of equity securities traded principally in foreign markets when the Adviser determine that there has been a significant trend in the U.S. equity markets or in index futures trading. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Valuation Committee will determine the fair value of the investment using another method approved by the Board. The Board has ultimate responsibility for any fair valuations made in response to a significant event.

The fair valuation of securities following a significant event can serve to reduce arbitrage opportunities for short-term traders to profit at the expense of long-term investors in the Fund. For example, such arbitrage opportunities may exist when the market on which portfolio securities are traded closes before the Fund calculates its NAV, which is typically the case with Asian and European markets. However, there is no assurance that these significant event procedures will prevent dilution of the NAV by short-term traders. See "Account and Share Information – Frequent Trading Policies" for other procedures the Fund employs to deter such short-term trading.

## SALES CHARGE INFORMATION

The following table summarizes the minimum investment amount and the maximum sales charge, if any, that you will pay on an investment in the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

| Shares Offered | Minimum Initial/Subsequent Investment Amounts <sup>1</sup> | Maximum Sales Charges               |   |
|----------------|--|-------------------------------------|---|
|                |  | Front-End Sales Charge <sup>2</sup> | Contingent Deferred Sales Charge <sup>3</sup> |
| A              | \$1,500/\$100  | 5.50%                               | 0.00%   |

<sup>1</sup> The minimum initial and subsequent investment amounts for Individual Retirement Accounts (IRAs) are generally \$250 and \$100, respectively. There is no minimum initial or subsequent investment amount required for employer-sponsored retirement plans; however, such accounts remain subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus. Please see "By Systematic Investment Program" for applicable minimum investment. Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund.

<sup>2</sup> Front-End Sales Charge is expressed as a percentage of public offering price. See "Sales Charge When You Purchase."

<sup>3</sup> See "Sales Charge When You Redeem."

## SALES CHARGE WHEN YOU PURCHASE

The following table lists the sales charges which will be applied to your Share purchase, subject to the breakpoint discounts indicated in the table and described below.

| Purchase Amount                     | Sales Charge as a Percentage of Public Offering Price | Sales Charge as a Percentage of NAV |
|-------------------------------------|---|-------------------------------------|
| Less than \$50,000                  | 5.50%   | 5.82%                               |
| \$50,000 but less than \$100,000    | 4.50%   | 4.71%                               |
| \$100,000 but less than \$250,000   | 3.75%   | 3.90%                               |
| \$250,000 but less than \$500,000   | 2.50%   | 2.56%                               |
| \$500,000 but less than \$1 million | 2.00%   | 2.04%                               |
| \$1 million or greater <sup>1</sup> | 0.00%   | 0.00%                               |

<sup>1</sup> A contingent deferred sales charge (CDSC) of 0.75% of the redemption amount applies to Shares originally purchased in an amount of \$1 million or more and redeemed up to 24 months after purchase under certain investment programs where a financial intermediary received an advance payment on the transaction. CDSC exceptions may apply. See "Sales Charge When You Redeem."

## REDUCING THE SALES CHARGE WITH BREAKPOINT DISCOUNTS

Your investment may qualify for a reduction or elimination of the sales charge, also known as a breakpoint discount. The breakpoint discounts offered by the Fund are indicated in the table above.

You or your financial intermediary must notify the Fund's Transfer Agent of eligibility for any applicable breakpoint discount at the time of purchase.

In order to receive the applicable breakpoint discount, it may be necessary at the time of purchase for you to inform your financial intermediary or the Transfer Agent of the existence of other accounts in which there are holdings eligible to be aggregated to meet a sales charge breakpoint ("Qualifying Accounts"). Qualifying Accounts mean those share accounts in the Federated funds held directly or through a financial intermediary or through a single-participant retirement account by you, your spouse, your parents (if you are under age 21) and/or your children under age 21, which can be linked using tax identification numbers (TINs), social security numbers (SSNs) or broker identification numbers (BINs). Accounts held through 401(k) plans and similar multi-participant retirement plans, or through "Section 529" college savings plans or those accounts which cannot be linked using TINs, SSNs or BINs, are not Qualifying Accounts.

In order to verify your eligibility for a breakpoint discount, you will be required to provide to your financial intermediary or the Transfer Agent certain information on your New Account Form and may be required to provide account statements regarding Qualifying Accounts. If you purchase through a financial intermediary, you may be asked to provide additional information and records as required by the financial intermediary. Failure to provide proper notification or verification of eligibility for a breakpoint discount may result in your not receiving a breakpoint discount to which you are otherwise

entitled. Breakpoint discounts apply only to your current purchase and do not apply retroactively to previous purchases. The sales charges applicable to the Shares offered in this Prospectus, and the breakpoint discounts offered with respect to such Shares, are described in full in this Prospectus. Because the Prospectus is available on Federated's website free of charge, Federated does not disclose this information separately on the website.

**Contingent upon notification to the Transfer Agent, the sales charge at purchase of the A class only, may be reduced or eliminated by:**

**Larger Purchases**

- Purchasing the A class in greater quantities to reduce the applicable sales charge;

**Concurrent and Accumulated Purchases**

- Combining concurrent purchases of and/or current investments in the A class, B class, C class, F class and R class of any Federated fund made or held by Qualifying Accounts; the purchase amount used in determining the sales charge on your additional Share purchase will be calculated by multiplying the respective maximum public offering price times the number of the A class, B class, C class, F class and R class shares of any Federated fund currently held in Qualifying Accounts and adding the dollar amount of your current purchase; or

**Letter of Intent**

- Signing a letter of intent to purchase a qualifying amount of the A class within 13 months. (Call your financial intermediary or the Fund for more information.) The Fund's custodian will hold Shares in escrow equal to the maximum applicable sales charge. If you complete the Letter of Intent, the Custodian will release the Shares in escrow to your account. If you do not fulfill the Letter of Intent, the Custodian will redeem the appropriate amount from the Shares held in escrow to pay the sales charges that were not applied to your purchases.

