Federated Hermes Muni and Stock Advantage Fund

(formerly, Federated Muni and Stock Advantage Fund)

A Portfolio of Federated Hermes Income Securities Trust
(formerly, Federated Income Securities Trust)

A mutual fund seeking to primarily provide tax-advantaged income, with a secondary objective of capital appreciation, by investing in both tax-exempt (or municipal) securities and equity securities. **Thus, the Fund is not entirely a “tax-exempt” or “municipal” fund. Although a portion of the dividends paid by the Fund will consist of exempt-interest dividends that are exempt from federal regular income tax, some distributions will be subject to federal income tax. Additionally, most distributions will be subject to applicable state and local personal income tax.**

As with all mutual funds, the Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

IMPORTANT NOTICE TO SHAREHOLDERS

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund’s shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by contacting your financial intermediary (such as a broker-dealer or bank); other shareholders may call the Fund at 1-800-341-7400, Option 4.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by contacting your financial intermediary (such as a broker-dealer or bank); other shareholders may call the Fund at 1-800-341-7400, Option 4. Your election to receive reports in paper will apply to all funds held with the Fund complex or your financial intermediary.

Fund Summary Information

Federated Hermes Muni and Stock Advantage Fund (the "Fund")

RISK/RETURN SUMMARY: INVESTMENT OBJECTIVE

The Fund's primary investment objective is to provide tax-advantaged income with a secondary objective of capital appreciation. **The Fund is not entirely a "tax-exempt" or "municipal" fund. Although a portion of the dividends paid by the Fund will consist of exempt-interest dividends that are exempt from regular federal income tax, some distributions will be subject to federal income tax. Additionally, most distributions will be subject to applicable state and local personal income tax.**

RISK/RETURN SUMMARY: FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell Class A Shares (A), Class B Shares (B), Class C Shares (C), Class F Shares (F) or Institutional Shares (IS) of the Fund. You may qualify for certain sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the A class or \$1,000,000 in the F class of Federated Hermes Funds. More information about these and other discounts is available from your financial professional, in the "What Do Shares Cost?" section of the Prospectus on page 23 and in "Appendix B" to this Prospectus. If you purchase the Fund's IS shares through a broker acting as an agent on behalf of its customers, you may be required to pay a commission to such broker; such commissions, if any, are not reflected in the Example below.

Shareholder Fees (fees paid directly from your investment)

	A	B	C	F	IS
Maximum Sales Charge (Load)	5.50%	5.50%	1.00%	2.00%	None
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	5.50%	None	None	1.00%	None
Maximum Deferred Sales Charge (Load) (as a percentage of original purchase price or redemption proceeds, as applicable).....	0.00%	5.50%	1.00%	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (and other Distributions) (as a percentage of offering price)	None	None	None	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable)	None	None	None	None	None
Exchange Fee.....	None	None	None	None	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	A	B	C	F	IS
Management Fee	0.65%	0.65%	0.65%	0.65%	0.65%
Distribution (12b-1) Fee.....	0.00% ¹	0.75%	0.75%	None	None
Other Expenses	0.42%	0.42%	0.42%	0.42%	0.17%
Total Annual Fund Operating Expenses	1.07%	1.82%	1.82%	1.07%	0.82%
Fee Waivers and/or Expense Reimbursements ²	(0.07)%	(0.07)%	(0.07)%	(0.07)%	(0.07)%
Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements	1.00%	1.75%	1.75%	1.00%	0.75%

1 The Fund has adopted a Distribution (12b-1) Plan for its Class A Shares pursuant to which the A class of the Fund may incur and pay a Distribution (12b-1) Fee of up to a maximum amount of 0.05%. No such fee is currently incurred and paid by the A class of the Fund. The A class of the Fund will not incur and pay such a Distribution (12b-1) Fee until such time as approved by the Fund's Board of Trustees (the "Trustees").

2 The Adviser and certain of its affiliates on their own initiative have agreed to waive certain amounts of their respective fees and/or reimburse expenses. Total annual fund operating expenses (excluding acquired fund fees and expenses, interest expense, extraordinary expenses, and proxy-related expenses, paid by the Fund, if any) paid by the Fund's A, B, C, F and IS classes (after the voluntary waivers and/or reimbursements) will not exceed 1.00%, 1.75%, 1.75%, 1.00% and 0.75%, (the "Fee Limit") respectively, up to but not including the later of (the "Termination Date"): (a) January 1, 2022; or (b) the date of the Fund's next effective Prospectus. While the Adviser and its affiliates currently do not anticipate terminating or increasing these arrangements prior to the Termination Date, these arrangements may only be terminated or the Fee Limit increased prior to the Termination Date with the agreement of the Trustees.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. Expenses assuming no redemption are also shown. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses are as shown in the table above and remain the same. Although your actual costs and returns may be higher or lower, based on these assumptions your costs would be:

Share Class	1 Year	3 Years	5 Years	10 Years
A:				
Expenses assuming redemption	\$653	\$872	\$1,108	\$1,784
Expenses assuming no redemption	\$653	\$872	\$1,108	\$1,784
B:				
Expenses assuming redemption	\$735	\$973	\$1,185	\$1,940
Expenses assuming no redemption	\$185	\$573	\$985	\$1,940
C:				
Expenses assuming redemption	\$285	\$573	\$985	\$2,137
Expenses assuming no redemption	\$185	\$573	\$985	\$2,137
F:				
Expenses assuming redemption	\$308	\$537	\$684	\$1,393
Expenses assuming no redemption	\$208	\$437	\$684	\$1,393
IS:				
Expenses assuming redemption	\$84	\$262	\$455	\$1,014
Expenses assuming no redemption	\$84	\$262	\$455	\$1,014

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 68% of the average value of its portfolio.

RISK/RETURN SUMMARY: INVESTMENTS, RISKS AND PERFORMANCE

What are the Fund's Main Investment Strategies?

The Fund invests in a diversified portfolio that is allocated between tax-exempt securities and equity securities. In seeking to provide investors with a high level of tax advantaged income, the Fund will invest at least 50% of its total assets in tax-exempt securities; under current federal tax law, this strategy will enable interest earned on tax-exempt securities to retain its tax-exempt nature when paid to the Fund's shareholders as dividends. The Fund normally will invest most of its remaining assets in domestic and foreign equity securities that the Fund's investment adviser or subadviser (as applicable, "Adviser") believes will be primarily income producing, with those dividends intended to be eligible for any reduced federal income tax rate that may be available with respect to qualified dividends. Shareholders should note that federal income tax laws with respect to qualified dividends may change, and any applicable reduced income tax rate may change or be eliminated for some or all individual taxpayers.

The Fund intends that the income it receives from the portion of its portfolio invested in tax-exempt securities will be exempt from regular federal income tax when distributed to shareholders. The Fund will invest primarily in securities whose interest is not subject to (or not a specific preference item for purposes of) the federal alternative minimum income tax for individuals (AMT). While the Fund may invest in securities of any maturity, the Adviser generally seeks to manage the Fund so that at least a majority of the Fund's tax-exempt portfolio will be invested in intermediate (i.e., securities with stated maturities of more than three years but less than 10 years) and/or long-term (i.e., securities with stated maturities of 10 or more years) tax-exempt securities. The allocation between intermediate and long-term securities generally will be driven by the Adviser's assessment of income opportunities, as well as the Adviser's expectations of likely price performance for different maturities along the yield curve. The Fund may invest in tax-exempt securities rated as low as "B" (including modifiers, sub-categories or gradations) by a nationally recognized statistical rating organization (NRSRO), or unrated securities of comparable quality. The presence of a ratings modifier, sub-category or gradation (for example, a (+) or (-)) is intended to show relative standing within the major rating categories and does not affect the

security credit rating for purposes of the Fund's investment parameters. Tax-exempt securities rated below "BBB" by an NRSRO, such as Standard and Poor's, are considered noninvestment-grade securities, which are also known as junk bonds. In addition to the other risks described in this Prospectus that are applicable to tax-exempt securities, noninvestment-grade securities are subject to the risks of investing in noninvestment-grade securities as described in the Fund's Prospectus.

Regarding the equity securities portion of the Fund's portfolio, the Fund will invest primarily in income producing, domestic and foreign common stocks and other securities, the dividends from which are intended to be eligible for any reduced federal income tax rate that may be available with respect to qualified dividends. The Fund will focus on intrinsic value in seeking to select primarily equity securities of mid- to large-capitalization companies that are characterized by sound management, have the ability to finance expected growth and may offer superior total return prospects. The Adviser's focus on dividend paying securities strives to create an equity portfolio whose income levels are higher than the yield of applicable general market indices, such as the S&P 500 Index.

The securities in which the Fund may principally invest include tax-exempt securities, which may include, for example, general obligation bonds, special revenue bonds, private activity bonds, tax increment financing bonds, municipal leases, zero-coupon securities, inverse floaters, municipal mortgage-backed securities and planned amortization classes (or PACs). Certain of the tax-exempt securities in which the Fund invests may be subject to credit enhancement. The equity securities in which the Fund may principally invest include, for example, common stocks, preferred stocks, foreign securities, American Depositary Receipts (ADRs) and domestically traded securities of foreign issuers. The Fund also may invest principally in convertible securities and securities of other investment companies.

The Fund also may principally invest in derivative contracts (such as, for example, futures contracts, option contracts and swap contracts) and hybrid instruments to implement elements of its investment strategies. For example, the Fund may use derivative contracts or hybrid instruments in an attempt to benefit from changes in the value of the underlying instrument(s), to gain exposure to the municipal bond sector, to increase or decrease the effective duration of the Fund's portfolio or to hedge against potential losses.

The Fund has fundamental investment policies under which the Fund will attempt: (a) to invest its assets so that the income derived from municipal securities (or tax-exempt securities) that it distributes will be exempt from federal income tax (including AMT), except when investing for "defensive" purposes; and (b) to invest so that dividends received for equity securities will qualify for federal income taxation at the 15% rate. For purposes of this policy, shareholders should note that federal income tax laws with respect to qualified dividends change, and any applicable reduced income tax rate may change or be eliminated for some or all individual taxpayers. For example, taxpayers earning above specified income levels will pay federal income tax rates on qualified dividends above 15%. At least 80% of the Fund's assets will be invested in municipal bonds and equity securities at all times.

What are the Main (or Principal) Risks of Investing in the Fund?

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund's returns include:

- **Tax-Exempt Securities Risk.** The amount of public information available about tax-exempt securities is generally less than for corporate equities or bonds. The secondary market for tax-exempt securities also tends to be less well-developed and less liquid than many other securities markets, which may limit the Fund's ability to sell its tax-exempt securities at attractive prices. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the Fund's investments in tax-exempt securities. Tax-exempt issuers can and have defaulted on obligations, been downgraded or commenced insolvency proceedings. Like other issuers and securities, the likelihood that the credit risk associated with such issuers and such securities will increase is greater during times of economic stress and financial instability.
- **Interest Rate Risk.** Prices of fixed-income securities (including tax-exempt securities) generally fall when interest rates rise. The longer the duration of a fixed-income security, the more susceptible it is to interest rate risk. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates.
- **Issuer Credit Risk.** It is possible that interest or principal on securities will not be paid when due. Noninvestment-grade securities generally have a higher default risk than investment-grade securities. Such non-payment or default may reduce the value of the Fund's portfolio holdings, its share price and its performance.
- **Counterparty Credit Risk.** A party to a transaction involving the Fund may fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategies.

- **Liquidity Risk.** Certain securities in which the Fund invests may be less readily marketable and may be subject to greater fluctuation in price than other securities. These features may make it more difficult to sell or buy a security at a favorable price or time. Noninvestment-grade securities generally have less liquidity than investment-grade securities. Liquidity risk also refers to the possibility that the Fund may not be able to sell a security or close out a derivative contract when it wants to. Over-the-counter derivative contracts generally carry greater liquidity risk than exchange-traded contracts.
- **Tax Risk.** In order to be tax-exempt, tax-exempt securities must meet certain legal requirements. Failure to meet such requirements may cause the interest received and distributed by the Fund to shareholders to be taxable. The federal income tax treatment of payments in respect of certain derivative contracts is unclear. Consequently, the Fund may receive payments, and make distributions, that are treated as ordinary income for federal income tax purposes.
- **Leverage Risk.** Leverage risk is created when an investment, which includes, for example, a derivative contract, exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund's risk of loss and potential for gain. Investments can have these same results if their returns are based on a multiple of a specified index, security or other benchmark.
- **Call Risk.** The Fund's performance may be adversely affected by the possibility that an issuer of a security held by the Fund may redeem the security prior to maturity at a price below or above its current market value.
- **Sector Risk.** It is possible that a certain sector of the securities market may underperform other sectors or the market as a whole. As the Adviser allocates more of the Fund's portfolio holdings to a particular sector, the Fund's performance will be more susceptible to any economic, business, political or other developments which generally affect that sector.
- **Prepayment and Extension Risk.** When homeowners prepay their mortgages in response to lower interest rates, the Fund will be required to reinvest the proceeds at the lower interest rates available. Also, when interest rates fall, the price of municipal mortgage-backed securities may not rise to as great an extent as that of other fixed-income securities. When interest rates rise, homeowners are less likely to prepay their mortgages. A decreased rate of prepayments lengthens the expected maturity of a mortgage-backed security, and the price of mortgage-backed securities may decrease more than the price of other fixed income securities when interest rates rise.
- **Credit Enhancement Risk.** The securities in which the Fund invests may be subject to credit enhancement (for example, guarantees, letters of credit or bond insurance). If the credit quality of the credit enhancement provider (for example, a bank or bond insurer) is downgraded, the rating on a security credit enhanced by such credit enhancement provider also may be downgraded. Having multiple securities credit enhanced by the same enhancement provider will increase the adverse effects on the Fund that are likely to result from a downgrading of, or a default by, such an enhancement provider. Adverse developments in the banking or bond insurance industries also may negatively affect the Fund.
- **Risk Associated with Noninvestment-Grade Securities.** Securities rated below investment-grade may be subject to greater interest rate, credit and liquidity risks than investment-grade securities. These securities are considered speculative with respect to the issuer's ability to pay interest and repay principal.
- **Risk Related to the Economy.** The value of the Fund's portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets. Economic, political and financial conditions, industry or economic trends and developments or public health risks, such as epidemics or pandemics, may, from time to time, and for varying periods of time, cause the Fund to experience volatility, illiquidity, shareholder redemptions or other potentially adverse effects. Among other investments, lower-grade bonds may be particularly sensitive to changes in the economy.
- **Risk of Investing in Derivative Contracts and Hybrid Instruments.** Derivative contracts and hybrid instruments involve risks different from, or possibly greater than, risks associated with investing directly in securities and other traditional investments. Specific risk issues related to the use of such contracts and instruments include valuation and tax issues, increased potential for losses and/or costs to the Fund, and a potential reduction in gains to the Fund. Each of these issues is described in greater detail in this Prospectus. Derivative contracts and hybrid instruments may also involve other risks described in this Prospectus, such as stock market, interest rate, credit, currency, liquidity and leverage risks.
- **Reinvestment Risk.** Income from the Fund's tax-exempt security portfolio will decline if and when the Fund invests the proceeds from matured, traded or called fixed-income securities (including tax-exempt securities) at market interest rates that are below the portfolio's current earnings rate. A decline in income could affect the overall return of Shares.
- **Risk of Foreign Investing.** Because the Fund invests in securities issued by foreign companies, the Fund's Share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than could otherwise be the case.

