Federated Hermes Michigan Intermediate Municipal Fund

A Portfolio of Federated Hermes Municipal Securities Income Trust

Before you invest, you may want to review the Fund's Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus and other information about the Fund, including the Statement of Additional Information and most recent reports to shareholders, online at FederatedInvestors.com/FundInformation. You can also get this information at no cost by calling 1-800-341-7400, by sending an email request via Contact Us on FederatedInvestors.com, or from a financial intermediary through which Shares of the Fund may be bought or sold. The Fund's Prospectus and Statement of Additional Information, both dated October 31, 2022, are incorporated by reference into this Summary Prospectus.

A mutual fund seeking to provide current income by investing in a portfolio of tax-exempt securities so that, normally, distributions of annual interest income are exempt from federal regular income tax (federal regular income tax does not include the federal alternative minimum tax (AMT)) and the personal income taxes imposed by the state of Michigan and Michigan municipalities.

As with all mutual funds, the Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Not FDIC Insured • May Lose Value • No Bank Guarantee

FEDERATED HERMES MICHIGAN INTERMEDIATE MUNICIPAL FUND

A Portfolio of Federated Hermes Municipal Securities Income Trust

CLASS A SHARES (TICKER MMIFX)

INSTITUTIONAL SHARES (TICKER MMFIX)

SUPPLEMENT TO CURRENT SUMMARY PROSPECTUS, PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION

A Special Meeting of Shareholders of Federated Hermes Michigan Intermediate Municipal Fund (the “Fund”), a portfolio of Federated Hermes Municipal Securities Income Trust (the “Trust”), will be held at 4000 Ericsson Drive, Warrendale, Pennsylvania 15086-7561, at 10:00 AM (Eastern Time), on January 26, 2023, for the following purpose:

To approve a proposed Agreement and Plan of Reorganization, pursuant to which Federated Hermes Intermediate Municipal Fund (the “Acquiring Fund”) would acquire all, or substantially all, of the assets of the Fund in exchange for Class A Shares and Institutional Shares of the Acquiring Fund to be distributed pro rata by the Fund to its shareholders of Class A Shares and Institutional Shares, respectively, in complete liquidation, dissolution and termination of the Fund (the “Reorganization”).

The Agreement and Plan of Reorganization was reviewed and approved by the Board of Trustees (the “Board”) of the Trust at a meeting held on August 11, 2022. The Board’s approval of the Agreement and Plan of Reorganization is subject to further approval by the Fund’s shareholders. The Fund anticipates mailing a Prospectus/Proxy Statement to shareholders of the Fund on or about December 14, 2022.

The Board, including the Independent Trustees, believes that the proposed Reorganization of the Fund into the Acquiring Fund, which is expected to be tax-free, is in the best interests of the Fund’s shareholders and that the interests of the Fund’s shareholders will not be diluted as a result of the Reorganization. If approved, shareholders of the Fund will be receiving shares in a fund with a similar intermediate duration risk profile, greater assets, a stronger historical performance record and lower gross and net total expenses than the Fund.

It is expected that the record date for determination of shareholders entitled to vote at the Special Meeting will be November 28, 2022 (the “Record Date”). Holders of shares purchased after the Record Date will not be entitled to vote at the meeting. Assuming shareholder approval is obtained, the Reorganization is expected to occur after the close of business on or about February 10, 2023. At the time of the Reorganization, it is anticipated that the Fund will transfer most, if not all, of its then existing portfolio to the Acquiring Fund.

The estimated expenses associated with the Reorganization to be borne by the Fund, including those related to direct proxy expenses and brokerage fees, will be provided in the forthcoming Prospectus/Proxy Statement.

Federated Hermes, Inc. (“Federated Hermes”) or its affiliates intend to invest in the Fund prior to the Record Date in an amount such that it would own approximately 50% of the outstanding shares of the Fund in an effort to help achieve quorum for the Fund’s Special Meeting. Federated Hermes or its affiliates will “shadow vote” the shares acquired through any such investment. Shadow voting involves voting in proportion to the percentage of favorable and unfavorable votes cast by the Fund’s shareholders. Federated Hermes or its affiliates will shadow vote their respective shares immediately prior to the Special Meeting based on the percentage of favorable and unfavorable votes cast at that time. Federated Hermes’ investment in the Fund and its use of shadow voting will be more fully described in the Prospectus/Proxy Statement that will be mailed to shareholders on or about December 14, 2022.