**ELIMINATING THE SALES CHARGE**

Your investment may qualify for a sales charge waiver. Sales charge waivers offered by the Fund are listed below. In order to receive a sales charge waiver, you must inform your financial intermediary or the Transfer Agent at the time of each purchase that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund's Transfer Agent. If you do not let your financial intermediary or the Transfer Agent know that your investment is eligible for a sales charge waiver at the time of purchase, you may not receive the waiver to which you may otherwise be entitled.

**Contingent upon notification to the Transfer Agent, the sales charge will be eliminated when you purchase or acquire Shares:**

- within 120 days of redeeming Shares of an equal or greater amount (see "120 Day Reinstatement Program" below);
- through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary);
- with reinvested dividends or capital gains;
- issued in connection with the merger, consolidation or acquisition of the assets of another fund. Further, the sales charge will be eliminated on purchases of Shares made by a shareholder that originally became a shareholder of a Federated Fund pursuant to the terms of an agreement and plan of reorganization which permits shareholders to acquire Shares at NAV, provided that such purchased Shares are held directly with the Fund's transfer agent. If the Shares are held through a financial intermediary, the sales charge waiver will not apply (A class only);
- as a Federated Life Member (Federated shareholders who originally were issued shares through the "Liberty Account," which was an account for the Liberty Family of Funds on February 28, 1987, or who invested through an affinity group prior to August 1, 1987, into the Liberty Account) (A class only);
- as a Trustee, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates, an employee of any financial intermediary that sells Shares according to a sales agreement with the Distributor, an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals; or
- pursuant to the exchange privilege.

The sales charge will not be eliminated if you purchase Shares of the Fund through an exchange of shares of Federated Government Reserves Fund unless your Federated Government Reserves Fund shares were acquired through an exchange of shares on which the sales charge had previously been paid.

## 120 DAY REINSTATEMENT PROGRAM

Within 120 days of redeeming Class A Shares of the Fund, upon proper notification to the Fund's Transfer Agent, you may reinvest all or a portion of the redemption proceeds in Class A Shares of the Fund at net asset value, without the imposition of a sales charge or CDSC. Please note:

- The ownership of the account receiving the purchase is not required to be identical to that of the account in which the redemption was placed; however, the registration of the account receiving the purchase must include at least one registered shareholder of the account from which the redemption occurred.
- You will not be reimbursed for any fees originally incurred on the redemption (e.g., CDSC or redemption fees) by subsequently participating in the 120 Day Reinstatement Program.
- The 120 Day Reinstatement Program does not supersede or override any restrictions placed on an account due to frequent trading and/or client contractual issues.

Additional operational restrictions may apply, please contact a Client Service Representative at 1-800-341-7400 for more information.

## SALES CHARGE WHEN YOU REDEEM

Your redemption proceeds may be reduced by a sales charge, commonly referred to as a contingent deferred sales charge (CDSC). Shares otherwise subject to a CDSC will not be charged a CDSC at the time of an exchange; however, the CDSC will continue to be measured from the date of your original purchase. The CDSC schedule applicable to your original purchase will continue to apply to the shares you receive in an exchange.

**To keep the sales charge as low as possible, the Fund redeems your Shares in this order:**

- Shares that are not subject to a CDSC; and
- Shares held the longest. (To determine the number of years your Shares have been held, include the time you held shares of other Federated funds that have been exchanged for Shares of this Fund.)

The CDSC is then calculated using the Share price at the time of purchase or redemption, whichever is lower.

### A:

---

If you make a purchase of the A class in the amount of \$1 million or more and your financial intermediary received an advance commission on the sale, you will pay a 0.75% CDSC on any such Shares redeemed within 24 months of the purchase.

---

Your redemption may qualify for a waiver of the CDSC. The CDSC waivers offered by the Fund are listed below. In order to receive a waiver of the CDSC, you must inform your financial intermediary or the Transfer Agent at the time of each redemption that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund's Transfer Agent in order to take advantage of the waiver. If you do not let your financial intermediary or the Transfer Agent know that your redemption is eligible for a CDSC waiver at the time of redemption, you may not receive the waiver to which you may otherwise be entitled.

**Contingent upon notification to the Transfer Agent, you will not be charged a CDSC when redeeming Shares:**

- following the death of the last surviving shareholder on the account or the post-purchase disability of all registered shareholders, as defined in Section 72(m)(7) of the Internal Revenue Code of 1986 (the beneficiary on an account with a Transfer on Death registration is deemed the last surviving shareholder on the account);
- due to the termination of a trust following the death of the trustor/grantor or beneficiary, provided that the trust document specifically states that the trust is terminated upon the death;
- representing minimum required distributions from an IRA or other retirement plan as required under the Internal Revenue Code;
- purchased by Trustees, employees of the Fund, the Adviser, the Distributor and their affiliates, by employees of a financial intermediary that sells Shares according to a sales agreement with the Distributor, by the immediate family members of the above persons and by trusts, pension or profit-sharing plans for the above persons;
- purchased through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary);
- purchased with reinvested dividends or capital gains;
- redeemed by the Fund when it closes an account for not meeting the minimum balance requirements

## **A Class Only**

- purchased in the amount of \$1 million or more and redeemed within 24 months of purchase if the Shares were originally purchased through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary).