- **Risk of Investing in ADRs and Domestically Traded Securities of Foreign Issuers.** Because the Fund may invest in American Depositary Receipts (ADRs) and other domestically traded securities of foreign companies, the Fund's Share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case.
- **Currency Risk.** Exchange rates for currencies fluctuate daily. Accordingly, the Fund may experience increased volatility with respect to the value of its Shares and its return as a result of its exposure to foreign currencies through direct holding of such currencies or holding of non-U.S. dollar denominated securities.
- **European Union and Eurozone Related Risk.** A number of countries in the European Union (EU), including certain countries within the EU that have adopted the euro (Eurozone), have experienced, and may continue to experience, severe economic and financial difficulties. Additional countries within the EU may also fall subject to such difficulties. These events could negatively affect the value and liquidity of the Fund's investments in euro-denominated securities and derivatives contracts, securities of issuers located in the EU or with significant exposure to EU issuers or countries.
- **Stock Market Risk.** The value of equity securities in the Fund's portfolio will fluctuate and, as a result, the Fund's Share price may decline suddenly or over a sustained period of time. Information publicly available about a company, whether from the company's financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company's shares in the market. Among other factors, equity securities may decline in value because of an increase in interest rates or changes in the stock market. Recent and potential future changes in industry and/or economic trends, as well as changes in monetary policy made by central banks and/or their governments, also can affect the level of interest rates and contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects (such as a decline in a company's stock price), which could negatively impact the Fund's performance.
- **Large-Cap Company Risk.** The Fund may invest in large capitalization (or "large-cap") companies. In addition, large cap companies may have fewer opportunities to expand the market for their products or services, may focus their competitive efforts on maintaining or expanding their market share, and may be less capable of responding quickly to competitive challenges. These factors could result in the share price of large companies not keeping pace with the overall stock market or growth in the general economy, and could have a negative effect on the Fund's portfolio, performance and Share price.
- **Mid-Cap Company Risk.** The Fund may invest in mid-capitalization (or "mid-cap") companies. Mid-cap companies often have narrower markets, limited managerial and financial resources, more volatile performance and greater risk of failure, compared to larger, more established companies. These factors could increase the volatility of the Fund's portfolio, performance and Share price.
- **Risk Related to Investing for Value.** Due to their relatively low valuations, value stocks are typically less volatile than growth stocks. For instance, the price of a value stock may experience a smaller increase on a forecast of higher earnings, a positive fundamental development, or positive market development. Further, value stocks tend to have higher dividends than growth stocks. This means they depend less on price changes for returns and may lag behind growth stocks in certain up markets. There is no guarantee that the issuers of the stocks held by the Fund will declare dividends in the future or that, if dividends are declared, they will remain at their current levels or increase over time. The value approach to stock selection also carries the risk that the market will not recognize a security's intrinsic value for a long time (if ever), or that a stock judged to be undervalued may actually be appropriately priced.
- **Strategy Risk.** Securities and investment strategies with different characteristics tend to shift in and out of favor depending upon market and economic conditions as well as investor sentiment. A fund may outperform or underperform other funds that employ a different style or strategy. The Fund may employ a combination of styles that impact its risk characteristics.
- **Custodial Services and Related Investment Costs.** Custodial services and other costs relating to investment in international securities markets generally are more expensive than in the United States. Such markets have settlement and clearance procedures that differ from those in the United States. In certain markets there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. The inability of the Fund to make intended securities purchases due to settlement problems could cause the Fund to miss attractive investment opportunities. Inability to dispose of a portfolio security caused by settlement problems could result in losses to the Fund due to a subsequent decline in value of the portfolio security. In addition, security settlement and clearance procedures in some emerging countries may not fully protect the Fund against loss of its assets.

■ **Technology Risk.** The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

The Shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

PERFORMANCE: BAR CHART AND TABLE

Risk/Return Bar Chart

The bar chart and performance table below reflect historical performance data for the Fund and are intended to help you analyze the Fund’s investment risks in light of its historical returns. The bar chart shows the variability of the Fund’s A class total returns on a calendar year-by-year basis. The Average Annual Total Return Table shows returns for each class *averaged* over the stated periods, and includes comparative performance information. *The Fund’s performance will fluctuate, and past performance (before and after taxes) is not necessarily an indication of future results.* Updated performance information for the Fund is available under the “Products” section at FederatedInvestors.com or by calling 1-800-341-7400.

The total returns shown in the bar chart do not reflect the payment of any sales charges or recurring shareholder account fees. If these charges or fees had been included, the returns shown would have been lower.

The Fund’s A class total return for the nine-month period from January 1, 2020 to September 30, 2020, was 0.91%.

Within the periods shown in the bar chart, the Fund’s A class highest quarterly return was 6.79% (quarter ended December 31, 2011). Its lowest quarterly return was (6.28)% (quarter ended December 31, 2018).

Average Annual Total Return Table

The Fund’s IS class start of performance was December 29, 2010. For the period prior to the commencement of operations of the IS class, the performance information shown is for the Fund’s A class. The performance of the A class has not been adjusted to reflect the expenses of the IS class, since the IS class had a lower expense ratio than the expense ratio of the A class. The performance of the A class has been adjusted to reflect the absence of sales charges and adjusted to remove any voluntary waiver of fund expenses related to the A class during the period prior to commencement of the IS class.

In addition to Return Before Taxes, Return After Taxes is shown for the Fund’s A class to illustrate the effect of federal taxes on Fund returns. After-tax returns are shown only for A class, and after-tax returns for B, C, F and IS classes will differ from those shown for A class. Actual after-tax returns depend on each investor’s personal tax situation, and are likely to differ from those shown. After-tax returns are calculated using a standard set of assumptions. The stated returns assume the highest historical **federal** income and capital gains tax rates. These after-tax returns do **not** reflect the effect of any applicable **state** and **local** taxes. After-tax returns are not relevant to investors holding Shares through tax-deferred programs, such as a 401(k) plan, an Individual Retirement Account or other tax-advantaged investment plan.

(For the Period Ended December 31, 2019)

	1 Year	5 Years	10 Years
A:			
Return Before Taxes	6.95%	3.45%	5.80%
Return After Taxes on Distributions	6.70%	2.90%	5.34%
Return After Taxes on Distributions and Sale of Fund Shares	4.88%	2.88%	4.92%
B:			
Return Before Taxes	6.94%	3.51%	5.76%
C:			
Return Before Taxes	11.45%	3.85%	5.61%
F:			
Return Before Taxes	11.18%	4.41%	6.29%
IS:			
Return Before Taxes	13.57%	4.90%	6.61%
S&P Municipal Bond Index ¹ (reflects no deduction for fees, expenses or taxes)	7.26%	3.50%	4.41%
Russell 1000® Value Index ² (reflects no deduction for fees, expenses or taxes)	26.54%	8.29%	11.80%
Blended Index ³ (reflects no deduction for fees, expenses or taxes)	14.90%	5.60%	7.55%
S&P 500® Index ⁴ (reflects no deduction for fees, expenses or taxes)	31.49%	11.70%	13.56%
Morningstar Allocation Funds Average – 30% to 50% Equity ⁵	14.81%	4.66%	6.19%

- 1 The S&P Municipal Bond Index, one of the Fund's broad-based securities market indices, is a broad, market value-weighted index that seeks to measure the performance of the U.S. municipal bond market. It tracks fixed-rate tax-free bonds and bonds subject to the alternative minimum tax (AMT). The index includes bonds of all quality—from "AAA" to non-rated, including defaulted bonds—from all sectors of the municipal bond market.*
- 2 The Russell 1000® Value Index, one of the Fund's broad-based securities market indices, measures the performance of the large-cap value segment of the U.S. equity universe.*
- 3 The Blended Index is a custom blend of 60% S&P Municipal Bond Index and 40% Russell 1000® Value Index.*
- 4 The S&P 500® Index is an unmanaged capitalization weighted index of 500 stocks designated to measure performance of the broad domestic economy through changes in the aggregate market value of 500 stocks representing all major industries.*
- 5 Morningstar figures represent the average of the total returns reported by all the mutual funds designated by Morningstar as falling into the respective category indicated. They do not reflect sales charges.*

FUND MANAGEMENT

The Fund's Investment Adviser is Federated Equity Management Company of Pennsylvania. The Fund's Sub-Adviser is Federated Investment Management Company.

Linda Bakhshian, CA and CPA, Senior Portfolio Manager, has been the Fund's portfolio manager since November of 2009.

R.J. Gallo, CFA, Senior Portfolio Manager, has been the Fund's portfolio manager since its inception in September of 2003.

Ann Ferentino, CFA, Portfolio Manager, has been the Fund's portfolio manager since December of 2013.

Michael Jura, Portfolio Manager, has been the Fund's portfolio manager since December of 2020.

PURCHASE AND SALE OF FUND SHARES

Class B Shares are closed to new investments by new investors and existing shareholders (excluding reinvestment of dividends and capital gains). Reinvestment of dividends and capital gains will continue uninterrupted. Class B Shares of the Fund may be exchanged for Class B Shares of any other Federated Hermes fund.

Please disregard any further references to purchases of Class B Shares with the exception of Class B Share exchanges.

You may purchase, redeem or exchange Shares of the Fund on any day the New York Stock Exchange is open. Shares may be purchased through a financial intermediary firm that has entered into a Fund selling and/or servicing agreement with the Distributor or an affiliate ("Financial Intermediary") or directly from the Fund, by wire or by check. Please note that certain purchase restrictions may apply. Redeem or exchange Shares through a financial intermediary or directly from the Fund by telephone at 1-800-341-7400 or by mail.

A, B, C & F Classes

The minimum investment amount for the Fund's A class, B class, C class and F class is generally \$1,500 for initial investments and \$100 for subsequent investments. The minimum initial and subsequent investment amounts for Individual Retirement Accounts are generally \$250 and \$100, respectively. There is no minimum initial or subsequent investment amount for employer-sponsored retirement plans. Certain types of accounts are eligible for lower minimum investments. The minimum investment for Systematic Investment Programs is \$50.

IS Class

The minimum initial investment amount for the Fund's IS class is generally \$1,000,000 and there is no minimum subsequent investment amount. Certain types of accounts are eligible for lower minimum investments. The minimum investment amount for Systematic Investment Programs is \$50.

TAX INFORMATION

The Fund intends to distribute dividends exempt from federal regular income tax, although a portion of the Fund's dividends may not be tax-exempt. Dividends may be subject to state and local taxes. Any Fund distributions of capital gains are taxable at applicable capital gains rates.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

What are the Fund's Investment Strategies?

The Fund's primary investment objective is to provide tax-advantaged income with a secondary objective of capital appreciation. While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this Prospectus. The Fund's Statement of Additional Information (SAI) provides information about the Fund's non-principal strategies.

The Fund pursues its primary investment objective of tax-advantaged income, with a secondary objective of capital appreciation, by investing in both tax-exempt (or municipal) securities and equity securities. At least 80% of the Fund's assets will be invested in municipal bonds and equity securities at all times.

The Fund is not entirely a "tax-exempt" or "municipal" fund. Although a portion of the dividends paid by the Fund will consist of exempt-interest dividends that are exempt from federal regular income tax, some distributions will be subject to federal income tax. Additionally, most distributions will be subject to applicable state and local personal income tax.

In seeking to provide investors with a relatively high level of tax-advantaged income, the Fund will invest at least 50% of its total assets in tax-exempt securities; under current federal tax law, this strategy will enable all interest earned on tax-exempt securities to retain its tax-exempt nature when paid to the Fund's shareholders as dividends.

Subject to this requirement, the Adviser allocates the Fund's portfolio between tax-exempt securities and equity securities based on the Adviser's expectations for the performance and risks of the tax-exempt securities and equity securities in which the Fund invests, while taking into account the Fund's objective of providing tax advantaged income. During periods of stock market instability or decline, the Adviser may decrease the allocation of the Fund's assets invested in equity securities and invest significantly more than 50% of the Fund's assets in tax-exempt securities.

The Adviser also seeks to minimize short-term capital gain distributions resulting from the sale of portfolio securities which are taxed at non-preferential ordinary federal income tax rates. To the extent that short-term capital gains are recognized, the Adviser may sell depreciated securities, in order to recognize losses to offset these gains. There is no guarantee that the Adviser will be able to recognize losses sufficient to fully offset short-term gains; in that event, the Fund will make a distribution to shareholders.

Descriptions of the various types of securities in which the Fund principally invests, and their risks, immediately follow this strategy section.

TAX-EXEMPT SECURITIES

Regarding the tax-exempt securities portion of the Fund's portfolio, the Fund will invest its tax-exempt portfolio so that, normally, distributions of annual interest income are exempt from federal income tax. The Fund also will invest this portion of its portfolio primarily in securities whose interest is not subject to (or not a specific preference item for purposes of) AMT.

While the Fund may invest in securities of any maturity, at least a majority of the Fund's tax-exempt portfolio will be invested in intermediate (i.e., securities with stated maturities of more than 3 years but less than 10 years) and/or long-term (i.e., securities with stated maturities of 10 or more years) tax-exempt securities. The allocation between intermediate and long-term securities generally will be driven by the Adviser's assessment of income opportunities, as well as the Adviser's expectations of likely price performance for different maturities along the yield curve.