In connection with Federated Hermes’ investment into the Fund, the following language replaces, in its entirety, the current language in **“What are the Fund’s Investment Strategies”** under the section entitled **“TEMPORARY INVESTMENTS”**:

“The Fund may temporarily depart from its principal investment strategies by investing its assets in taxable securities, affiliated mutual funds (including one or more affiliated money market funds) or holding cash. It may do this in response to unusual or extraordinary circumstances, such as: adverse market, economic or other conditions (for example, to help avoid potential losses, or during periods when there is a shortage of appropriate tax-exempt securities); to maintain liquidity to meet shareholder redemptions; or to accommodate cash inflows. Such unusual or extraordinary circumstances may include large cash inflows resulting from the Adviser or one of its affiliates making a short-term investment in the Fund to facilitate obtaining a quorum for a shareholder meeting or otherwise to facilitate a fund reorganization or liquidation. It is possible that such temporary investments could affect the Fund’s investment returns. If the Fund invests in taxable securities, it may receive and distribute taxable income to investors and to that extent fail to meet its investment objectives.”

To the extent that Federated Hermes, one of its subsidiaries, or its officers and directors, are deemed to be participants in the solicitation of proxies from shareholders of the Fund in connection with the proposed proxy statement, additional information regarding the interests of participants in the solicitation of proxies in connection with the proposed proxy statement will be included in, or incorporated into, the Prospectus/Proxy Statement that the Acquiring Fund files with the Securities and Exchange Commission (SEC).

The foregoing is not an offer to sell, nor a solicitation to buy, shares of the Acquiring Fund, nor is it a solicitation of any proxy. Shareholders of the Fund, as of the Record Date, will receive a Prospectus/Proxy Statement, or an “Important Notice Regarding the Availability of Proxy Materials,” that provides additional information regarding the proposed Reorganization. The Prospectus/Proxy Statement, and any other documents filed by the Fund or the Acquiring Fund with the SEC, may be obtained free of charge on the SEC’s website at www.sec.gov or on the Fund’s website at FederatedInvestors.com. Investors should read the Prospectus/Proxy Statement carefully before making any voting decision, because it contains important information.

Fund Summary Information

Federated Hermes Michigan Intermediate Municipal Fund (the "Fund")

RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund's investment objective is to provide current income exempt from federal regular income tax and personal income taxes imposed by the state of Michigan and Michigan municipalities.

RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell Class A Shares (A) or Institutional Shares (IS) of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.** You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in certain classes (e.g., A class) of Federated Hermes funds. More information about these and other discounts is available from your financial professional, in the "What Do Shares Cost?" section of the Prospectus on page 17 and in "Appendix B" to this Prospectus.

Shareholder Fees (fees paid directly from your investment)

	A	IS
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price).....	3.00%	None
Maximum Deferred Sales Charge (Load) (as a percentage of original purchase price or redemption proceeds, as applicable).....	0.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (and other Distributions) (as a percentage of offering price).....	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable).....	None	None
Exchange Fee.....	None	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	A	IS
Management Fee.....	0.40%	0.40%
Distribution (12b-1) Fee.....	None	None
Other Expenses ¹	0.83%	0.58%
Total Annual Fund Operating Expenses ¹	1.23%	0.98%
Fee Waivers and/or Expense Reimbursements ²	(0.36)%	(0.36)%
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements ¹	0.87%	0.62%

1 Other Expenses, Total Annual Fund Operating Expenses and Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements have been restated to reflect an increase in proxy-related expenses.

2 The Adviser and certain of its affiliates on their own initiative have agreed to waive certain amounts of their respective fees and/or reimburse expenses. Total annual fund operating expenses (excluding acquired fund fees and expenses, interest expense, extraordinary expenses, and proxy-related expenses paid by the Fund, if any) paid by the Fund's A and IS classes (after the voluntary waivers and/or reimbursements) will not exceed 0.77% and 0.52% (the "Fee Limit"), respectively, up to but not including the later of (the "Termination Date"): (a) November 1, 2023; or (b) the date of the Fund's next effective Prospectus. While the Adviser and its affiliates currently do not anticipate terminating or increasing these arrangements prior to the Termination Date, these arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Fund's Board of Trustees (the "Trustees").

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem or hold all of your Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that operating expenses (excluding any sales loads on reinvested dividends, fee waivers and/or expense reimbursements) are as shown in the table above and remain the same. The expenses used to calculate the Fund's examples do not include fee waivers or expense reimbursements. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

Share Class	1 Year	3 Years	5 Years	10 Years
A	\$422	\$679	\$955	\$1,744
IS	\$100	\$312	\$542	\$1,201

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 17% of the average value of its portfolio.