## **ADDITIONAL INFORMATION ON THE AVAILABILITY OF CERTAIN WAIVERS AND DISCOUNTS**

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. **Certain financial intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or CDSC waivers which are discussed in Appendix B to this Prospectus. The information contained in Appendix B is based on information provided by these financial intermediaries. Please contact your financial intermediary to ensure that you have the most current information regarding the sales charge waivers and discounts available to you and that you understand the steps you must take to qualify for available waivers and discounts.** In all instances, it is the shareholder's responsibility to notify the Fund or the shareholder's Financial Intermediary at the time of purchase of any relationship or other facts qualifying the investor for sales charge waivers or discounts. **For waivers and discounts not available through a particular financial intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another financial intermediary to receive these waivers or discounts.**

## **COMMISSIONS ON CERTAIN SHARES**

The Fund does not charge any front-end load, deferred sales charge or other asset-based fee for sales or distribution of IS Shares. However, if you purchase IS Shares through a broker acting solely as an agent on behalf of its customers, you may be required to pay a commission to the broker in an amount determined and separately disclosed to you by the broker.

Because the Fund is not a party to any such commission arrangement between you and your broker, any purchases and redemptions of IS Shares will be made at the applicable net asset value (before imposition of the sales commission). Any such commissions charged by a broker are not reflected in the fees and expenses listed in the "Risk/Return Summary: Fees and Expenses" section of the Fund's Prospectus and described above nor are they reflected in the "Performance: Bar Chart and Table," because they are not charged by the Fund.

Shares of the Fund are available in other share classes that have different fees and expenses.

## **How is the Fund Sold?**

The Fund offers the following Share classes: Class A Shares (A) and Institutional Shares (IS), each representing interests in a single portfolio of securities. All Share classes have different sales charges and/or other expenses which affect their performance. Please note that certain purchase restrictions may apply.

Under the Distributor's Contract with the Fund, the Distributor, Federated Securities Corp., offers Shares on a continuous, best-efforts basis. The Distributor is a subsidiary of Federated Investors, Inc. ("Federated").

### **A Class**

The Fund's Distributor markets the A class to customers of financial institutions or to individuals, directly or through financial intermediaries.

### **IS Class**

The Fund's Distributor markets the IS class to Eligible Investors, as described below. In connection with a request to purchase the IS class, you should provide documentation sufficient to verify your status as an Eligible Investor. As a general matter, the IS class is not available for direct investment by natural persons.

The following categories of Eligible Investors are not subject to any minimum initial investment amount for the purchase of the IS class (however, such accounts remain subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus):

- An investor participating in a no-load platform, network or other fee-based program offered by a financial intermediary, for example, a wrap-account or retirement platform, where Federated has entered into an agreement with the intermediary;
- A trustee/director, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates; an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals;
- An employer-sponsored retirement plan;
- A trust institution investing on behalf of its trust customers;
- A Federated Fund;

- An investor (including a natural person) who acquired the IS class of a Federated fund pursuant to the terms of an agreement and plan of reorganization which permits the investor to acquire such shares; and
- In connection with an acquisition of an investment management or advisory business, or related investment services, products or assets, by Federated or its investment advisory subsidiaries, an investor (including a natural person) who: (1) becomes a client of an investment advisory subsidiary of Federated; or (2) is a shareholder or interest holder of a pooled investment vehicle or product that becomes advised or subadvised by a Federated investment advisory subsidiary as a result of such an acquisition other than as a result of a fund reorganization transaction pursuant to an agreement and plan of reorganization.

The following categories of Eligible Investors are subject to applicable minimum initial investment amounts for the purchase of the IS class (see “How to Purchase Shares” below):

- An investor, other than a natural person, purchasing the IS class directly from the Fund; and
- In connection with an initial purchase of the IS class through an exchange, an investor (including a natural person) who owned the IS class of another Federated fund as of December 31, 2008.

## Payments to Financial Intermediaries

The Fund and its affiliated service providers may pay fees as described below to financial intermediaries (such as broker-dealers, banks, investment advisers or third-party administrators) whose customers are shareholders of the Fund.

### FRONT-END SALES CHARGE REALLOWANCES

The Distributor receives a front-end sales charge on certain Share sales. The Distributor pays a portion of this charge to financial intermediaries that are eligible to receive it (the “Dealer Reallowance”) and retains any remaining portion of the front-end sales charge.

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive a Dealer Reallowance as follows:

**A:**

| Purchase Amount                     | Dealer Reallowance as a Percentage of Public Offering Price |
|-------------------------------------|---|
| Less than \$50,000                  | 5.00%   |
| \$50,000 but less than \$100,000    | 4.00%   |
| \$100,000 but less than \$250,000   | 3.25%   |
| \$250,000 but less than \$500,000   | 2.25%   |
| \$500,000 but less than \$1 million | 1.80%   |
| \$1 million or greater              | 0.00%   |

### ADVANCE COMMISSIONS

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive an advance commission as follows:

**A (for purchases over \$1 million):**

| Purchase Amount                 | Advance Commission as a Percentage of Public Offering Price |
|---------------------------------|---|
| First \$1 million - \$5 million | 0.75%   |
| Next \$5 million - \$20 million | 0.50%   |
| Over \$20 million               | 0.25%   |

Advance commissions are calculated on a year-by-year basis based on amounts invested during that year. Accordingly, with respect to additional purchase amounts, the advance commission breakpoint resets annually to the first breakpoint on the anniversary of the first purchase.

The A class purchases under this program may be made by Letter of Intent or by combining concurrent purchases. The above advance commission will be paid only on those purchases that were not previously subject to a front-end sales charge or dealer advance commission. Certain retirement accounts may not be eligible for this program.

## **RULE 12B-1 FEES**

### **A Class**

The Board has adopted a Rule 12b-1 Plan, which allows payment of marketing fees of up to 0.05% of average net assets to the Distributor for the sale, distribution, administration and customer servicing of the Fund's A class. When the Distributor receives Rule 12b-1 Fees, it may pay some or all of them to financial intermediaries whose customers purchase Shares. The Fund's A class has no present intention of paying, accruing or incurring any Rule 12b-1 Fee until such time as approved by the Fund's Board of Trustees. Because these Shares pay marketing fees on an ongoing basis, your investment cost may be higher over time than other shares with different sales charges and/or marketing fees.