The Fund may invest in tax-exempt securities that are:

- high quality (i.e., securities rated in the first or second highest rating category by an NRSRO or unrated securities of comparable quality). For example, securities rated "AAA" or "AA" by Standard & Poor's, an NRSRO, would be rated in the first and second highest rating category, respectively;
- medium quality (i.e., securities rated in the third or fourth highest rating category by an NRSRO or unrated securities of comparable quality). For example, securities rated "A" or "BBB" by Standard & Poor's, an NRSRO, would be rated in the third and fourth highest rating category, respectively; or
- noninvestment-grade (i.e., securities that are not rated in one of the four highest rating categories by an NRSRO or unrated securities of comparable quality). For example, securities rated "B" or "BB" by Standard & Poor's, an NRSRO, would be noninvestment-grade securities. The Fund may not invest in securities rated below "B" or unrated securities of comparable quality.

The ratings of the securities in which the Fund invests may include modifiers, sub-categories or gradations. The presence of a ratings modifier, sub-category or gradation (for example, a (+) or (-)) is intended to show relative standing within the major rating categories and does not affect the security credit rating for purposes of the Fund's investment parameters.

The high-quality and medium-quality, tax-exempt securities in which the Fund invests are subject to interest rate, issuer credit, counterparty credit, liquidity, tax, leverage, call, sector, prepayment and extension, credit enhancement, economic, tax-exempt securities market, reinvestment, strategy and technology risk, all as described in the Fund's Prospectus. The noninvestment-grade, tax-exempt securities (which are also known as junk bonds) in which the Fund invests are subject to these risks, as well as the risks of investing in noninvestment-grade securities as described in the Fund's Prospectus.

The Adviser manages credit risk through portfolio diversification and by performing a fundamental credit analysis on tax-exempt securities before the Fund purchases such securities. The Adviser considers various factors, including (among others) the following: the economic feasibility of revenue bond financings and general purpose financings; the financial condition of the issuer or guarantor; and political developments that may affect credit quality. The Adviser monitors the credit risks of all tax-exempt securities in the portfolio on an ongoing basis by reviewing, as the Adviser considers necessary or appropriate in accordance with its procedures, periodic financial data and ratings of NRSROs.

The Adviser performs a more intensive credit analysis on noninvestment-grade, tax-exempt securities. In addition to the review process described above, the Adviser may, for example, and when appropriate, visit the site that the issuer is developing with the proceeds of the offering and may engage in detailed discussions with the issuer regarding the offering.

The Adviser attempts to provide high levels of income while taking prudent levels of interest rate risk by investing in tax-exempt securities of various maturities and managing the duration of the Fund. The Adviser may lengthen or shorten duration from time to time based on its interest rate outlook. "Duration" measures the price sensitivity of a fixed-income security to changes in interest rates. The greater a portfolio's duration, the greater the potential change in the portfolio's value in response to a change in market interest rates. When the Adviser expects interest rates to fall, it maintains a longer portfolio duration. When the Adviser expects interest rates to increase, it shortens the portfolio duration. The Adviser may use hedging transactions for purposes of duration management. The Adviser considers a variety of factors in formulating its interest rate outlook, such as (among others): current and expected U.S. economic growth; current and expected interest rates and inflation; the Federal Reserve's monetary policy; and supply and demand factors related to the tax-exempt municipal market and the effect that they may have on the returns offered for various bond maturities. Duration may be less important when a greater portion of the Fund is allocated to noninvestment-grade, tax-exempt securities, because the market values of such securities are driven by changes in credit spreads and idiosyncratic credit factors, in addition to general changes in interest rates.

The Adviser also may attempt to augment income by investing a portion of the portfolio in noninvestment-grade, tax-exempt securities, which generally provide higher yields. The percentage of the Fund's portfolio that the Adviser allocates to noninvestment-grade securities will vary depending on the supply of noninvestment-grade, tax-exempt securities and the credit spread between investment-grade, tax-exempt securities and noninvestment-grade, tax-exempt securities. If the credit spread narrows, the Adviser may increase its allocation to investment-grade securities; if the credit spread broadens, the Adviser may increase its allocation to noninvestment-grade securities.

The Fund will attempt to invest its assets so that the income derived from municipal securities that it distributes will be exempt from federal income tax (including AMT), except when investing for "defensive" purposes.

EQUITY SECURITIES

Regarding the equity securities portion of the Fund's portfolio, the Fund will invest primarily in income producing domestic and foreign common stocks and other securities that are intended to be eligible for any applicable reduced federal income tax rate that may be available with respect to qualified dividends. Shareholders should note that federal income tax laws with respect to qualified dividends may change, and any applicable reduced income tax rate may be changed or be eliminated for some or all individual taxpayers. The Fund will focus on intrinsic value in seeking to select primarily equity securities of mid- to large-capitalization companies that pay dividends, are characterized by sound management and have the ability to finance expected growth. The Adviser's focus on dividend paying securities strives to create an equity portfolio whose income levels are higher than the yield of applicable general market indices, such as the S&P 500 Index.

The Adviser attempts to identify solid, long-term values through disciplined investing and careful fundamental research. The Adviser attempts to identify primarily dividend paying investment opportunities within mature, high quality, mid- to large-capitalization, domestic and international companies. By investing in these types of companies, the Adviser seeks to reduce the downside risk and volatility of the Fund's portfolio and to purchase undervalued stocks that may significantly increase in price as the market recognizes the company's true intrinsic value. The Adviser performs traditional fundamental research and analysis to select securities for the Fund that exhibit the most promising long-term opportunity for the Fund's portfolio. In selecting securities, the Adviser focuses on the current financial condition of the issuing company, in addition to examining each issuer's business and product strength, competitive position and management expertise. Further, the Adviser considers current economic, financial market and industry factors, which may affect the issuing company. The Adviser focuses on intrinsic value in selecting securities of companies which are trading at discounts to their historic relationship to the market as well as to their expected growth. Value stocks tend to pay higher dividends than other segments of the market under normal market conditions. Because the Adviser focuses primarily on value in selecting dividend paying securities, the price of the securities held by the Fund may not, under certain market conditions, increase as rapidly as stocks selected primarily for their growth attributes.

DERIVATIVES AND HYBRID INSTRUMENTS

The Fund may use derivative contracts and/or hybrid instruments to implement elements of its investment strategy. For example, the Fund may use derivative contracts or hybrid instruments to increase or decrease the portfolio's exposure to the investment(s) underlying the derivative or hybrid instrument in an attempt to benefit from changes in the value of the underlying investment(s) or to gain exposure to the municipal bond sector. Additionally, by way of example, the Fund may use derivative contracts to:

- increase or decrease the effective duration of the Fund portfolio;
- obtain premiums from the sale of derivative contracts;
- realize gains from trading a derivative contract; or
- hedge against potential losses.

There can be no assurance that the Fund's use of derivative contracts or hybrid instruments will work as intended.

TEMPORARY INVESTMENTS

The Fund may temporarily depart from its principal investment strategies by investing in taxable securities, shorter-term debt securities, or similar obligations or holding cash. It may do this in response to unusual circumstances, such as adverse market, economic or other conditions (for example, to help avoid potential losses, or during periods when there is a shortage of appropriate securities); to maintain liquidity to meet shareholder redemptions; or to accommodate cash inflows. It is possible that such temporary investments could affect the Fund's investment returns. Such temporary investments may cause the Fund to receive and distribute taxable income or income that is taxable at full federal income tax rates, to investors and to that extent fail to meet its investment objectives.

What are the Fund's Principal Investments?

The following provides general information on the Fund's principal investments. The Fund's Statement of Additional Information (SAI) provides information about the Fund's non-principal investments and may provide additional information about the Fund's principal investments.

TAX-EXEMPT SECURITIES

Tax-exempt securities are fixed-income securities that, in the opinion of bond counsel to the issuer or on the basis of another authority believed by the Adviser to be reliable, pay interest that is not subject to federal income taxes. Fixed-income securities pay interest, dividends or distributions at a specified rate. The rate may be a fixed percentage of the principal or adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time.

Typically, states, counties, cities and other political subdivisions and authorities issue tax-exempt securities. The market categorizes tax-exempt securities by their source of repayment. Certain of these tax-exempt securities may be subject to credit enhancement.

The following describes the principal types of tax-exempt securities in which the Fund may invest:

General Obligation Bonds (A Type of Tax-Exempt Security)

General obligation bonds are supported by the issuer's power to exact property or other taxes. The issuer must impose and collect taxes sufficient to pay principal and interest on the bonds. However, the issuer's authority to impose additional taxes may be limited by its charter or state law.

Special Revenue Bonds (A Type of Tax-Exempt Security)

Special revenue bonds are payable solely from specific revenues received by the issuer such as specific taxes, assessments, tolls or fees. Bondholders may not collect from the municipality's general taxes or revenues. For example, a municipality may issue bonds to build a toll road and pledge the tolls to repay the bonds. Therefore, a shortfall in the tolls normally would result in a default on the bonds, or in certain cases, may result in a reduction in payments received in respect of the bonds.

Private Activity Bonds (A Type of Special Revenue Bond)

Private activity bonds are special revenue bonds used to finance private projects. A certain percentage of the proceeds from a private activity bond is used for a private business use or a certain percentage of the debt service regarding a private activity bond is paid directly or indirectly from a private business use. A private business use is a trade or business carried on by any person or entity other than a governmental unit. Private activity bonds are secured primarily by revenues derived from loan repayments or lease payments due from the private entity, which may or may not be guaranteed by a parent company or otherwise secured. Private activity bonds generally are not secured by a pledge of the taxing power of the issuer of such bonds. For example, a municipality may issue bonds to finance a new factory to improve its local economy. The municipality would lend the proceeds from its bonds to the company using the factory, and the company would agree to make loan payments sufficient to cover interest and principal payments on the bonds. The bonds would be payable from the company's loan payments, and generally not from any other revenues of the municipality. Therefore, any default of the loan normally would result in a default on the bonds.

Types of private activity bonds include, for example: bonds issued to obtain funds to provide water, sewage and solid waste facilities, qualified residential rental projects, certain local electric, gas and other heating and cooling facilities, qualified hazardous waste facilities, high speed intercity rail facilities, certain airports, docks, wharves and mass transportation facilities and qualified mortgages; qualified student loan bonds; qualified redevelopment bonds; and bonds used for certain organizations exempt from federal income taxation (qualified 501(c)(3) bonds).

The interest on many types of private activity bonds is subject to the AMT. However, issues are available in the marketplace that are not subject to the AMT due to qualifying tax rules.

Tax Increment Financing Bonds (A Type of Tax-Exempt Security)

Tax increment financing (TIF) bonds are payable from increases in taxes or other revenues attributable to projects within the TIF district. For example, a municipality may issue TIF bonds to redevelop a commercial area. The TIF bonds would be payable solely from any increase in sales taxes collected from the merchants in the area. The bonds could fail to pay principal or interest if merchants' sales, and related tax collections, failed to increase as anticipated.

Municipal Leases (A Type of Tax-Exempt Security)

Municipalities may enter into leases for equipment or facilities. In order to comply with state public financing laws, these leases are typically subject to annual appropriation. In other words, a municipality may end a lease, without penalty, by not providing for the lease payments in its annual budget. After the lease ends, the lessor can resell the equipment or facility but may lose money on the sale.

The Fund may invest in securities supported by pools of municipal leases. The most common type of lease-backed securities is certificates of participation (COPs). However, the Fund may also invest directly in individual leases.

Zero-Coupon Securities (A Type of Fixed-Income, Tax-Exempt Security)

Zero-coupon securities do not pay interest or principal until final maturity unlike debt securities that provide periodic payments of interest (referred to as a coupon payment). Investors buy zero-coupon securities at a price below the amount payable at maturity. The difference between the purchase price and the amount paid at maturity represents interest on the zero-coupon security. Investors must wait until maturity to receive interest and principal, which increases the interest rate and credit risks of a zero-coupon security. A zero-coupon, step-up security converts to a coupon security before final maturity.

There are many forms of zero-coupon securities. Some are issued at a discount and are referred to as zero-coupon or capital appreciation bonds. In addition, some securities give the issuer the option to deliver additional securities in place of cash interest payments, thereby increasing the amount payable at maturity. These are referred to as pay-in-kind, PIK securities or toggle securities.

Inverse Floaters (A Type of Fixed-Income, Tax-Exempt Security)

An inverse floater has a floating or variable interest rate that moves in the opposite direction of market interest rates. Inverse floaters are used to enhance the income from a bond investment by employing leverage. When short-term market interest rates go up, the interest rate paid on the inverse floater goes down; when short-term market interest rates go down, the interest rate paid on the inverse floater goes up. Inverse floaters generally respond more rapidly to market interest rate changes than fixed-rate, tax-exempt securities. Inverse floaters are subject to interest rate risks and leverage risks.

Municipal Mortgage-Backed Securities (A Type of Fixed-Income, Tax-Exempt Security)

Municipal mortgage-backed securities are special revenue bonds, the proceeds of which may be used to provide mortgage loans for single family homes or to finance multifamily housing. Municipal mortgage-backed securities represent interests in pools of mortgages. The mortgages that comprise a pool normally have similar interest rates, maturities and other terms. Mortgages may have fixed or adjustable rates. Municipal mortgage-backed securities generally have fixed interest rates.

Municipal mortgage-backed securities come in a variety of forms. The simplest forms of municipal mortgage-backed securities are unstructured bonds backed by the net interest and principal payments and prepayments from the underlying mortgages. As a result, the holders assume all interest rate and prepayment risks of the underlying mortgages. Other municipal mortgage-backed securities may have more complicated financial structures.

CONVERTIBLE SECURITIES

Convertible securities are fixed-income securities that the Fund has the option to exchange for equity securities at a specified conversion price. The option allows the Fund to realize additional returns if the market price of the equity securities exceeds the conversion price. For example, the Fund may hold shares of preferred stock that are convertible into shares of common stock at a conversion price of \$10 per share. If the market value of the shares of common stock reached \$12, the Fund could realize an additional \$2 per share by converting its fixed-income securities or convertible preferred stock.

Convertible securities have lower yields than comparable fixed-income securities. In addition, at the time a convertible security is issued the conversion price exceeds the market value of the underlying equity securities. Thus, convertible securities may provide lower returns than non-convertible, fixed-income securities or equity securities depending upon changes in the price of the underlying equity securities. However, convertible securities permit the Fund to realize some of the potential appreciation of the underlying equity securities with less risk of losing its initial investment. The Fund anticipates that it will invest only in convertible preferred stock or other convertible securities whose dividends or distributions are intended to be eligible for any applicable reduced federal income tax rate that may be available with respect to qualified dividends.