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund pursues its objective by investing in a portfolio of tax-exempt securities so that, normally, distributions of annual interest income are exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. Interest income from the Fund's investments may be subject to (or may be a specific preference item for purposes of) the federal alternative minimum tax (AMT) for individuals.

The Fund's portfolio securities will be investment grade or of comparable quality. Investment-grade securities are securities that receive investment grade ratings (i.e., generally ratings in the first, second, third or fourth highest rating category) by a nationally recognized statistical rating organization (NRSRO) or unrated securities of comparable quality. The presence of a ratings modifier, sub-category, or gradation (for example, a (+) or (-)) is intended to show relative standing within the major rating categories and does not affect the security credit rating for purposes of the Fund's investment parameters. For example, securities rated AAA, AA, A or BBB (including modifiers, sub-categories or gradations) by Standard & Poor's, an NRSRO, would be rated in the first, second, third or fourth highest rating category, respectively.

Under normal market conditions, the Fund's dollar-weighted average portfolio maturity is between three and ten years, and its average-weighted duration is between three and seven years. The Adviser may lengthen or shorten duration from time to time based on its interest rate outlook. Duration measures the price sensitivity of a fixed-income security to changes in interest rates.

The securities in which the Fund may principally invest include tax-exempt securities, which may include, for example, general obligation bonds, special revenue bonds, private activity bonds, tax-increment financing bonds, municipal leases, zero-coupon securities, inverse floaters, municipal mortgage-backed securities and planned amortization classes. Certain of the tax-exempt securities in which the Fund invests may be subject to credit enhancement.

The Fund also may principally invest in derivative contracts (such as, for example, futures contracts, option contracts and swap contracts) and hybrid instruments to implement its investment strategies. For example, the Fund may use derivative contracts or hybrid instruments in an attempt to benefit from changes in the value of the underlying investments(s), to gain exposure to the municipal bond sector, to increase or decrease the effective duration of the Fund's portfolio or to hedge against potential losses. There can be no assurance that the Fund's use of derivative contracts or hybrid instruments will work as intended. Derivative investments made by the Fund are included within the Fund's 80% policy and are calculated at market value.

The Fund also may invest in certain securities or other investments (such as money market funds, market discount bonds, credit default swaps and other derivative transactions) that will likely cause the Fund to realize a limited amount of ordinary income or short-term capital gains (which are treated as ordinary income for federal income tax purposes). The Fund is a non-diversified portfolio of Federated Hermes Municipal Securities Income Trust.

The Fund will normally invest its assets so that at least 80% of the income that it distributes will be exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. This policy may not be changed without shareholder approval.

What are the Main (or Principal) Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund's returns include:

- **Tax-Exempt Securities Risk.** The amount of public information available about tax-exempt securities is generally less than for corporate equities or bonds. The secondary market for tax-exempt securities also tends to be less well-developed and less liquid than many other securities markets, which may limit the Fund's ability to sell its tax-exempt securities at attractive prices. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the Fund's investments in tax-exempt securities. Tax-exempt issuers can and have defaulted on obligations, been downgraded or commenced insolvency proceedings. Like other issuers and securities, the likelihood that the credit risk associated with such issuers and such securities will increase is greater during times of economic stress and financial instability.
- **Interest Rate Risk.** Prices of fixed-income securities (including tax-exempt securities) generally fall when interest rates rise. The longer the duration of a fixed-income security, the more susceptible it is to interest rate risk. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Such non-payment or default may reduce the value of the Fund's portfolio holdings, its share price and its performance.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.
- **Liquidity Risk.** Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time. Liquidity risk also refers to the possibility that the Fund may not be able to sell a security or close out a derivative contract when it wants to. Over-the-counter derivative contracts generally carry greater liquidity risk than exchange-traded contracts.
- **Tax Risk.** In order to be tax-exempt, tax-exempt securities must meet certain legal requirements. Failure to meet such requirements may cause the interest received and distributed by the Fund to shareholders to be taxable. The federal income tax treatment of payments in respect of certain derivative contracts is unclear. The Fund also may invest in money market funds, market discount bonds, enter into credit default swap arrangements and other derivative transactions, and engage in other permissible activities that will likely cause the Fund to realize a limited amount of ordinary income or short-term capital gains (which are treated as ordinary income for federal

income tax purposes). Consequently, for each of these reasons, the Fund may receive payments, and make distributions, that are treated as ordinary income for federal income tax purposes. Income from the Fund also may be subject to AMT.