## **SERVICE FEES**

### **A Class**

The Fund's A class may pay Service Fees of up to 0.25% of average net assets to financial intermediaries or to Federated Shareholder Services Company (FSSC), a subsidiary of Federated, for providing services to shareholders and maintaining shareholder accounts. Intermediaries that receive Service Fees may include a company affiliated with management of Federated. If a financial intermediary receives Service Fees on an account, it is not eligible to also receive Account Administration Fees on that same account.

## **ACCOUNT ADMINISTRATION FEES**

### **A Class**

The Fund's A class may pay Account Administration Fees of up to 0.25% of average net assets to banks that are not registered as broker-dealers or investment advisers for providing administrative services to the Fund and its shareholders. If a financial intermediary receives Account Administration Fees on an account, it is not eligible to also receive Service Fees or Recordkeeping Fees on that same account.

## **RECORDKEEPING FEES**

### **A & IS Classes**

The Fund may pay Recordkeeping Fees on an average-net-assets basis or on a per-account-per-year basis to financial intermediaries for providing recordkeeping services to the Fund and its shareholders. If a financial intermediary receives Recordkeeping Fees on an account, it is not eligible to also receive Account Administration Fees or Networking Fees on that same account.

## **NETWORKING FEES**

### **A & IS Classes**

The Fund may reimburse Networking Fees on a per-account-per-year basis to financial intermediaries for providing administrative services to the Fund and its shareholders on certain non-omnibus accounts. If a financial intermediary receives Networking Fees on an account, it is not eligible to also receive Recordkeeping Fees on that same account.

## **ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES**

The Distributor may pay out of its own resources amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators, that support the sale of Shares or provide services to Fund shareholders. The amounts of these payments could be significant, and may create an incentive for the financial intermediary or its employees or associated persons to recommend or sell Shares of the Fund to you. Not all financial intermediaries receive such payments, and the amount of compensation may vary by intermediary. In some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor (including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the Fund's Prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary sells or may sell; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund's and/or other Federated funds' relationship with the financial intermediary. These payments may be in addition to payments, as described above, made by the Fund to the financial intermediary. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated funds, within the financial intermediary's organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary's organization. In addition, as discussed above in "Commissions on Certain Shares," if

you purchase IS Shares through a broker acting solely as an agent on behalf of its customers, you may be required to pay a commission to the broker in an amount determined and separately disclosed to you by the broker. You can ask your financial intermediary for information about any payments it receives from the Distributor or the Fund and any services provided, as well as about fees and/or commissions it charges.

## How to Purchase Shares

You may purchase Shares of the Fund any day the NYSE is open. Shares will be purchased at the NAV next calculated after your investment is received by the Fund, or its agent, in proper form. The Fund reserves the right to reject any request to purchase or exchange Shares. New investors must submit a completed New Account Form. All accounts, including those for which there is no minimum initial investment amount required, are subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus.

Where the Fund offers more than one Share class and you do not specify the class choice on your New Account Form or form of payment (e.g., Federal Reserve wire or check), you automatically will receive the A class.

For important account information, see the section "Security and Privacy Protection."

### **A Class**

You may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund.

### **IS Class**

Eligible investors may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated fund in the manner described above under "How is the Fund Sold?"

Where applicable, the required minimum initial investment for IS class is generally \$1,000,000. There is no minimum subsequent investment amount.

### **THROUGH A FINANCIAL INTERMEDIARY**

- Establish an account with the financial intermediary; and
- Submit your purchase order to the financial intermediary before the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time).

The Fund has authorized certain intermediaries to accept Share purchase orders on its behalf. When authorized intermediaries receive an order in proper form, the order is considered as being placed with the Fund, and Shares will be bought at the NAV next calculated after such an order is received by the authorized intermediary. If your financial intermediary is not an authorized intermediary, the Fund or its agent must receive the purchase order in proper form from your financial intermediary by the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time) in order for your transaction to be priced at that day's NAV. In addition, your financial intermediary must forward your payment by the prescribed trade settlement date (typically within one to three business days) to the Fund's transfer agent, State Street Bank and Trust Company ("Transfer Agent"). You will become the owner of Shares and receive dividends when your payment is received in accordance with these time frames (provided that, if payment is received in the form of a check, the check clears). If your payment is not received in accordance with these time frames, or a check does not clear, your purchase will be canceled and you could be liable for any losses, fees or expenses incurred by the Fund or the Fund's Transfer Agent.

Financial intermediaries should send payments according to the instructions in the sections "By Wire" or "By Check."

Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

Shareholders are encouraged to ask their financial intermediary if they are an authorized agent for the Fund and about any fees that may be charged by the financial intermediary.

### **DIRECTLY FROM THE FUND**

- Establish your account with the Fund by submitting a completed New Account Form; and
- Send your payment to the Fund by Federal Reserve wire or check.

You will become the owner of Shares and your Shares will be priced at the next calculated NAV after the Fund receives your wire or your check. If your check does not clear, your purchase will be canceled and you could be liable for any losses or fees incurred by the Fund or the Fund's Transfer Agent.

- meet any applicable shareholder eligibility requirements;
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. The Fund reserves the right to reject any request to purchase or exchange Shares. The Fund may modify or terminate the exchange privilege at any time.

**A Class**

You may purchase Shares through an exchange from the same share class of another Federated fund.

**IS Class**

You may purchase Shares through an exchange from any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Shares of Federated Institutional Money Market Management, Federated Institutional Tax-Free Cash Trust, Federated Institutional Prime Obligations Fund, Federated Institutional Prime Value Obligations Fund, Class A Shares of Federated Government Reserves Fund and Class R Shares of any Fund.