EQUITY SECURITIES

Equity securities represent a share of an issuer's earnings and assets, after the issuer pays its liabilities. The Fund cannot predict the income it will receive from equity securities because issuers generally have discretion as to the payment of any dividends or distributions. However, equity securities offer greater potential for appreciation than many other types of securities, because their value increases directly with the value of the issuer's business.

The following describes the equity securities in which the Fund may principally invest.

Common Stocks

Common stocks are the most prevalent type of equity security. Common stocks receive the issuer's earnings after the issuer pays its creditors and any preferred stockholders. As a result, changes in an issuer's earnings directly influence the value of its common stock.

Preferred Stocks

Preferred stocks have the right to receive specified dividends or distributions before the issuer makes payments on its common stock. Some preferred stocks also participate in dividends and distributions paid on common stock. Preferred stocks may also permit the issuer to redeem the stock. The Fund may also treat such redeemable preferred stock as a fixed-income security.

DERIVATIVE CONTRACTS

Derivative contracts are financial instruments that require payments based upon changes in the values of designated securities, commodities, currencies, indices or other assets or instruments including other derivative contracts (each a “Reference Instrument” and collectively, “Reference Instruments”). Each party to a derivative contract may sometimes be referred to as a counterparty. Some derivative contracts require payments relating to an actual, future trade involving the Reference Instrument. These types of derivatives are frequently referred to as “physically settled” derivatives. Other derivative contracts require payments relating to the income or returns from, or changes in the market value of, a Reference Instrument. These types of derivatives are known as “cash-settled” derivatives, since they require cash payments in lieu of delivery of the Reference Instrument.

Many derivative contracts are traded on securities or commodities exchanges. In this case, the exchange sets all the terms of the contract except for the price. Investors make payments due under their contracts through the exchange. Most exchanges require investors to maintain margin accounts through their brokers to cover their potential obligations to the exchange. Parties to the contract make (or collect) daily payments to the margin accounts to reflect losses (or gains) in the value of their contracts. This protects investors against potential defaults by the other party to the contract. Trading contracts on an exchange also allows investors to close out their contracts by entering into offsetting contracts.

The Fund may also trade derivative contracts over-the-counter (OTC) in transactions negotiated directly between the Fund and a financial institution. OTC contracts do not necessarily have standard terms, so they may be less liquid and more difficult to close out than exchange-traded contracts. In addition, OTC contracts with more specialized terms may be more difficult to value than exchange-traded contracts, especially in times of financial stress.

The market for swaps and other OTC derivatives was largely unregulated prior to the enactment of federal legislation known as the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”). Regulations enacted by the Commodity Futures Trading Commission (the CFTC) under the Dodd-Frank Act require the Fund to clear certain swap contracts through a clearing house or central counterparty (a CCP).

To clear a swap through the CCP, the Fund will submit the contract to, and post margin with, a futures commission merchant (FCM) that is a clearing house member. The Fund may enter into the swap with a financial institution other than the FCM and arrange for the contract to be transferred to the FCM for clearing, or enter into the contract with the FCM itself. If the Fund must centrally clear a transaction, the CFTC’s regulations also generally require that the swap be executed on a registered exchange or through a market facility that is known as a swap execution facility or SEF. Central clearing is presently required only for certain swaps and the CFTC is expected to impose a mandatory central clearing requirement for additional derivative instruments over time.

The CCP, SEF and FCM are all subject to regulatory oversight by the CFTC. In addition, most derivative market participants are now regulated as swap dealers or major swap participants and are subject to certain minimum capital and margin requirements and business conduct standards. Similar regulatory requirements are expected to apply to derivative contracts that are subject to the jurisdiction of the SEC, although the SEC has not yet finalized its regulations. In addition, uncleared OTC swaps will be subject to regulatory collateral requirements that could adversely affect the Fund’s ability to enter into swaps in the OTC market. These developments could cause the Fund to terminate new or existing swap agreements or to realize amounts to be received under such instruments at an inopportune time.

Until the mandated rulemaking and regulations are implemented completely, it will not be possible to determine the complete impact of the Dodd-Frank Act and related regulations on the Fund.

Depending on how the Fund uses derivative contracts and the relationships between the market value of a derivative contract and the Reference Instrument, derivative contracts may increase or decrease the Fund’s exposure to the risks of the Reference Instrument, and may also expose the Fund to liquidity and leverage risks. OTC contracts also expose the Fund to credit risks in the event that a counterparty defaults on the contract, although this risk may be mitigated by submitting the contract for clearing through a CCP.

Payment obligations arising in connection with derivative contracts are frequently required to be secured with margin (which is commonly called “collateral”). To the extent necessary to meet such requirements, the Fund may purchase U.S. Treasury and/or government agency securities.

The Fund may invest in a derivative contract if it is permitted to own, invest in or otherwise have economic exposure to the Reference Instrument. The Fund is not required to own a Reference Instrument in order to buy or sell a derivative contract relating to that Reference Instrument. The Fund may trade in the following specific types and/or combinations of derivative contracts:

Futures Contracts (A Type of Derivative)

Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a Reference Instrument at a specified price, date and time. Entering into a contract to buy a Reference Instrument is commonly referred to as buying a contract or holding a long position in the asset. Entering into a contract to sell a Reference Instrument is commonly referred to as selling a contract or holding a short position in the Reference Instrument. Futures contracts are considered to be commodity contracts. The Adviser has claimed an exclusion from the definition of the term “commodity pool operator” under the Commodity Exchange Act with respect to the Fund, and therefore is not subject to registration or regulation with respect to the Fund. Futures contracts traded OTC are frequently referred to as forward contracts. The Fund can buy or sell financial futures (such as interest rate futures, index futures and security futures) as well as currency futures and currency forward contracts.

Option Contracts (A Type of Derivative)

Option contracts (also called “options”) are rights to buy or sell a Reference Instrument for a specified price (the “exercise price”) during, or at the end of, a specified period. The seller (or “writer”) of the option receives a payment, or premium, from the buyer, which the writer keeps regardless of whether the buyer uses (or exercises) the option. A call option gives the holder (buyer) the right to buy the Reference Instrument from the seller (writer) of the option. A put option gives the holder the right to sell the Reference Instrument to the writer of the option. Options may be bought or sold on a wide variety of Reference Instruments. Options that are written on futures contracts will be subject to margin requirements similar to those applied to futures contracts.

Swap Contracts (A Type of Derivative)

A swap contract (also known as a “swap”) is a type of derivative contract in which two parties agree to pay each other (swap) the returns derived from Reference Instruments. Swaps do not always involve the delivery of the Reference Instruments by either party, and the parties might not own the Reference Instruments underlying the swap. The payments are usually made on a net basis so that, on any given day, the Fund would receive (or pay) only the amount by which its payment under the contract is less than (or exceeds) the amount of the other party’s payment. Swap agreements are sophisticated instruments that can take many different forms and are known by a variety of names. Common types of swaps in which the Fund may invest include interest rate swaps, total return swaps, credit default swaps, currency swaps, and caps and floors.

FOREIGN SECURITIES

Foreign securities are securities of issuers based outside the United States. To the extent a Fund invests in securities included in its applicable broad-based securities market index, the Fund may consider an issuer to be based outside the United States if the applicable index classifies the issuer as based outside the United States. Accordingly, the Fund may consider an issuer to be based outside the United States if the issuer satisfies at least one, but not necessarily all, of the following:

- it is organized under the laws of, or has its principal office located in, another country;
- the principal trading market for its securities is in another country;
- it (directly or through its consolidated subsidiaries) derived in its most current fiscal year at least 50% of its total assets, capitalization, gross revenue or profit from goods produced, services performed or sales made in another country; or
- it is classified by an applicable index as based outside the United States.

Foreign securities are primarily denominated in foreign currencies. Along with the risks normally associated with domestic securities of the same type, foreign securities are subject to currency risks and risks of foreign investing. Trading in certain foreign markets is also subject to liquidity risks.

ADRs and Domestically Traded Securities of Foreign Issuers (Types of Foreign Equity Securities)

ADRs, which are traded in the U.S. markets, represent interests in underlying securities issued by a foreign company and not traded in the United States. ADRs provide a way to buy shares of foreign-based companies in the United States rather than in overseas markets. ADRs are also traded in U.S. dollars, eliminating the need for foreign exchange transactions. The Fund may also invest in securities issued directly by foreign companies and traded in U.S. dollars in

U.S. markets. The Fund will invest primarily in ADRs that pay dividends that are intended to be eligible for any applicable reduced federal income tax rate that may be available with respect to qualified dividends (shareholders should note that federal income tax laws with respect to qualified dividends may change, and any applicable reduced income tax rate may change or be eliminated for some or all individual taxpayers).

OTHER INVESTMENTS, TRANSACTIONS, TECHNIQUES

Investing in Securities of Other Investment Companies

The Fund may invest its assets in securities of other investment companies, including the securities of affiliated money market funds, as an efficient means of implementing its investment strategies and/or managing its uninvested cash. These other investment companies are managed independently of the Fund and incur additional fees and/or expenses which would, therefore, be borne indirectly by the Fund in connection with any such investment. However, the Adviser believes that the benefits and efficiencies of this approach should outweigh the potential additional fees and/or expenses. The Fund may invest in money market securities directly.

Credit Enhancement

The Fund may invest in securities that have credit enhancement. Credit enhancement consists of an arrangement in which a company agrees to pay amounts due on a fixed-income security (including a tax-exempt security) if the issuer defaults. In some cases the company providing credit enhancement makes all payments directly to the security holders and receives reimbursement from the issuer. Normally, the credit enhancer has greater financial resources and liquidity than the issuer. For this reason, the Adviser may evaluate the credit risk of a fixed-income security based solely upon its credit enhancement.

Common types of credit enhancement include guarantees, letters of credit, bond insurance and surety bonds. Credit enhancement also includes arrangements where securities or other liquid assets secure payment of a fixed-income security. If a default occurs, these assets may be sold and the proceeds paid to the security's holders. Either form of credit enhancement reduces credit risks by providing another source of payment for a fixed-income security.

Hybrid Instruments

Hybrid instruments combine elements of two different kinds of securities or financial instruments (such as a derivative contract). Frequently, the value of a hybrid instrument is determined by reference to changes in the value of a Reference Instrument (that is a designated security, commodity, currency, index or other asset or instrument including a derivative contract). The Fund may use hybrid instruments only in connection with permissible investment activities. Hybrid instruments can take on many forms including, but not limited to, the following forms. First, a common form of a hybrid instrument combines elements of a derivative contract with those of another security (typically a fixed-income security). In this case all or a portion of the interest or principal payable on a hybrid security is determined by reference to changes in the price of a Reference Instrument. Second, a hybrid instrument may also combine elements of a fixed-income security and an equity security. Third, hybrid instruments may include convertible securities with conversion terms related to a Reference Instrument.

Depending on the type and terms of the hybrid instrument, its risks may reflect a combination of the risks of investing in the Reference Instrument with the risks of investing in other securities, currencies, and derivative contracts. Thus, an investment in a hybrid instrument may entail significant risks in addition to those associated with traditional investments or the Reference Instrument. Hybrid instruments are also potentially more volatile than traditional securities or the Reference Instrument. Moreover, depending on the structure of the particular hybrid, it may expose the Fund to leverage risks or carry liquidity risks.

Delayed Delivery Transactions

Delayed delivery transactions, including when-issued transactions, are arrangements in which the Fund buys securities for a set price, with payment and delivery of the securities scheduled for a future time. During the period between purchase and settlement, no payment is made by the Fund to the issuer and no interest accrues to the Fund. The Fund records the transaction when it agrees to buy the securities and reflects their value in determining the price of its Shares. Settlement dates may be a month or more after entering into these transactions so that the market values of the securities bought may vary from the purchase prices. Therefore, delayed delivery transactions create interest rate risks for the Fund. Delayed delivery transactions also involve credit risks in the event of a counterparty default. These transactions create leverage risks.

Asset Segregation

In order to secure its obligations in connection with derivative contracts or special transactions, the Fund will either own the underlying assets, enter into offsetting transactions or set aside cash or readily marketable securities in each case, as provided by the SEC or SEC staff guidance. This requirement may cause the Fund to miss favorable trading opportunities due to a lack of sufficient cash or readily marketable securities. This requirement may also cause the Fund to realize losses on offsetting or terminated derivative contracts or special transactions.

INVESTMENT RATINGS FOR INVESTMENT-GRADE SECURITIES

The Adviser will determine whether a security is investment grade based upon the credit ratings given by one or more NRSROs. For example, Standard & Poor's, an NRSRO, assigns ratings to investment-grade securities (AAA, AA, A and BBB including modifiers, sub-categories and gradations) based on their assessment of the likelihood of the issuer's inability to pay interest or principal (default) when due on each security. Lower credit ratings correspond to higher credit risk. If a security has not received a rating, the Fund must rely entirely upon the Adviser's credit assessment that the security is comparable to investment grade. The presence of a ratings modifier, sub-category, or gradation (for example, a (+) or (-)) is intended to show relative standing within the major rating categories and does not affect the security credit rating for purposes of the Fund's investment parameters. If a security is downgraded below the minimum quality grade discussed above, the Adviser will reevaluate the security, but will not be required to sell it.

INVESTMENT RATINGS FOR NONINVESTMENT-GRADE SECURITIES

Noninvestment-grade securities are rated below BBB- by an NRSRO. These bonds have greater economic, credit and liquidity risks than investment-grade securities.

Additional Information Regarding the Security Selection Process

As part of analysis inherent in its security selection process, among other factors, the Adviser also evaluates whether environmental, social and governance factors could have a positive or negative impact on the risk profiles of many issuers in the universe of securities in which the Fund may invest. The Adviser may also consider information derived from active engagements conducted by its in-house stewardship team with certain issuers. This qualitative analysis does not automatically result in including or excluding specific securities but may be used by Federated Hermes as an additional input to improve portfolio risk/return characteristics.

What are the Specific Risks of Investing in the Fund?

The following provides general information on the risks associated with the Fund's principal investments. Any additional risks associated with the Fund's non-principal investments are described in the Fund's SAI. The Fund's SAI also may provide additional information about the risks associated with the Fund's principal investments.