- **Leverage Risk.** Leverage risk is created when an investment, which includes, for example, a derivative contract, exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund's risk of loss and potential for gain. Investments can have these same results if their returns are based on a multiple of a specified index, security or other benchmark.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below or above its current market value.
- **Sector Risk.** Since the Fund invests in a portfolio of Michigan tax-exempt securities, the Fund may be subject to additional risks compared to funds that invest in multiple states. Although it has diversified, Michigan's economy is still heavily dependent upon certain industries, especially automobile, manufacturing and related industries. Any downturns in these industries may adversely affect the economy of the state. A substantial part of the Fund's portfolio may be comprised of securities issued or credit enhanced by companies in similar businesses, or with other similar characteristics. As a result, the Fund will be more susceptible to any economic, business, political or other developments which generally affect these entities.
- **Prepayment and Extension Risk.** When homeowners prepay their mortgages in response to lower interest rates, the Fund will be required to reinvest the proceeds at the lower interest rates available. Also, when interest rates fall, the price of municipal mortgage-backed securities may not rise to as great an extent as that of other fixed-income securities. When interest rates rise, homeowners are less likely to prepay their mortgages. A decreased rate of prepayments lengthens the expected maturity of a mortgage-backed security, and the price of mortgage-backed securities may decrease more than the price of other fixed income securities when interest rates rise.
- **Credit Enhancement Risk.** The securities in which the Fund invests may be subject to credit enhancement (for example, guarantees, letters of credit or bond insurance). If the credit quality of the credit enhancement provider (for example, a bank or bond insurer) is downgraded, the rating on a security credit enhanced by such credit enhancement provider also may be downgraded. Having multiple securities credit enhanced by the same enhancement provider will increase the adverse effects on the Fund that are likely to result from a downgrading of, or a default by, such an enhancement provider. Adverse developments in the banking or bond insurance industries also may negatively affect the Fund.

- **Risk of Non-Diversified Fund.** The Fund is non-diversified. Compared to diversified mutual funds, it may invest a higher percentage of its assets among fewer issuers of portfolio securities. In certain situations, being non-diversified may reduce the Fund's credit risk by enabling it to avoid investing in certain countries, regions or sectors that exhibit above average credit risk. However, being non-diversified may also increase the Fund's risk by magnifying the impact (positively or negatively) that only one issuer has on the Fund's share price and performance.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects.
- **Risk of Investing in Derivative Contracts and Hybrid Instruments.** Derivative contracts and hybrid instruments involve risks different from, or possibly greater than, risks associated with investing directly in securities and other traditional investments. Specific risk issues related to the use of such contracts and instruments include valuation and tax issues, increased potential for losses and/or costs to the Fund, and a potential reduction in gains to the Fund. Each of these issues is described in greater detail in this Prospectus. Derivative contracts and hybrid instruments may also involve other risks described in this Prospectus, such as interest rate, credit, liquidity and leverage risks.
- **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

PERFORMANCE: BAR CHART AND TABLE

Risk/Return Bar Chart

The bar chart and performance table below reflect historical performance data for the Fund and are intended to help you analyze the Fund's investment risks in light of its historical returns. The bar chart shows the variability of the Fund's A class total returns on a calendar year-by-year basis. The Average Annual Total Return Table shows returns *averaged* over the stated periods, and includes comparative performance information. *The Fund's performance will fluctuate, and past performance (before and after taxes) is not necessarily an indication of future results.* Updated performance information for the Fund is available under the "Products" section at [FederatedInvestors.com](https://www.federatedinvestors.com) or by calling 1-800-341-7400.

The total returns shown in the bar chart do not reflect payment of any sales charges or recurring shareholder account fees. If these charges or fees had been included, the returns shown would have been lower.

The Fund's A class total return for the nine-month period from January 1, 2022 to September 30, 2022, was (7.90)%.

Within the periods shown in the bar chart, the Fund's A class highest quarterly return was 2.35% (quarter ended March 31, 2019). Its lowest quarterly return was (3.37)% (quarter ended December 31, 2016).