### **BY SYSTEMATIC INVESTMENT PROGRAM (SIP)**

Once you have opened an account, you may automatically purchase additional Shares on a regular basis by completing the SIP section of the New Account Form or by contacting the Fund or your financial intermediary. The minimum investment amount for SIPs is \$50.

### **BY AUTOMATED CLEARING HOUSE (ACH)**

Once you have opened an account, you may purchase additional Shares through a depository institution that is an ACH member. This purchase option can be established by completing the appropriate sections of the New Account Form.

### **RETIREMENT INVESTMENTS**

#### **A Class**

You may purchase Shares as retirement investments (such as qualified plans and IRAs or transfer or rollover of assets). Call your financial intermediary or the Fund for information on retirement investments. We suggest that you discuss retirement investments with your tax adviser. You may be subject to an account fee charged by your financial intermediary.

## **How to Redeem and Exchange Shares**

You should redeem or exchange Shares:

- through a financial intermediary if you purchased Shares through a financial intermediary; or
- directly from the Fund if you purchased Shares directly from the Fund.

Shares of the Fund may be redeemed for cash, or exchanged for shares of other Federated funds as described herein, on days on which the Fund computes its NAV. Redemption requests may be made by telephone or in writing.

Redemption proceeds normally are wired or mailed within one business day for each method of payment after receiving a timely request in proper form. Depending upon the method of payment, when shareholders receive redemption proceeds can differ. Payment may be delayed for up to seven days under certain circumstances (see "Limitations on Redemption Proceeds").

For important account information, see the section "Security and Privacy Protection."

### **THROUGH A FINANCIAL INTERMEDIARY**

Submit your redemption or exchange request to your financial intermediary by the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time). The redemption amount you will receive is based upon the next calculated NAV after the Fund receives the order from your financial intermediary.

### **PAYMENT METHODS FOR REDEMPTIONS**

Your redemption proceeds will be mailed by check to your address of record. The following payment options are available if you complete the appropriate section of the New Account Form or an Account Service Options Form. These payment options require a signature guarantee if they were not established when the account was opened:

- An electronic transfer to your account at a financial institution that is an ACH member; or
- Wire payment to your account at a domestic commercial bank that is a Federal Reserve System member.

### **METHODS THE FUND MAY USE TO MEET REDEMPTION REQUESTS**

The Fund intends to pay Share redemptions in cash. To ensure that the Fund has cash to meet Share redemptions on any day, the Fund typically expects to hold a cash or cash equivalent reserve or sell portfolio securities.

In unusual or stressed circumstances, the Fund may generate cash in the following ways:

- **Inter-fund Borrowing and Lending.** The SEC has granted an exemption that permits the Fund and all other funds advised by subsidiaries of Federated Investors, Inc. ("Federated funds") to lend and borrow money for certain temporary purposes directly to and from other Federated funds. Inter-fund borrowing and lending is permitted only: (a) to meet shareholder redemption requests; (b) to meet commitments arising from "failed" trades; and (c) for other temporary purposes. All inter-fund loans must be repaid in seven days or less.
- **Committed Line of Credit.** The Fund participates with certain other Federated funds, on a joint basis, in an up to \$500,000,000 unsecured, 364-day, committed, revolving line of credit (LOC) agreement. The LOC was made available to finance temporarily the repurchase or redemption of shares of the funds, failed trades, payment of dividends, settlement of trades and for other short-term, temporary or emergency general business purposes. The Fund cannot borrow under the LOC if an inter-fund loan is outstanding.
- **Redemption in Kind.** Although the Fund intends to pay Share redemptions in cash, it reserves the right to pay the redemption price in whole or in part by an "in-kind" distribution of the Fund's portfolio securities. Because the Fund has elected to be governed by Rule 18f-1 under the 1940 Act, the Fund is obligated to pay Share redemptions to any one shareholder in cash only up to the lesser of \$250,000 or 1% of the net assets represented by such Share class during any

90-day period. Redemptions in kind are made consistent with the procedures adopted by the Fund's Board, which generally include distributions of a pro rata share of the Fund's portfolio assets. Redemption in kind is not as liquid as a cash redemption. If redemption is made in kind, securities received may be subject to market risk and the shareholder could incur taxable gains and brokerage or other charges in converting the securities to cash.

#### **LIMITATIONS ON REDEMPTION PROCEEDS**

Redemption proceeds normally are wired or mailed within one business day after receiving a request in proper form. Payment may be delayed for up to seven days:

- to allow your purchase to clear (as discussed below);
- during periods of market volatility;
- when a shareholder's trade activity or amount adversely impacts the Fund's ability to manage its assets; or
- during any period when the Federal Reserve wire or applicable Federal Reserve banks are closed, other than customary weekend and holiday closings.

If you request a redemption of Shares recently purchased by check (including a cashier's check or certified check), money order, bank draft or ACH, your redemption proceeds may not be made available for up to seven calendar days to allow the Fund to collect payment on the instrument used to purchase such Shares. If the purchase instrument does not clear, your purchase order will be canceled and you will be responsible for any losses incurred by the Fund as a result of your canceled order.

In addition, the right of redemption may be suspended, or the payment of proceeds may be delayed (including beyond seven days), during any period:

- when the NYSE is closed, other than customary weekend and holiday closings;
- when trading on the NYSE is restricted, as determined by the SEC;
- in which an emergency exists, as determined by the SEC, so that disposal of the Fund's investments or determination of its NAV is not reasonably practicable; or
- as the SEC may by order permit for the protection of Fund shareholders.

You will not accrue interest or dividends on uncashed redemption checks from the Fund when checks are undeliverable and returned to the Fund.