TAX-EXEMPT SECURITIES RISK

The securities in which the Fund invests may include those issued by state or local governments, other political subdivisions or authorities, or directly or indirectly supported by taxes, assessments, tolls, fees or other revenue collected by or otherwise derived from or through such issuers. The amount of public information available about tax-exempt securities is generally less than for corporate equities or bonds. The secondary market for tax-exempt securities also tends to be less well-developed and less liquid than many other securities markets, which may limit the Fund's ability to sell its tax-exempt securities at attractive prices. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the Fund's investments in tax-exempt securities. Other factors include the general conditions of the tax-exempt securities market, the size of the particular offering, the maturity of the obligation and the rating of the issue. Like other issuers, there is no guarantee that the issuers of such securities will have sufficient revenues to satisfy their obligations (such as, for example, the payment of interest or principal when due). Legal, economic, political or other developments may raise impairments (such as, for example, limitations under applicable law on the issuer's authority to raise taxes, prolonged budgetary processes, declining real estate values, increasing pension liabilities or declining tax revenues which may occur due to shifting demographics or other factors) to such issuer's budgetary flexibility, liquidity and ability to satisfy its obligations. Such impairments may cause a downgrade in the credit ratings of such an issuer, or the securities issued or supported by it, and may cause such an issuer to defer payment of certain obligations, reduce or eliminate appropriations and/or default on its obligations.

Tax-exempt issuers can and have defaulted on obligations, been downgraded or commenced insolvency proceedings. Financial difficulties of such issuers may continue or get worse. Like other issuers and securities, the likelihood that the credit risk associated with such issuers and such securities will increase is greater during times of economic stress and financial instability. As a result, in such situations, there would be heightened risk that there could be an interruption in payments to holders of tax-exempt securities in some cases. There also could be a reduction in the market value of the tax-exempt securities held by the Fund, which could adversely affect the Fund's net asset value or the distributions paid by the Fund.

To the extent that the Fund invests a larger portion of its assets in the tax-exempt securities of a particular state or U.S. territory or possession, there is greater risk that political, regulatory, economic or other developments within that state or U.S. territory or possession may impact on the Fund's investment performance.

INTEREST RATE RISK

Prices of fixed-income securities (including tax-exempt securities) rise and fall in response to changes in interest rates. Generally, when interest rates rise, prices of fixed-income securities fall. However, market factors, such as the demand for particular fixed-income securities, may cause the price of certain fixed-income securities to fall while the prices of other securities rise or remain unchanged.

The longer the duration of a fixed-income security, the more susceptible it is to interest rate risk. The duration of a fixed-income security may be equal to or shorter than the stated maturity of a fixed-income security. Recent and potential future changes in monetary policy made by central banks and/or their governments are likely to affect the level of interest rates. Duration measures the price sensitivity of a fixed-income security given a change in interest rates. For example, if a fixed-income security has an effective duration of three years, a 1% increase in general interest rates would be expected to cause the security's value to decline about 3% while a 1% decrease in general interest rates would be expected to cause the security's value to increase about 3%.

The impact of interest rate changes on the value of floating rate investments is typically reduced by periodic interest rate resets. Variable and floating rate securities generally are less sensitive to interest rate changes, but may decline in value if their interest rates do not rise as much or as quickly as interest rates in general. Conversely, variable and floating rate securities generally will not increase in value as much as fixed rate debt instruments if interest rates decline. Certain of the Fund's investments may also be valued, in part, by reference to the relative relationship between interest rates on tax-exempt securities and taxable securities. With respect to the Fund's investments described in the preceding sentence, the value of such Fund investments may be negatively affected (or positively affected) when the market for tax-exempt securities underperforms (or outperforms) the market for taxable securities.

ISSUER CREDIT RISK

It is possible that interest or principal on securities will not be paid when due. Noninvestment-grade securities generally have a higher default risk than investment-grade securities. Such non-payment or default may reduce the value of the Fund's portfolio holdings, its share price and its performance.

Many fixed-income securities (including tax-exempt securities) receive credit ratings from NRSROs such as Fitch Rating Service, Moody's Investor Services, Inc. and Standard & Poor's that assign ratings to securities by assessing the likelihood of an issuer and/or guarantor default. Higher credit ratings correspond to lower perceived credit risk and lower credit ratings correspond to higher perceived credit risk. Credit ratings may be upgraded or downgraded from time to time as an NRSRO's assessment of the financial condition of a party obligated to make payments with respect to such securities and credit risk changes. The impact of any credit rating downgrade can be uncertain. Credit rating downgrades may lead to increased interest rates and volatility in financial markets, which in turn could negatively affect the value of the Fund's portfolio holdings, its share price and its investment performance. Credit ratings are not a guarantee of quality. Credit ratings may lag behind the current financial conditions of the issuer and/or guarantor and do not provide assurance against default or other loss of money. Credit ratings do not protect against a decline in the value of a security. If a security has not received a rating, the Fund must rely entirely upon the Adviser's credit assessment.

Fixed-income securities generally compensate for greater credit risk by paying interest at a higher rate. The difference between the yield of a security and the yield of a U.S. Treasury security or other appropriate benchmark with a comparable maturity (the "spread") measures the additional interest paid for risk. Spreads may increase generally in response to adverse economic or market conditions. A security's spread may also increase if the security's rating is lowered, or the security is perceived to have an increased credit risk. An increase in the spread will cause the price of the security to decline.

COUNTERPARTY CREDIT RISK

Counterparty credit risk includes the possibility that a party to a transaction involving the Fund will fail to meet its obligations. This could cause the Fund to lose money or to lose the benefit of the transaction or prevent the Fund from selling or buying other securities to implement its investment strategy.

LIQUIDITY RISK

Trading opportunities are more limited for fixed-income securities (including tax-exempt securities) that have not received any credit ratings, have received any credit ratings below investment grade or are not widely held. Trading opportunities also are more limited for inverse floaters that have complex terms or that are not widely held. These features may make it more difficult to sell or buy a security at a favorable price or time. Consequently, the Fund may have to accept a lower price to sell a security, sell other securities to raise cash or give up an investment opportunity, any of which could have a negative effect on the Fund's performance. Infrequent trading of securities may also lead to an increase in their price volatility. Noninvestment-grade securities generally have less liquidity than investment-grade securities.

Liquidity risk also refers to the possibility that the Fund may not be able to sell a security or close out a derivative contract when it wants to. If this happens, the Fund will be required to continue to hold the security or keep the position open, and the Fund could incur losses.

OTC derivative contracts generally carry greater liquidity risk than exchange-traded contracts. This risk may be increased in times of financial stress, if the trading market for OTC derivative contracts becomes restricted.

TAX RISK

In order to pay interest that is exempt from federal income tax, tax-exempt securities must meet certain legal requirements. Failure to meet such requirements may cause the interest received and distributed by the Fund to shareholders to be taxable.

Changes or proposed changes in federal or state tax laws may cause the prices of tax-exempt securities to fall and/or may affect the tax-exempt status of the securities in which the Fund invests.

The federal income tax treatment of payments in respect of certain derivative contracts is unclear. Additionally, the Fund may not be able to close out certain derivative contracts when it wants to. Consequently, the Fund may receive payments, and make distributions, that are treated as ordinary income for federal income tax purposes.

LEVERAGE RISK

The tax-exempt securities, derivative contracts and hybrid instruments in which the Fund may invest can be principal investment strategies for the Fund and may be subject to leverage risk. Leverage risk is created when an investment, which includes, for example, an investment in a derivative contract, exposes the Fund to a level of risk that exceeds the amount invested. Changes in the value of such an investment magnify the Fund's risk of loss and potential for gain. Investments can have these same results if their returns are based on a multiple of a specified index, security or other benchmark.

CALL RISK

The tax-exempt securities in which the Fund may invest can be principal investment strategies for the Fund and may be subject to call risk. Call risk is the possibility that an issuer may redeem a fixed-income security (including a tax-exempt security) before maturity (a "call") at a price below or above its current market price. An increase in the likelihood of a call may reduce the security's price. If a fixed-income security is called, the Fund may have to reinvest the proceeds in other fixed-income securities with lower interest rates, higher credit risks or other less favorable characteristics.

SECTOR RISK

It is possible that a certain sector of the securities market may underperform other sectors or the market as a whole. As the Adviser allocates more of the Fund's portfolio holdings to a particular sector, the Fund's performance will be more susceptible to any economic, business, political or other developments which generally affect that sector. The Fund may invest more than 25% of its total assets in tax-exempt securities of issuers in the same economic sector. In addition, a substantial part of the Fund's portfolio may be comprised of securities issued or credit enhanced by companies in similar businesses or with other similar characteristics. As a result, the Fund will be more susceptible to any economic, business, political or other developments which generally affect these entities. Developments affecting companies with similar characteristics might include changes in interest rates, changes in economic cycle affecting credit losses and regulatory changes.

PREPAYMENT AND EXTENSION RISK

Unlike traditional fixed-income securities (including tax-exempt securities), which pay a fixed rate of interest until maturity (when the entire principal amount is due), payments on municipal mortgage-backed securities include both interest and a partial payment of principal. Partial payment of principal may be comprised of scheduled principal payments as well as unscheduled payments from the voluntary prepayment, refinancing or foreclosure of the underlying loans. These unscheduled prepayments of principal create risks that can adversely affect a fund holding municipal mortgage-backed securities.

For example, when interest rates decline, the values of municipal mortgage-backed securities generally rise. However, when interest rates decline, unscheduled prepayments can be expected to accelerate, and the Fund would be required to reinvest the proceeds of the prepayments at the lower interest rates then available. Unscheduled prepayments would also limit the potential for capital appreciation on municipal mortgage-backed securities.

Conversely, when interest rates rise, the values of municipal mortgage-backed securities generally fall. Since rising interest rates typically result in decreased prepayments, this could lengthen the average lives of municipal mortgage-backed securities, and cause their value to decline more than traditional fixed-income securities.

Generally, municipal mortgage-backed securities compensate for the increased risk associated with prepayments by paying a higher yield. The additional interest paid for risk is measured by the difference between the yield of a municipal mortgage-backed security and the yield of a U.S. Treasury security or other appropriate benchmark with a comparable maturity (the “spread”). An increase in the spread will cause the price of the municipal mortgage-backed security to decline. Spreads generally increase in response to adverse economic or market conditions. Spreads may also increase if the security is perceived to have an increased prepayment risk or is perceived to have less market demand.

CREDIT ENHANCEMENT RISK

The securities in which the Fund invests may be subject to credit enhancement (for example, guarantees, letters of credit or bond insurance). Credit enhancement is designed to help assure timely payment of the security; it does not protect the Fund against losses caused by declines in a security’s value due to changes in market conditions. Securities subject to credit enhancement generally would be assigned a lower credit rating if the rating were based primarily on the credit quality of the issuer without regard to the credit enhancement. If the credit quality of the credit enhancement provider (for example, a bank or bond insurer) is downgraded, the rating on a security credit enhanced by such credit enhancement provider also may be downgraded.

A single enhancement provider may provide credit enhancement to more than one of the Fund’s investments. Having multiple securities credit enhanced by the same enhancement provider will increase the adverse effects on the Fund that are likely to result from a downgrading of, or a default by, such an enhancement provider. Adverse developments in the banking or bond insurance industries also may negatively affect the Fund, as the Fund may invest in securities credit enhanced by banks or by bond insurers without limit. Bond insurers that provide credit enhancement for large segments of the fixed-income markets, including the municipal bond market, may be more susceptible to being downgraded or defaulting during recessions or similar periods of economic stress.

RISK ASSOCIATED WITH NONINVESTMENT-GRADE SECURITIES

Securities that are rated below investment grade or unrated securities of comparable quality (i.e., noninvestment-grade securities), also known as junk bonds, generally entail greater economic, credit and liquidity risks than investment-grade securities. For example, their prices are more volatile, economic downturns and financial setbacks may affect their prices more negatively, and their trading market may be more limited. These securities are considered speculative with respect to the issuer’s ability to pay interest and repay principal.

RISK RELATED TO THE ECONOMY

The value of the Fund’s portfolio may decline in tandem with a drop in the overall value of the markets in which the Fund invests and/or other markets based on negative developments in the U.S. and global economies. Economic, political and financial conditions, or industry or economic trends and developments, may, from time to time, and for varying periods of time, cause volatility, illiquidity or other potentially adverse effects in the financial markets, including the fixed-income market. The commencement, continuation or ending of government policies and economic stimulus programs, changes in monetary policy, increases or decreases in interest rates, or other factors or events that affect the financial markets, including the fixed-income markets, may contribute to the development of or increase in volatility, illiquidity, shareholder redemptions and other adverse effects which could negatively impact the Fund’s performance. For example, the value of certain portfolio securities may rise or fall in response to changes in interest rates, which could result from a change in government policies, and has the potential to cause investors to move out of certain portfolio securities,

including fixed-income securities. This may increase redemptions from funds that hold large amounts of certain securities, and may result in decreased liquidity and increased volatility in the financial markets. Market factors, such as the demand for particular portfolio securities, may cause the price of certain portfolio securities to fall while the prices of other securities rise or remain unchanged. Among other investments, lower-grade bonds may be particularly sensitive to changes in the economy.

Epidemic and Pandemic Risk

An outbreak of respiratory disease caused by a novel coronavirus was first detected in China in late 2019 and subsequently spread globally (“COVID-19”). This coronavirus has resulted in closing borders, enhanced health screenings, healthcare service preparation and delivery, quarantines, cancellations, and disruptions to supply chains, workflow operations and consumer activity, as well as general concern and uncertainty. The impact of this coronavirus may be short-term or may last for an extended period of time and has resulted in a substantial economic downturn. Health crises caused by outbreaks, such as the coronavirus outbreak, may exacerbate other pre-existing political, social and economic risks. The impact of this outbreak, and other epidemics and pandemics that may arise in the future, could continue to negatively affect the worldwide economy, as well as the economies of individual countries, individual companies, including certain Fund service providers and issuers of the Fund’s investments, and the markets in general in significant and unforeseen ways. Any such impact could adversely affect the Fund’s performance.

The United States has responded to the COVID-19 pandemic and resulting economic distress with fiscal and monetary stimulus packages. In late March 2020, the government passed the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”), a stimulus package providing for over \$2.2 trillion in resources to small businesses, state and local governments, and individuals that have been adversely impacted by the COVID-19 pandemic. In addition, in mid-March 2020 the U.S. Federal Reserve (“Fed”) cut interest rates to historically low levels and announced a new round of quantitative easing, including purchases of corporate and municipal government bonds. The Fed also enacted various programs to support liquidity operations and funding in the financial markets, including expanding its reverse repurchase agreement operations, adding \$1.5 trillion of liquidity to the banking system; establishing swap lines with other major central banks to provide dollar funding; establishing a program to support money market funds; easing various bank capital buffers; providing funding backstops for businesses to provide bridging loans for up to four years; and providing funding to help credit flow in asset-backed securities markets. The Fed also plans to extend credit to small- and medium-sized businesses.