Average Annual Total Return Table

The Fund's IS class commenced operations on April 28, 2020. For the periods prior to commencement of operations of the Fund's IS class, the performance information shown below is for the Fund's A class. The performance of the A class has not been adjusted to reflect the expenses of the IS class since the IS class has a lower expense ratio than the A class. The performance shown in the table has been adjusted to reflect differences between the sales loads and charges imposed on the purchase and redemption of the Fund's IS class and A class. In addition to Return Before Taxes, Return After Taxes is shown for the Fund's A class to illustrate the effect of federal taxes on Fund returns. After-tax returns are shown only for the A class, and after-tax returns for the IS class will differ from those shown for the A class. *Actual*

after-tax returns depend on each investor's personal tax situation, and are likely to differ from those shown. After-tax returns are calculated using a standard set of assumptions. The stated returns assume the highest historical **federal** income and capital gains tax rates. These after-tax returns do **not** reflect the effect of any applicable **state** and **local** taxes. After-tax returns are not relevant to investors holding shares through tax-deferred programs, such as a 401(k) plan, an Individual Retirement Account (IRA) or other tax-advantaged investment plan.

(For the Periods Ended December 31, 2021)

Share Class	1 Year	5 Years	10 Years
A:			
Return Before Taxes	(3.19)%	2.14%	2.22%
Return After Taxes on Distributions	(3.29)%	2.08%	2.17%
Return After Taxes on Distributions and Sale of Fund Shares	(1.18)%	2.14%	2.26%
IS:			
Return Before Taxes	0.02%	2.85%	2.57%
S&P Municipal Bond Intermediate Index ¹ (reflects no deduction of fees, expenses or taxes)	1.09%	3.84%	3.38%
S&P Municipal Bond MI, Investment Grade, 1-15 Years Index ² (reflects no deduction of fees, expenses or taxes)	0.70%	3.38%	3.01%
Morningstar Municipal Single State Intermediate Funds Average ³	0.63%	2.92%	2.69%

- ¹ The S&P Municipal Bond Intermediate Index consists of bonds in the S&P Municipal Bond Index with a minimum maturity of 3 years and a maximum maturity of 15 years. It is a subindex of the S&P Municipal Bond Index which tracks fixed-rate tax-free bonds and bonds subject to the alternative minimum tax (AMT). The index includes bonds of all quality—from "AAA" to non-rated, including defaulted bonds—from all sectors of the municipal bond market.
- ² The S&P Municipal Bond MI, Investment Grade, 1-15 Years Index represents the portion of the MI Index composed solely of bonds that are rated "BBB-/Baa3" or higher with remaining maturities up to fifteen years.
- ³ Morningstar figures represent the average of the total returns reported by all the mutual funds designated by Morningstar as falling into the respective category indicated.

FUND MANAGEMENT

The Fund's Investment Adviser is Federated Investment Management Company.

Lee R. Cunningham II, Senior Portfolio Manager, has been the Fund's portfolio manager since May of 1998.

R.J. Gallo, CFA, Senior Portfolio Manager, has been the Fund's portfolio manager since October of 2017.

PURCHASE AND SALE OF FUND SHARES

You may purchase, redeem or exchange Shares of the Fund on any day the New York Stock Exchange is open. Shares may be purchased through a financial intermediary firm that has entered into a Fund selling and/or servicing agreement with the Distributor or an affiliate (“Financial Intermediary”) or directly from the Fund, by wire or by check. Please note that certain purchase restrictions may apply. Redeem or exchange Shares through a financial intermediary or directly from the Fund by telephone at 1-800-341-7400 or by mail.

A Class

The minimum investment amount for the Fund’s A class is generally \$1,500 for initial investments and \$100 for subsequent investments. Certain types of accounts are eligible for lower minimum investments. The minimum investment amount for Systematic Investment Programs is \$50.

IS Class

The minimum initial investment amount for the Fund’s IS Class is generally \$1,000,000 and there is no minimum subsequent investment amount. Certain types of accounts are eligible for lower minimum investments. The minimum investment amount for Systematic Investment Programs is \$50.

TAX INFORMATION

It is anticipated that Fund distributions will be primarily dividends that are exempt from federal regular income tax, although a portion of the Fund’s dividends may not be tax exempt. Dividends may be subject to state and local taxes (except for Michigan taxes, to the extent derived from Michigan tax-exempt investments and eligible for tax-exempt treatment under Michigan law). Although the Fund does not seek to realize capital gains, the Fund may realize and distribute capital gains from time to time as a result of the Fund’s normal investment activities. Any Fund distributions of capital gains are taxable at applicable capital gains rates. The Fund is generally not a suitable investment for retirement accounts. The Fund pursues its objective by investing in a portfolio of tax-exempt securities so that, normally (except as discussed in this Prospectus), distributions of annual interest income are exempt from federal regular income tax and the personal income taxes imposed by the state of Michigan and Michigan municipalities. Interest from the Fund’s investments may be subject to (or may be a specific preference item for purposes of) the federal AMT for individuals.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