#### **REDEMPTIONS FROM RETIREMENT ACCOUNTS**

##### **A Class**

In the absence of your specific instructions, 10% of the value of your redemption from a retirement account in the Fund may be withheld for taxes. This withholding only applies to certain types of retirement accounts.

#### **EXCHANGE PRIVILEGE**

You may exchange Shares of the Fund. To do this, you must:

- meet any applicable shareholder eligibility requirements;
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. The Fund reserves the right to reject any request to purchase or exchange Shares. The Fund may modify or terminate the exchange privilege at any time.

In addition, the Fund may terminate your exchange privilege if your exchange activity is found to be excessive under the Fund's frequent trading policies. See "Account and Share Information – Frequent Trading Policies."

Financial intermediaries may have different policies and procedures regarding the availability of intra-fund exchanges ("automatic exchanges"). These exchanges which are directed by the financial intermediary and not the Fund are discussed in Appendix B to this Prospectus.

##### **A Class**

You may exchange Shares into shares of the same class of another Federated fund.

##### **IS Class**

You may exchange Shares of the Fund for shares of any Federated fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Shares of Federated Institutional Money Market Management, Federated Institutional Tax-Free Cash Trust, Federated Institutional Prime Obligations Fund, Federated Institutional Prime Value Obligations Fund, Class A Shares of Federated Government Reserves Fund and Class R Shares of any Fund.

## **SYSTEMATIC WITHDRAWAL/EXCHANGE PROGRAM**

You may automatically redeem or exchange Shares. The minimum amount for all new or revised systematic redemptions or exchanges of Shares is \$50 per transaction per fund. Complete the appropriate section of the New Account Form or an Account Service Options Form or contact your financial intermediary or the Fund. Your account value must meet the minimum initial investment amount at the time the program is established. This program may reduce, and eventually deplete, your account. Payments should not be considered yield or income.

Generally, it is not advisable to continue to purchase Shares subject to a sales charge while redeeming Shares using this program.

## **ADDITIONAL CONDITIONS**

### **Telephone Transactions**

The Fund will record your telephone instructions. If the Fund does not follow reasonable procedures, it may be liable for losses due to unauthorized or fraudulent telephone instructions.

### **Share Certificates**

The Fund does not issue share certificates.

## Security and Privacy Protection

### **ONLINE ACCOUNT AND TELEPHONE ACCESS SECURITY**

Federated Investors, Inc. will not be responsible for losses that result from unauthorized transactions, unless Federated does not follow procedures designed to verify your identity. When initiating a transaction by telephone or online, shareholders should be aware that any person with access to your account and other personal information including PINs (Personal Identification Numbers) may be able to submit instructions by telephone or online. Shareholders are responsible for protecting their identity by using strong usernames and complex passwords which utilize combinations of mixed case letters, numbers and symbols, and change passwords and PINs frequently.

Using Federated's Account Access website means you are consenting to sending and receiving personal financial information over the Internet, so you should be sure you are comfortable with the risks. You will be required to accept the terms of an online agreement and to establish and utilize a password in order to access online account services. The Transfer Agent has adopted security procedures to confirm that internet instructions are genuine. The Transfer Agent will also send you written confirmation of share transactions. The Transfer Agent, the Fund and any of its affiliates will not be liable for losses or expenses that occur from fraudulent Internet instructions reasonably believed to be genuine.

The Transfer Agent or the Fund will employ reasonable procedures to confirm that telephone transaction requests are genuine, which may include recording calls, asking the caller to provide certain personal identification information, sending you written confirmation, or requiring other confirmation security procedures. The Transfer Agent, the Fund and any of its affiliates will not be liable for relying on instructions submitted by telephone that the Fund reasonably believes to be genuine.

### **ANTI-MONEY LAUNDERING COMPLIANCE**

To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify, and record information that identifies each new customer who opens a Fund account and to determine whether such person's name appears on governmental lists of known or suspected terrorists or terrorist organizations. Pursuant to the requirements under the USA PATRIOT Act, the information obtained will be used for compliance with the USA PATRIOT Act or other applicable laws, regulations and rules in connection with money laundering, terrorism or other illicit activities.

Information required includes your name, residential or business address, date of birth (for an individual), and other information that identifies you, including your social security number, tax identification number or other identifying number. The Fund cannot waive these requirements. The Fund is required by law to reject your Account Application if the required information is not provided. If, after reasonable effort, the Fund is unable to verify your identity or that of any other person(s) authorized to act on your behalf, or believes it has identified potentially suspicious, fraudulent or criminal activity, the Fund reserves the right to close your account and redeem your shares at the next calculated NAV without your permission. Any applicable contingent deferred sales charge (CDSC) will be assessed upon redemption of your shares.

The Fund has a strict policy designed to protect the privacy of your personal information. A copy of Federated Investors' privacy policy notice was given to you at the time you opened your account. The Fund sends a copy of the privacy notice to you annually. You may also obtain the privacy notice by calling the Fund, or through Federated Investors' website.

## Account and Share Information

### **CONFIRMATIONS AND ACCOUNT STATEMENTS**

You will receive confirmation of purchases, redemptions and exchanges (except for systematic transactions). In addition, you will receive periodic statements reporting all account activity, including systematic transactions, dividends and capital gains paid.

### **DIVIDENDS AND CAPITAL GAINS**

The Fund declares and pays any dividends annually to shareholders. Dividends are paid to all shareholders invested in the Fund on the record date. The record date is the date on which a shareholder must officially own Shares in order to earn a dividend.

In addition, the Fund pays any capital gains at least annually and may make such special distributions of dividends and capital gains as may be necessary to meet applicable regulatory requirements. Your dividends and capital gains distributions will be automatically reinvested in additional Shares without a sales charge, unless you elect cash payments. Dividends may also be reinvested without sales charges in shares of any class of any other Federated fund of which you are already a shareholder.