RISK OF INVESTING IN DERIVATIVE CONTRACTS AND HYBRID INSTRUMENTS

The Fund’s exposure to derivative contracts and hybrid instruments (either directly or through its investment in another investment company) involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. First, changes in the value of the derivative contracts and hybrid instruments in which the Fund invests may not be correlated with changes in the value of the underlying Reference Instruments or, if they are correlated, may move in the opposite direction than originally anticipated. Second, while some strategies involving derivatives may reduce the risk of loss, they may also reduce potential gains or, in some cases, result in losses by offsetting favorable price movements in portfolio holdings. Third, there is a risk that derivative contracts and hybrid instruments may be erroneously priced or improperly valued and, as a result, the Fund may need to make increased cash payments to the counterparty. Fourth, exposure to derivative contracts and hybrid instruments may have tax consequences to the Fund and its shareholders. For example, derivative contracts and hybrid instruments may cause the Fund to realize increased ordinary income or short-term capital gains (which are treated as ordinary income for Federal income tax purposes) and, as a result, may increase taxable distributions to shareholders. In addition, under certain circumstances certain derivative contracts and hybrid instruments may cause the Fund to: (a) incur an excise tax on a portion of the income related to those contracts and instruments; and/or (b) reclassify, as a return of capital, some or all of the distributions previously made to shareholders during the fiscal year as dividend income. Fifth, a common provision in OTC derivative contracts permits the counterparty to terminate any such contract between it and the Fund, if the value of the Fund’s total net assets declines below a specified level over a given time period. Factors that may contribute to such a decline (which usually must be substantial) include significant shareholder redemptions and/or a marked decrease in the market value of the Fund’s investments. Any such termination of the Fund’s OTC derivative contracts may adversely affect the Fund (for example, by increasing losses and/or costs, and/or preventing the Fund from fully implementing its investment strategies). Sixth, the Fund may use a derivative contract to benefit from a decline in the value of a Reference Instrument. If the value of the Reference Instrument declines during the term of the contract, the Fund makes a profit on the difference (less any payments the Fund is required to pay under the terms of the contract). Any such strategy involves risk. There is no assurance that the Reference Instrument will decline in value during the term of the contract and make a profit for the Fund. The Reference Instrument may instead appreciate in value creating a loss for the Fund. Seventh, a

default or failure by a CCP or an FCM (also sometimes called a “futures broker”), or the failure of a contract to be transferred from an Executing Dealer to the FCM for clearing, may expose the Fund to losses, increase its costs, or prevent the Fund from entering or exiting derivative positions, accessing margin, or fully implementing its investment strategies. The central clearing of a derivative and trading of a contract over a SEF could reduce the liquidity in, or increase costs of entering into or holding, any contracts. Finally, derivative contracts and hybrid instruments may also involve other risks described in this Prospectus, such as stock market, interest rate, credit, currency, liquidity and leverage risks.

REINVESTMENT RISK

Income from the Fund’s tax-exempt security portfolio will decline if and when the Fund invests the proceeds from matured, traded or called fixed-income securities (including tax-exempt securities) at market interest rates that are below the portfolio’s current earnings rate. A decline in income could affect the overall return of Shares.

RISK OF FOREIGN INVESTING

Foreign securities pose additional risks because foreign economic or political conditions may be less favorable than those of the United States. Securities in foreign markets may also be subject to taxation policies that reduce returns for U.S. investors.

Foreign companies may not provide information (including financial statements) as frequently or to as great an extent as companies in the United States. Foreign companies may also receive less coverage than U.S. companies by market analysts and the financial press. In addition, foreign countries may lack uniform accounting, auditing and financial reporting standards or regulatory requirements comparable to those applicable to U.S. companies. These factors may prevent the Fund and its Adviser from obtaining information concerning foreign companies that is as frequent, extensive and reliable as the information available concerning companies in the United States.

Foreign countries may have restrictions on foreign ownership of securities or may impose exchange controls, capital flow restrictions or repatriation restrictions which could adversely affect the liquidity of the Fund’s investments.

RISK OF INVESTING IN ADRS AND DOMESTICALLY TRADED SECURITIES OF FOREIGN ISSUERS

Because the Fund may invest in ADRs and other domestically traded securities of foreign companies, the Fund’s Share price may be more affected by foreign economic and political conditions, taxation policies and accounting and auditing standards than would otherwise be the case.

CURRENCY RISK

Exchange rates for currencies fluctuate daily. The combination of currency risk and market risks tends to make securities traded in foreign markets more volatile than securities traded exclusively in the United States. The Adviser attempts to manage currency risk by limiting the amount the Fund invests in securities denominated in a particular currency. However, diversification will not protect the Fund against a general increase in the value of the U.S. dollar relative to other currencies.

Investing in currencies or securities denominated in a foreign currency, entails risk of being exposed to a currency that may not fully reflect the strengths and weaknesses of the economy of the country or region utilizing the currency. Currency risk includes both the risk that currencies in which the Fund’s investments are traded, or currencies in which the Fund has taken an active investment position, will decline in value relative to the U.S. dollar and, in the case of hedging positions, that the U.S. dollar will decline in value relative to the currency being hedged. In addition, it is possible that a currency (such as, for example, the euro) could be abandoned in the future by countries that have already adopted its use, and the effects of such an abandonment on the applicable country and the rest of the countries utilizing the currency are uncertain but could negatively affect the Fund’s investments denominated in the currency. If a currency used by a country or countries is replaced by another currency, the Fund’s Adviser would evaluate whether to continue to hold any investments denominated in such currency, or whether to purchase investments denominated in the currency that replaces such currency, at the time. Such investments may continue to be held, or purchased, to the extent consistent with the Fund’s investment objective(s) and permitted under applicable law.

Many countries rely heavily upon export-dependent businesses and any strength in the exchange rate between a currency and the U.S. dollar or other currencies can have either a positive or a negative effect upon corporate profits and the performance of investments in the country or region utilizing the currency. Adverse economic events within such country or region may increase the volatility of exchange rates against other currencies, subjecting the Fund’s investments denominated in such country’s or region’s currency to additional risks.

EUROPEAN UNION AND EUROZONE RELATED RISK

A number of countries in the European Union (EU), including certain countries within the EU that have adopted the euro (Eurozone), have experienced, and may continue to experience, severe economic and financial difficulties. Additional countries within the EU may also fall subject to such difficulties. These events could negatively affect the value and liquidity of the Fund's investments in euro-denominated securities and derivatives contracts, securities of issuers located in the EU or with significant exposure to EU issuers or countries. If the euro is dissolved entirely, the legal and contractual consequences for holders of euro-denominated obligations and derivative contracts would be determined by laws in effect at such time. Such investments may continue to be held, or purchased, to the extent consistent with the Fund's investment objective(s) and permitted under applicable law. These potential developments, or market perceptions concerning these and related issues, could adversely affect the value of the Shares.

Certain countries in the EU have had to accept assistance from supra-governmental agencies such as the International Monetary Fund, the European Stability Mechanism (the ESM) or other supra-governmental agencies. The European Central Bank has also been intervening to purchase Eurozone debt in an attempt to stabilize markets and reduce borrowing costs. There can be no assurance that these agencies will continue to intervene or provide further assistance and markets may react adversely to any expected reduction in the financial support provided by these agencies. Responses to the financial problems by European governments, central banks and others including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences.

In addition, one or more countries may withdraw from the EU, and one or more countries within the Eurozone may abandon the euro. The impact of these actions, especially if they occur in a disorderly fashion, could be significant and far-reaching. On January 31, 2020, the United Kingdom (UK) left the EU, commonly referred to as "Brexit," and there commenced a transition period during which the EU and UK will negotiate and agree on the nature of their future relationship. There is significant market uncertainty regarding Brexit's ramifications, and the range and potential implications of possible political, regulatory, economic and market outcomes are difficult to predict. This long-term uncertainty may affect other countries in the EU and elsewhere and may cause volatility within the EU, triggering prolonged economic downturns in certain countries within the EU. In addition, Brexit may create additional and substantial economic stresses for the UK, including a contraction of the UK economy and price volatility in UK stocks, decreased trade, capital outflows, devaluation of the British pound, wider corporate bond spreads due to uncertainty and declines in business and consumer spending as well as foreign direct investment. Brexit may also adversely affect UK-based financial firms, including certain subadvisers to the Federated Hermes Funds, that have counterparties in the EU or participate in market infrastructure (trading venues, clearing houses, settlement facilities) based in the EU. These events and the resulting market volatility may have an adverse effect on the performance of the Fund.

STOCK MARKET RISK

The value of equity securities in the Fund's portfolio will rise and fall over time. These fluctuations could be a sustained trend or a drastic movement. Historically, the equity market has moved in cycles, and the value of the Fund's securities may fluctuate from day to day. The Fund's portfolio will reflect changes in prices of individual portfolio stocks or general changes in stock valuations. Consequently, the Fund's Share price may decline. The Adviser attempts to manage market risk by limiting the amount the Fund invests in each company's equity securities. However, diversification will not protect the Fund against widespread or prolonged declines in the stock market.

Information publicly available about a company, whether from the company's financial statements or other disclosures or from third parties, or information available to some but not all market participants, can affect the price of a company's shares in the market. The price of a company's shares depends significantly on the information publicly available about the company. The reporting of poor results by a company, the restatement of a company's financial statements or corrections to other information regarding a company or its business may adversely affect the price of its shares, as would allegations of fraud or other misconduct by the company's management. The Fund may also be disadvantaged if some market participants have access to material information not readily available to other market participants, including the Fund.

LARGE-CAP COMPANY RISK

The Fund may invest in large-capitalization (or "large-cap") companies. Market capitalization is determined by multiplying the number of a company's outstanding shares by the current market price per share. Larger, more established, companies may have fewer opportunities to expand the market for their products or services, may focus their competitive efforts on maintaining or expanding their market share, and may be unable to respond quickly to new competitive challenges, like price competition, changes in consumer tastes or innovative products. These factors could result in the share price of larger companies not keeping pace with the overall stock market or growth in the general economy, and could have a negative effect on the Fund's portfolio, performance and Share price.

MID-CAP COMPANY RISK

The Fund may invest in mid-capitalization (or “mid-cap”) companies. Market capitalization is determined by multiplying the number of a company’s outstanding shares by the current market price per share. Mid-cap companies often have narrower markets and limited managerial and financial resources compared to larger, more established companies. The performance of mid-cap companies can be more volatile and they face greater risk of business failure, compared to larger, more established companies, which could increase the volatility of the Fund’s portfolio and performance. Shareholders should expect that the value of the Fund’s Shares will be more volatile than a fund that invests exclusively in large-cap companies.

RISK RELATING TO INVESTING FOR VALUE

Due to their relatively low valuations, value stocks are typically less volatile than growth stocks. For instance, the price of a value stock may experience a smaller increase on a forecast of higher earnings, a positive fundamental development or positive market development. Further, value stocks tend to have higher dividends than growth stocks. This means they depend less on price changes for returns and may lag behind growth stocks in certain up markets. There is no guarantee that the issuers of the stocks held by the Fund will declare dividends in the future or that, if dividends are declared, they will remain at their current levels or increase over time. The value approach to stock selection also carries the risk that the market will not recognize a security’s intrinsic value for a long time (if ever), or that a stock judged to be undervalued may actually be appropriately priced.

STRATEGY RISK

Securities and investment strategies with different characteristics tend to shift in and out of favor depending upon market and economic conditions as well as investor securities. A fund may outperform or underperform other funds that employ a different style or strategy. The Fund may employ a combination of styles that impact its risk characteristics.

CUSTODIAL SERVICES AND RELATED INVESTMENT COSTS

Custodial services and other costs relating to investment in international securities markets generally are more expensive than in the United States. Such markets have settlement and clearance procedures that differ from those in the United States. In certain markets, there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. The inability of the Fund to make intended securities purchases due to settlement problems could cause the Fund to miss attractive investment opportunities. Inability to dispose of a portfolio security caused by settlement problems could result in losses to the Fund due to a subsequent decline in value of the portfolio security. In addition, security settlement and clearance procedures in some emerging market countries may not fully protect the Fund against loss of its assets.

TECHNOLOGY RISK

The Adviser uses various technologies in managing the Fund, consistent with its investment objective(s) and strategy described in this Prospectus. For example, proprietary and third-party data and systems are utilized to support decision-making for the Fund. Data imprecision, software or other technology malfunctions, programming inaccuracies and similar circumstances may impair the performance of these systems, which may negatively affect Fund performance.

What Do Shares Cost?

CALCULATION OF NET ASSET VALUE

When the Fund receives your transaction request in proper form (as described in this Prospectus under the sections entitled “How to Purchase Shares” and “How to Redeem and Exchange Shares”), it is processed at the next calculated net asset value of a Share (NAV) plus any applicable front-end sales charge (“public offering price”). A Share’s NAV is determined as of the end of regular trading on the New York Stock Exchange (NYSE) (normally 4:00 p.m. Eastern time), each day the NYSE is open. The Fund calculates the NAV of each class by valuing the assets allocated to the Share’s class, subtracting the liabilities allocated to each class and dividing the balance by the number of Shares of the class outstanding. The NAV for each class of Shares may differ due to the level of expenses allocated to each class as well as a result of the variance between the amount of accrued investment income and capital gains or losses allocated to each class and the amount actually distributed to shareholders of each class. The Fund’s current NAV and/or public offering price may be found at FederatedInvestors.com, via online news sources and in certain newspapers.

You can purchase, redeem or exchange Shares any day the NYSE is open.

When the Fund holds securities that trade principally in foreign markets on days the NYSE is closed, the value of the Fund’s assets may change on days you cannot purchase or redeem Shares. This may also occur when the U.S. markets for fixed-income securities are open on a day the NYSE is closed.

In calculating its NAV, the Fund generally values investments as follows:

- Equity securities listed on an exchange or traded through a regulated market system are valued at their last reported sale price or official closing price in their principal exchange or market.
- Fixed-income securities are fair valued using price evaluations provided by a pricing service approved by the Board of Trustees (“Board”).
- Derivative contracts listed on exchanges are valued at their reported settlement or closing price, except that options are valued at the mean of closing bid and asked quotations.
- Over-the-counter (OTC) derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Board.

If any price, quotation, price evaluation or other pricing source is not readily available when the NAV is calculated, if the Fund cannot obtain price evaluations from a pricing service or from more than one dealer for an investment within a reasonable period of time as set forth in the Fund’s valuation policies and procedures, or if information furnished by a pricing service, in the opinion of the Valuation Committee, is deemed not representative of the fair value of such security, the Fund uses the fair value of the investment determined in accordance with the procedures generally described below. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share.

Shares of other mutual funds are valued based upon their reported NAVs. The prospectuses for these mutual funds explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

FAIR VALUATION AND SIGNIFICANT EVENTS PROCEDURES

The Board has ultimate responsibility for determining the fair value of investments for which market quotations are not readily available. The Board has appointed a Valuation Committee comprised of officers of the Fund, the Adviser and certain of the Adviser’s affiliated companies to assist in determining fair value and in overseeing the calculation of the NAV. The Board has also authorized the use of pricing services recommended by the Valuation Committee to provide fair value evaluations of the current value of certain investments for purposes of calculating the NAV. In the event that market quotations and price evaluations are not available for an investment, the Valuation Committee determines the fair value of the investment in accordance with procedures adopted by the Board. The Board periodically reviews and approves the fair valuations made by the Valuation Committee and any changes made to the procedures. The Fund’s SAI discusses the methods used by pricing services and the Valuation Committee to assist the Board in valuing investments.

Using fair value to price investments may result in a value that is different from an investment’s most recent closing price and from the prices used by other mutual funds to calculate their NAVs. The application of the fair value procedures to an investment represent a good faith determination of such investment’s fair value. There can be no assurance that the Fund could obtain the fair value assigned to an investment if it sold the investment at approximately the time at which the Fund determines its NAV per share, and the actual value could be materially different.

The Board also has adopted procedures requiring an investment to be priced at its fair value whenever the Adviser determines that a significant event affecting the value of the investment has occurred between the time as of which the price of the investment would otherwise be determined and the time as of which the NAV is computed. An event is considered significant if there is both an affirmative expectation that the investment’s value will change in response to the event and a reasonable basis for quantifying the resulting change in value.

Examples of significant events that may occur after the close of the principal market on which a security is traded, or after the time of a price evaluation provided by a pricing service or a dealer, include:

- With respect to securities traded principally in foreign markets, significant trends in U.S. equity markets or in the trading of foreign securities index futures contracts;
- Political or other developments affecting the economy or markets in which an issuer conducts its operations or its securities are traded; and
- Announcements concerning matters such as acquisitions, recapitalizations or litigation developments or a natural disaster affecting the issuer’s operations or regulatory changes or market developments affecting the issuer’s industry.

The Board has adopted procedures whereby the Valuation Committee uses a pricing service to provide factors to update the fair value of equity securities traded principally in foreign markets from the time of the close of their respective foreign stock exchanges to the pricing time of the Fund. For other significant events, the Fund may seek to obtain more current quotations or price evaluations from alternative pricing sources. If a reliable alternative pricing source is not available, the Valuation Committee will determine the fair value of the investment using another method approved by the Board. The Board has ultimate responsibility for any fair valuations made in response to a significant event.

The fair valuation of securities following a significant event can serve to reduce arbitrage opportunities for short-term traders to profit at the expense of long-term investors in the Fund. For example, such arbitrage opportunities may exist when the market on which portfolio securities are traded closes before the Fund calculates its NAV, which is typically the case with Asian and European markets. However, there is no assurance that these significant event procedures will prevent dilution of the NAV by short-term traders. See “Account and Share Information – Frequent Trading Policies” for other procedures the Fund employs to deter such short-term trading.

The following sections until “How is the Fund Sold?” relate to sales charge information in connection with the purchase of the A class, B class, C class and F class.

SALES CHARGE INFORMATION

The following table summarizes the minimum investment amount and the maximum sales charge, if any, that you will pay on an investment in the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

Shares Offered	Minimum Initial/Subsequent Investment Amounts ¹	Maximum Sales Charges	
		Front-End Sales Charge ²	Contingent Deferred Sales Charge ³
A	\$1,500/\$100	5.50%	0.00%
B	\$1,500/\$100	None	5.50%
C	\$1,500/\$100	None	1.00%
F	\$1,500/\$100	1.00%	1.00%

1 The minimum initial and subsequent investment amounts for Individual Retirement Accounts (IRAs) are generally \$250 and \$100, respectively. There is no minimum initial or subsequent investment amount required for employer-sponsored retirement plans; however, such accounts remain subject to the Fund’s policy on “Accounts with Low Balances” as discussed later in this Prospectus. Please see “By Systematic Investment Program” for applicable minimum investment. Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund.

To maximize your return and minimize the sales charges and marketing fees, purchases of the B class are generally limited to \$100,000 and purchases of the C class are generally limited to \$1,000,000. Purchases equal to or in excess of these limits may be made in the A class. If your Shares are held on the books of the Fund in the name of a financial intermediary, you may be subject to rules of your financial intermediary that differ from those of the Fund. See “Purchase Restrictions on B Class and C Class” below. After the B class has been held for eight years from the date of purchase, they will automatically convert to the A class. This conversion is a non-taxable event.

After C Shares have been held for ten years from the date of purchase, they will automatically convert to A Shares on the next monthly conversion processing date, provided that certain conditions are satisfied. See “How is the Fund Sold?” This conversion is a non-taxable event.

2 Front-End Sales Charge is expressed as a percentage of public offering price. See “Sales Charge When You Purchase.”

3 See “Sales Charge When You Redeem.”

As shown in the table above, each class of Shares has a different sales charge structure. In addition, the ongoing annual operating expenses (“expense ratios”), as well as the compensation payable to financial intermediaries, also vary among the classes. Before you decide which class to purchase, you should review the different charges and expenses of each class carefully, in light of your personal circumstances, and consult with your financial intermediary.

Among the important factors to consider are the amount you plan to invest and the length of time you expect to hold your investment (for example, whether the investment is in connection with a long-term retirement program). You should also consider, for example, that it may be possible to reduce or eliminate, the front-end sales charges imposed on purchases of the A class and F class. Among other ways, the A class and F class have a series of “breakpoints,” which means that the front-end sales charges decrease (and can be eliminated entirely) as the amount invested increases. (The breakpoint schedule is set out below, along with detailed information on ways to reduce, or eliminate, front-end sales charges.) On the other hand, the B class does not have front-end sales charges, but the deferred sales charges imposed on redemptions of the B class do not vary at all in relation to the amounts invested. Rather, these charges decrease with the passage of time (ultimately going to zero after Shares have been held for six full years). Finally, the C class does not have front-end sales charges, but do impose a contingent deferred sales charge only if redeemed within one year after purchase; however, the asset-based 12b-1 fees charged to the C class are greater than those charged to the A class and F class and comparable to those charged to the B class.

You should also consider that the expense ratio for the A class will be lower than that for the B class or C class. Thus, the fact that no front-end charges are ever imposed on purchases of the B class and C class does not always make them preferable to the A class.

SALES CHARGE WHEN YOU PURCHASE

The following tables list the sales charges which will be applied to your Share purchase, subject to the breakpoint discounts indicated in the tables and described below.

A:

Purchase Amount	Sales Charge as a Percentage of Public Offering Price	Sales Charge as a Percentage of NAV
Less than \$50,000	5.50%	5.82%
\$50,000 but less than \$100,000	4.50%	4.71%
\$100,000 but less than \$250,000	3.75%	3.90%
\$250,000 but less than \$500,000	2.50%	2.56%
\$500,000 but less than \$1 million	2.00%	2.04%
\$1 million or greater ¹	0.00%	0.00%

¹ A contingent deferred sales charge (CDSC) of 0.75% of the redemption amount applies to Shares originally purchased in an amount of \$1 million or more and redeemed up to 24 months after purchase under certain investment programs where a financial intermediary received an advance payment on the transaction. CDSC exceptions may apply. See "Sales Charge When You Redeem."

F:

Purchase Amount	Sales Charge as a Percentage of Public Offering Price	Sales Charge as a Percentage of NAV
Less than \$1 million	1.00%	1.01%
\$1 million or greater	0.00%	0.00%

REDUCING THE SALES CHARGE WITH BREAKPOINT DISCOUNTS

Your investment may qualify for a reduction of the sales charge, also known as a breakpoint discount. The breakpoint discounts offered by the Fund are indicated in the tables above.

You or your financial intermediary must notify the Fund's Transfer Agent of eligibility for any applicable breakpoint discount at the time of purchase.

In order to receive the applicable breakpoint discount, it may be necessary at the time of purchase for you to inform your financial intermediary or the Transfer Agent of the existence of other accounts in which there are holdings eligible to be aggregated to meet a sales charge breakpoint ("Qualifying Accounts"). Qualifying Accounts mean those share accounts in the Federated Hermes funds held directly or through a financial intermediary or through a single-participant retirement account by you, your spouse, your parents (if you are under age 21) and/or your children under age 21, which can be linked using tax identification numbers (TINs), social security numbers (SSNs) or broker identification numbers (BINs). Accounts held through 401(k) plans and similar multi-participant retirement plans, or through "Section 529" college savings plans or those accounts which cannot be linked using TINs, SSNs or BINs, are not Qualifying Accounts.

In order to verify your eligibility for a breakpoint discount, you will be required to provide to your financial intermediary or the Transfer Agent certain information on your New Account Form and may be required to provide account statements regarding Qualifying Accounts. If you purchase through a financial intermediary, you may be asked to provide additional information and records as required by the financial intermediary. Failure to provide proper notification or verification of eligibility for a breakpoint discount may result in your not receiving a breakpoint discount to which you are otherwise entitled. Breakpoint discounts apply only to your current purchase and do not apply retroactively to previous purchases. The sales charges applicable to the Shares offered in this Prospectus, and the breakpoint discounts offered with respect to such Shares, are described in full in this Prospectus. Because the Prospectus is available on FederatedInvestors.com free of charge, Federated Hermes does not disclose this information separately on the website.

Contingent upon notification to the Transfer Agent, the sales charge at purchase of the A class and F class only, may be reduced or eliminated by:

Larger Purchases

- Purchasing A class or F class Shares in greater quantities to reduce the applicable sales charge;

Concurrent and Accumulated Purchases

- Excluding any Federated Hermes fund A class without a sales charge (“no-load A class”), combining concurrent purchases of and/or current investments in the A class, B class, C class, F class and R class of any Federated Hermes fund made or held by Qualifying Accounts; the purchase amount used in determining the sales charge on your additional Share purchase will be calculated by multiplying the respective maximum public offering price times the number of the A class, B class, C class, F class and R class shares of any Federated Hermes fund currently held in Qualifying Accounts and adding the dollar amount of your current purchase; or

Letter of Intent

- Signing a letter of intent to purchase a qualifying amount of A class or F class Shares within 13 months. (Call your financial intermediary or the Fund for more information.) The Fund’s custodian will hold Shares in escrow equal to the maximum applicable sales charge. If you complete the Letter of Intent, the Custodian will release the Shares in escrow to your account. If you do not fulfill the Letter of Intent, the Custodian will redeem the appropriate amount from the Shares held in escrow to pay the sales charges that were not applied to your purchases.

PURCHASE RESTRICTIONS ON B CLASS AND C CLASS

In order to maximize shareholder returns and minimize sales charges and marketing fees, an investor’s purchases of B class are generally limited to \$100,000 and an investor’s purchases of C class are generally limited to \$1,000,000 (except for employer-sponsored retirement plans held in omnibus accounts with respect to C Shares). In applying the limit, the dollar amount of the current purchase is added to the product obtained by multiplying the respective maximum public offering price times the number of A class, B class, C class, F class and R class of any Federated fund currently held in linked Qualifying Accounts, as defined in the section entitled “Reducing the Sales Charge with Breakpoint Discounts.” If the sum of these two amounts would equal or exceed the limit, then the current purchase order will not be processed. Instead, the Distributor will attempt to contact the investor or the investor’s financial intermediary to offer the opportunity to convert the order to A class.

If your Shares are held on the books of the Fund in the name of a financial intermediary, you may be subject to rules of your financial intermediary that differ from those of the Fund.

ELIMINATING THE SALES CHARGE

Your investment may qualify for a sales charge waiver. Sales charge waivers offered by the Fund are listed below. In order to receive a sales charge waiver, you must inform your financial intermediary or the Transfer Agent at the time of each purchase that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund’s Transfer Agent. If you do not let your financial intermediary or the Transfer Agent know that your investment is eligible for a sales charge waiver at the time of purchase, you may not receive the waiver to which you may otherwise be entitled.

Contingent upon notification to the Transfer Agent, the sales charge will be eliminated when you purchase or acquire Shares:

- within 120 days of redeeming Shares of an equal or greater amount (see “120 Day Reinstatement Program” below);
- through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary);
- with reinvested dividends or capital gains;
- issued in connection with the merger, consolidation or acquisition of the assets of another fund. Further, the sales charge will be eliminated on purchases of Shares made by a shareholder that originally became a shareholder of a Federated Hermes fund pursuant to the terms of an agreement and plan of reorganization which permits shareholders to acquire Shares at NAV, provided that such purchased Shares are held directly with the Fund’s transfer agent. If the Shares are held through a financial intermediary, the sales charge waiver will not apply (A class only);
- as a Federated Life Member (Federated shareholders who originally were issued shares through the “Liberty Account,” which was an account for the Liberty Family of Funds on February 28, 1987, or who invested through an affinity group prior to August 1, 1987, into the Liberty Account) (A class only);
- as a Trustee, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates, an employee of any financial intermediary that sells Shares according to a sales agreement with the Distributor, an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals; or
- pursuant to the exchange privilege.

The sales charge will not be eliminated if you purchase Shares of the Fund through an exchange of shares of any no-load A class unless your no-load A class shares were acquired through an exchange of shares on which the sales charge had previously been paid.

120 DAY REINSTATEMENT PROGRAM

Within 120 days of redeeming Class A Shares, Class B Shares, Class C Shares and Class F Shares of the Fund, upon proper notification to the Fund’s Transfer Agent, you may reinvest all or a portion of the redemption proceeds in Class A Shares of the Fund at net asset value, without the imposition of a sales charge or CDSC. Please note:

- The ownership of the account receiving the purchase is not required to be identical to that of the account in which the redemption was placed; however, the registration of the account receiving the purchase must include at least one registered shareholder of the account from which the redemption occurred.
- You will not be reimbursed for any fees originally incurred on the redemption (e.g., CDSC or redemption fees) by subsequently participating in the 120 Day Reinstatement Program.
- The 120 Day Reinstatement Program does not supersede or override any restrictions placed on an account due to frequent trading and/or client contractual issues.