If you purchase Shares just before the record date for a dividend or capital gain distribution, you will pay the full price for the Shares and then receive a portion of the price back in the form of a taxable distribution, whether or not you reinvest the distribution in Shares. Therefore, you should consider the tax implications of purchasing Shares shortly before the record date for a dividend or capital gain. Contact your financial intermediary or the Fund for information concerning when dividends and capital gains will be paid.

Under the federal securities laws, the Fund is required to provide a notice to shareholders regarding the source of distributions made by the Fund if such distributions are from sources other than ordinary investment income. In addition, important information regarding the Fund's distributions, if applicable, is available via the link to the Fund and share class name at [www.FederatedInvestors.com/FundInformation](http://www.FederatedInvestors.com/FundInformation).

### **SMALL DISTRIBUTIONS AND UNCASHED CHECKS**

Generally, dividend and/or capital gain distributions payable by check in an amount of less than \$25 will be automatically reinvested in additional shares. This policy does not apply if you have elected to receive cash distributions that are directly deposited into your bank account via wire or ACH.

Additionally, if one or more dividend or capital gain distribution checks are returned as "undeliverable," or remain uncashed for 180 days, all subsequent dividend and capital gain distributions will be reinvested in additional shares. No interest will accrue on amounts represented by uncashed distribution checks. For questions on whether reinvestment applies to your distributions, please contact a Client Service Representative at 1-800-341-7400.

Certain states, including the state of Texas, have laws that allow shareholders to designate a representative to receive abandoned or unclaimed property ("escheatment") notifications by completing and submitting a designation form that generally can be found on the official state website. If a shareholder resides in an applicable state, and elects to designate a representative to receive escheatment notifications, escheatment notices generally will be delivered as required by such state laws, including, as applicable, to both the shareholder and the designated representative. A completed designation form may be mailed to the Fund (if Shares are held directly with the Fund) or to the shareholder's financial intermediary (if Shares are not held directly with the Fund). Shareholders should refer to relevant state law for the shareholder's specific rights and responsibilities under his or her state's escheatment law(s), which can generally be found on a state's official website.

### **ACCOUNTS WITH LOW BALANCES**

Federated reserves the right to close accounts if redemptions or exchanges cause the account balance to fall below:

- \$1,500 for the A class (or in the case of IRAs, \$250); and
- \$25,000 for the IS class.

Before an account is closed, you will be notified and allowed at least 30 days to purchase additional Shares to meet the minimum.

### **TAX INFORMATION**

The Fund sends an IRS Form 1099 and an annual statement of your account activity to assist you in completing your federal, state and local tax returns. Fund distributions of dividends and capital gains are taxable to you whether paid in cash or reinvested in the Fund. Dividends are taxable at different rates depending on the source of dividend income. Distributions of net short-term capital gains are taxable to you as ordinary income. Distributions of net long-term capital gains are taxable to you as long-term capital gains regardless of how long you have owned your Shares.

Fund distributions are expected to be primarily dividends. Redemptions and exchanges are taxable sales. Please consult your tax adviser regarding your federal, state and local tax liability.

## **FREQUENT TRADING POLICIES**

Frequent or short-term trading into and out of the Fund can have adverse consequences for the Fund and shareholders who use the Fund as a long-term investment vehicle. Such trading in significant amounts can disrupt the Fund's investment strategies (e.g., by requiring it to sell investments at inopportune times or maintain excessive short-term or cash positions to support redemptions), increase brokerage and administrative costs and affect the timing and amount of taxable gains distributed by the Fund. Investors engaged in such trading may also seek to profit by anticipating changes in the Fund's NAV in advance of the time as of which NAV is calculated or through an overall strategy to buy and sell Shares in response to incremental changes in the Fund's NAV.

The Fund's Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund's Shares. The Fund's fair valuation procedures are intended in part to discourage short-term trading strategies by reducing the potential for these strategies to succeed. See "What Do Shares Cost?" The Fund also monitors trading in Fund Shares in an effort to identify disruptive trading activity. The Fund monitors trades into and out of the Fund within a period of 30 days or less. The Fund may also monitor trades into and out of the Fund for potentially disruptive trading activity over periods longer than 30 days. The size of Share transactions subject to monitoring varies. Where it is determined that a shareholder has exceeded the detection amounts twice within a period of 12 months, the Fund will temporarily prohibit the shareholder from making further purchases or exchanges of Fund Shares. If the shareholder continues to exceed the detection amounts for specified periods the Fund will impose lengthier trading restrictions on the shareholder, up to and including permanently prohibiting the shareholder from making any further purchases or exchanges of Fund Shares. Whether or not the specific monitoring limits are exceeded, the Fund's management or the Adviser may determine from the amount, frequency or pattern of purchases and redemptions or exchanges that a shareholder is engaged in excessive trading that is or could be detrimental to the Fund and other shareholders and may prohibit the shareholder from making further purchases or exchanges of Fund Shares. No matter how the Fund defines its limits on frequent trading of Fund Shares, other purchases and sales of Fund Shares may have adverse effects on the management of the Fund's portfolio and its performance.

The Fund's frequent trading restrictions, do not apply to purchases and sales of Fund Shares by other Federated funds. These funds impose the same frequent trading restrictions as the Fund at their shareholder level. In addition, allocation changes of the investing Federated fund are monitored, and the managers of the recipient fund must determine that there is no disruption to their management activity. The intent of this exception is to allow investing fund managers to accommodate cash flows and other activity that result from non-abusive trading in the investing fund, without being stopped from such trading because the aggregate of such trades exceeds the monitoring limits. Nonetheless, as with any trading in Fund Shares, purchases and redemptions of Fund Shares by other Federated funds could adversely affect the management of the Fund's portfolio and its performance.

The Fund will not restrict transactions made on a non-discretionary basis by certain asset allocation programs, wrap programs, fund of funds, collective funds or other similar accounts that have been pre-approved by Federated ("Approved Accounts"). The Fund will continue to monitor transactions by the Approved Accounts and will seek to limit or restrict even non-discretionary transactions by Approved Accounts that are determined to be disruptive or harmful to the Fund.

The Fund's objective is that its restrictions on short-term trading should apply to all shareholders that are subject to the restrictions, regardless of the number or type of accounts in which Shares are held. However, the Fund anticipates that limitations on its ability to identify trading activity to specific shareholders, including where shares are held through intermediaries in multiple or omnibus accounts, will mean that these restrictions may not be able to be applied uniformly in all cases.

Other funds in the Federated family of funds may impose different monitoring policies or in some cases, may not monitor for frequent or short-term trading. Under normal market conditions such monitoring policies are designed to protect the funds being monitored and their shareholders and the operation of such policies and shareholder investments under such monitoring are not expected to have materially adverse impact on the Federated funds or their shareholders. If you plan to exchange your fund shares for shares of another Federated fund, please read the prospectus of that other Federated fund for more information.

The Fund may invest in affiliated investment companies whose boards have determined not to adopt frequent trading policies. The Fund therefore may be exposed to any adverse consequences of any frequent or short-term trading in such funds, to the extent of the Fund's investment therein.

The Adviser manages the Fund's assets, including buying and selling portfolio securities. Federated Advisory Services Company (FASC), an affiliate of the Adviser, provides research, quantitative analysis, equity trading and transaction settlement and certain support services to the Adviser. The Adviser and other subsidiaries of Federated advise approximately 102 equity, fixed-income and money market mutual funds as well as a variety of other pooled investment vehicles, private investment companies and customized separately managed accounts (including non-U.S./offshore funds) which totaled approximately \$459.9 billion in assets as of December 31, 2018. Federated was established in 1955 and is one of the largest investment managers in the United States with nearly 1,900 employees. Federated provides investment products to approximately 9,500 investment professionals and institutions.

The Adviser advises approximately 76 fixed-income and money market mutual funds (including sub-advised funds) and private investment companies, which totaled approximately \$264.8 billion in assets as of December 31, 2018.

The Adviser may voluntarily waive a portion of its fee or reimburse the Fund for certain operating expenses. The Adviser and its affiliates have also agreed to certain "Fee Limits" as described in the footnote to the "Risk/Return Summary: Fees and Expenses" table found in the "Fund Summary" section of the Prospectus.

## PRIOR PERFORMANCE OF COMPOSITE OF ACCOUNTS SIMILARLY MANAGED BY ADVISER

The following performance information relates to the Federated Leveraged Company Stock Composite ("Composite"), which is a performance composite consisting of the Fund and portfolio sleeves of four other funds (described below) with substantially similar investment objectives, strategies, policies and risks to those of the Fund that also are managed by the Fund's Adviser.

As of December 31, 2018, the Composite consisted of portfolio sleeves from four U.S. registered mutual funds and one non-U.S. collective investment fund (a SICAV Investment Fund (Société d'Investissement à Capital Variable)), totaling approximately \$94,405,153 million. Each portfolio sleeve in the Composite has been managed by the same portfolio managers, with separate dedicated assets (in separate trading pools, with separate cash allocations) and separate performance tracking. The inception date of the Composite was January 2008. At various times between the Composite's inception date and December 31, 2018, other funds and private accounts with substantially similar investment objectives, strategies, policies and risks to those of the Fund have been included in the Composite. The following performance information is therefore intended to illustrate past performance for substantially similarly managed portfolios by the Adviser. The Fund's total return will not normally equal (and may vary significantly from) the performance of the portfolios or the Composite itself. The following performance information for the Composite was prepared in accordance with industry best practices. The method for computing historical performance information for the Composite differs from the SEC's method for computing the historical performance of the Fund. The portfolios included in the Composite have different fees, expenses and cash flows than the Fund, which could negatively impact the performance of the Fund in relation to the portfolios. The actual fees and expenses of the Composite are lower than the anticipated operating expenses of the Fund (except for the IS class, after expense waivers and reimbursements) and, accordingly, the performance results for the Composite generally are greater than the Fund's performance would have been for the same periods. The portfolios included in the Composite also are not separately registered under the 1940 Act and therefore are not subject to certain investment restrictions, diversification requirements and other limitations imposed on the Fund by the 1940 Act and Subchapter M of the Internal Revenue Code. If such private accounts had been or would be registered under the 1940 Act, the performance may have been or would be adversely affected.

## Appendix A: Hypothetical Investment and Expense Information

The following charts provide additional hypothetical information about the effect of the Fund's expenses, including investment advisory fees and other Fund costs, on the Fund's assumed returns over a 10-year period. The charts show the estimated expenses that would be incurred in respect of a hypothetical investment, of \$10,000, assuming a 5% return each year, and no redemption of Shares. Each chart also assumes that the Fund's annual expense ratio stays the same throughout the 10-year period and that all dividends and distributions are reinvested. The annual expense ratio used in each chart is the same as stated in the "Fees and Expenses" table of this Prospectus (and thus may not reflect any fee waiver or expense reimbursement currently in effect). The maximum amount of any sales charge that might be imposed on the purchase of Shares (and deducted from the hypothetical initial investment of \$10,000; the "Front-End Sales Charge") is reflected in the "Hypothetical Expenses" column. The hypothetical investment information does not reflect the effect of charges (if any) normally applicable to redemptions of Shares (e.g., deferred sales charges, redemption fees). Mutual fund returns, as well as fees and expenses, may fluctuate over time, and your actual investment returns and total expenses may be higher or lower than those shown below.