Additional operational restrictions may apply, please contact a Client Service Representative at 1-800-341-7400 for more information.

SALES CHARGE WHEN YOU REDEEM

Your redemption proceeds may be reduced by a sales charge, commonly referred to as a contingent deferred sales charge (CDSC). Shares otherwise subject to a CDSC will not be charged a CDSC at the time of an exchange; however, the CDSC will continue to be measured from the date of your original purchase. The CDSC schedule applicable to your original purchase will continue to apply to the shares you receive in an exchange.

To keep the sales charge as low as possible, the Fund redeems your Shares in this order:

- Shares that are not subject to a CDSC; and
- Shares held the longest. (To determine the number of years your Shares have been held, include the time you held shares of other Federated Hermes funds that have been exchanged for Shares of this Fund.)

The CDSC is then calculated using the Share price at the time of purchase or redemption, whichever is lower.

A:

If you make a purchase of the A class in the amount of \$1 million or more and your financial intermediary received an advance commission on the sale, you will pay a 0.75% CDSC on any such Shares redeemed within 24 months of the purchase.

B:

Shares Held Up To:	CDSC
1 Year	5.50%
2 Years	4.75%
3 Years	4.00%
4 Years	3.00%
5 Years	2.00%
6 Years	1.00%
7 Years or More	0.00%

C:

You will pay a 1.00% CDSC if you redeem Shares within 12 months of the purchase date.

F:

Purchase Amount	Shares Held	CDSC
Up to \$2 million	4 years or less	1.00%
\$2 million but less than \$5 million	2 years or less	0.50%
\$5 million or more	1 year or less	0.25%

Your redemption may qualify for a waiver of the CDSC. The CDSC waivers offered by the Fund are listed below. In order to receive a waiver of the CDSC, you must inform your financial intermediary or the Transfer Agent at the time of each redemption that your investment is eligible for a waiver. It is possible that your financial intermediary may not, in accordance with its policies, procedures and system limitations, be able to ensure your receipt of one or more of these waiver categories. In this situation, you would need to invest directly through the Fund’s Transfer Agent in order to take advantage of the waiver. If you do not let your financial intermediary or the Transfer Agent know that your redemption is eligible for a CDSC waiver at the time of redemption, you may not receive the waiver to which you may otherwise be entitled.

Contingent upon notification to the Transfer Agent, you will not be charged a CDSC when redeeming Shares:

- following the death of the last surviving shareholder on the account or the post-purchase disability of all registered shareholders, as defined in Section 72(m)(7) of the Internal Revenue Code of 1986 (the beneficiary on an account with a Transfer on Death registration is deemed the last surviving shareholder on the account);
- due to the termination of a trust following the death of the trustor/grantor or beneficiary, provided that the trust document specifically states that the trust is terminated upon the death;
- representing minimum required distributions from an IRA or other retirement plan as required under the Internal Revenue Code;
- purchased by Trustees, employees of the Fund, the Adviser, the Distributor and their affiliates, by employees of a financial intermediary that sells Shares according to a sales agreement with the Distributor, by the immediate family members of the above persons and by trusts, pension or profit-sharing plans for the above persons;
- purchased through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary);
- purchased with reinvested dividends or capital gains;
- redeemed by the Fund when it closes an account for not meeting the minimum balance requirements;
- purchased pursuant to the exchange privilege, if the Shares were held for the applicable CDSC holding period (the holding period on the Shares purchased in the exchange will include the holding period of the Shares sold in the exchange);

A Class Only

- purchased in the amount of \$1 million or more and redeemed within 24 months of purchase if the Shares were originally purchased through an eligible program offered by a Financial Intermediary that provides for the purchase of Shares without imposition of a sales charge (for example, a wrap account, self-directed brokerage account, retirement or other fee-based program offered by the Financial Intermediary);

B Class Only

- which are qualifying redemptions of the B class under a Systematic Withdrawal Program; or

F Class Only

- representing a total or partial distribution from a qualified plan, which does not include account transfers, rollovers or redemptions for the purpose of reinvestment. For these purposes, qualified plan does not include an IRA, individual 401(k) or custodial account following retirement.

ADDITIONAL INFORMATION ON THE AVAILABILITY OF CERTAIN WAIVERS AND DISCOUNTS

The availability of certain sales charge waivers and discounts will depend on whether you purchase your shares directly from the Fund or through a financial intermediary. **Certain financial intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or CDSC waivers which are discussed in Appendix B to this Prospectus. The information contained in Appendix B is based on information provided by these financial intermediaries. Please contact your financial intermediary to ensure that you have the most current information regarding the sales charge waivers and discounts available to you and that you understand the steps you must take to qualify for available waivers and discounts.** In all instances, it is the shareholder's responsibility to notify the Fund or the shareholder's Financial Intermediary at the time of purchase of any relationship or other facts qualifying the investor for sales charge waivers or discounts. **For waivers and discounts not available through a particular financial intermediary, shareholders will have to purchase Fund shares directly from the Fund or through another financial intermediary to receive these waivers or discounts.**

COMMISSIONS ON CERTAIN SHARES

The Fund does not charge any front-end load, deferred sales charge or other asset-based fee for sales or distribution of IS Shares. However, if you purchase IS Shares through a broker acting solely as an agent on behalf of its customers, you may be required to pay a commission to the broker in an amount determined and separately disclosed to you by the broker.

Because the Fund is not a party to any such commission arrangement between you and your broker, any purchases and redemptions of IS Shares will be made at the applicable net asset value (before imposition of the sales commission). Any such commissions charged by a broker are not reflected in the fees and expenses listed in the "Risk/Return Summary: Fees and Expenses" section of the Fund's Prospectus and described above nor are they reflected in the "Performance: Bar Chart and Table," because they are not charged by the Fund.

Shares of the Fund are available in other share classes that have different fees and expenses.

How is the Fund Sold?

The Fund offers the following Share classes: Class A Shares (A), Class B Shares (B), Class C Shares (C), Class F Shares (F) and Institutional Shares (IS), each representing interests in a single portfolio of securities. All Share classes have different sales charges and/or other expenses which affect their performance. Please note that certain purchase restrictions may apply.

Under the Distributor's Contract with the Fund, the Distributor, Federated Securities Corp., offers Shares on a continuous, best-efforts basis. The Distributor is a subsidiary of Federated Hermes, Inc. ("Federated Hermes," formerly, Federated Investors, Inc.). The Fund may not be a suitable investment for retirement plans because it invests a portion of its portfolio in tax-exempt securities.

Class B Share Closure

Class B Shares are closed to new investments by new investors and existing shareholders (excluding reinvestment of dividends and capital gains). Reinvestment of dividends and capital gains will continue uninterrupted. Class B Shares of the Fund may be exchanged for Class B Shares of any other Federated Hermes fund.

A shareholder owning the Fund's Class B Shares may continue to hold those shares until such shares automatically convert to Class A Shares under the Fund's existing conversion schedule as described in the Fund's prospectus, or until the shareholder redeems such Class B Shares, subject to any applicable contingent deferred sales charge (CDSC).

Reinvestment of dividends and capital gains will continue uninterrupted.

All other Class B Share features, including but not limited to distribution (12b-1) and service fees, CDSC, accumulation privileges and conversion features, will remain unchanged for Class B Shares.

A, B, C & F Classes

The Fund's Distributor markets the A class, B class, C class and F class to institutions or to individuals, directly or through financial intermediaries.

IS Class

The Fund's Distributor markets the IS class to Eligible Investors, as described below. In connection with a request to purchase the IS class, you should provide documentation sufficient to verify your status as an Eligible Investor. As a general matter, the IS class is not available for direct investment by natural persons.

The following categories of Eligible Investors are not subject to any minimum initial investment amount for the purchase of the IS class (however, such accounts remain subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus):

- An investor participating in a no-load platform, network or other fee-based program offered by a financial intermediary, for example, a wrap-account or retirement platform where Federated Hermes has entered into an agreement with the intermediary;
- A trustee/director, employee or former employee of the Fund, the Adviser, the Distributor and their affiliates; an immediate family member of these individuals or a trust, pension or profit-sharing plan for these individuals;
- An employer-sponsored retirement plan;
- A trust institution investing on behalf of its trust customers;
- Additional sales to an investor (including a natural person) who owned the IS class of the Fund as of December 31, 2008;
- A Federated Hermes Fund;
- An investor (including a natural person) who acquired the IS class of a Federated Hermes fund pursuant to the terms of an agreement and plan of reorganization which permits the investor to acquire such shares; and
- In connection with an acquisition of an investment management or advisory business, or related investment services, products or assets, by Federated Hermes or its investment advisory subsidiaries, an investor (including a natural person) who: (1) becomes a client of an investment advisory subsidiary of Federated Hermes; or (2) is a shareholder or interest holder of a pooled investment vehicle or product that becomes advised or subadvised by a Federated Hermes investment advisory subsidiary as a result of such an acquisition other than as a result of a fund reorganization transaction pursuant to an agreement and plan of reorganization.

The following categories of Eligible Investors are subject to applicable minimum initial investment amounts for the purchase of the IS class (see "How to Purchase Shares" below):

- An investor, other than a natural person, purchasing the IS class directly from the Fund; and
- In connection with an initial purchase of the IS class through an exchange, an investor (including a natural person) who owned the IS class of another Federated Hermes fund as of December 31, 2008.

Intra-Fund Share Conversion Program

A shareholder in the Fund's Shares may convert their Shares at net asset value to any other share class of the Fund if the shareholder meets the investment minimum and eligibility requirements for the share class into which the conversion is sought, as applicable. This share conversion program is not applicable to the Fund's Class B Shares. The share conversion program is not applicable to the Fund's Class A Shares, Class C Shares and Class F Shares subject to a contingent deferred sales charge, if applicable. For Class C Shares purchased through a financial intermediary after June 30, 2017, such shares may only be converted to another share class of the same Fund if: (i) the shares are no longer subject to a CDSC or the financial intermediary agrees to reimburse the Fund's Distributor the CDSC otherwise payable upon the sale of such shares; (ii) the shareholder meets the investment minimum and eligibility requirements for the share class into which the conversion is sought, as applicable; and (iii) (a) the conversion is made to facilitate the shareholder's participation in a self-directed brokerage (non-advice) account or a fee-based advisory program offered by the intermediary; or (b) the conversion is part of a multiple-client transaction through a particular financial intermediary as pre-approved by the Fund's Administrator. Such conversion of classes should not result in a realization event for tax purposes. Contact your financial intermediary or call 1-800-341-7400 to convert your Shares.

Class B Share Automatic Conversion Feature

After Class B Shares have been held for eight years from the date of purchase, they will automatically convert into Class A Shares on the next monthly conversion processing date, provided that the Fund or financial intermediary has records confirming that the Class B Shares have been held for at least eight years and that the Class A Shares are available for purchase. For Class B Shares acquired in an exchange from another fund, the date of purchase will be based on the initial purchase of the Class B Shares of the prior fund. Certain financial intermediaries, record keepers and platforms do not track shareholder level share lot aging for certain types of accounts. These Class B Shares would not satisfy the conditions for the conversion. Contact your financial intermediary or call 1-800-341-7400 for more information.

Class C Share Automatic Conversion Feature

After Class C Shares have been held for ten years from the date of purchase, they will automatically convert into Class A Shares on the next monthly conversion processing date, provided that the Fund or financial intermediary has records confirming that the Class C Shares have been held for at least ten years and that the Class A Shares are available for purchase. For Class C Shares acquired in an exchange from another Federated Hermes fund, the date of purchase will be based on the initial purchase of the Class C Shares of the prior Federated Hermes fund. Certain financial intermediaries, record keepers and platforms do not track shareholder level share lot aging for certain types of accounts. These Class C Shares would not satisfy the conditions for the conversion. Contact your financial intermediary or call 1-800-341-7400 for more information.

Payments to Financial Intermediaries

The Fund and its affiliated service providers may pay fees as described below to financial intermediaries (such as broker-dealers, banks, investment advisers or third-party administrators) whose customers are shareholders of the Fund.

The services provided (and the fees and sales charges received) by financial intermediaries may vary.

FRONT-END SALES CHARGE REALLOWANCES

The Distributor receives a front-end sales charge on certain Share sales. The Distributor pays a portion of this charge to financial intermediaries that are eligible to receive it (the “Dealer Reallowance”) and retains any remaining portion of the front-end sales charge.

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive a Dealer Reallowance as follows:

A:

Purchase Amount	Dealer Reallowance as a Percentage of Public Offering Price
Less than \$50,000	5.00%
\$50,000 but less than \$100,000	4.00%
\$100,000 but less than \$250,000	3.25%
\$250,000 but less than \$500,000	2.25%
\$500,000 but less than \$1 million	1.80%
\$1 million or greater	0.00%

F:

Less than \$1 million	1.00%
\$1 million or greater	0.00%

ADVANCE COMMISSIONS

When a financial intermediary’s customer purchases Shares, the financial intermediary may receive an advance commission as follows:

A (for purchases over \$1 million):

Purchase Amount	Advance Commission as a Percentage of Public Offering Price
First \$1 million - \$5 million	0.75%
Next \$5 million - \$20 million	0.50%
Over \$20 million	0.25%

Advance commissions are calculated on a year-by-year basis based on amounts invested during that year. Accordingly, with respect to additional purchase amounts, the advance commission breakpoint resets annually to the first breakpoint on the anniversary of the first purchase.

The A class purchases under this program may be made by Letter of Intent or by combining concurrent purchases. The above advance commission will be paid only on those purchases that were not previously subject to a front-end sales charge or dealer advance commission. Certain retirement accounts may not be eligible for this program.

B:

	Advance Commission as a Percentage of Public Offering Price
All Purchase Amounts	Up to 5.00%

C:

	Advance Commission as a Percentage of Public Offering Price
All Purchase Amounts	1.00%

Purchase Amount	Advance Commission as a Percentage of Public Offering Price
Less than \$2 million	1.00%
\$2 million but less than \$5 million	0.50%
\$5 million or greater	0.25%

RULE 12B-1 FEES

A, B & C Classes

The Board has adopted a Rule 12b-1 Plan, which allows payment of marketing fees of up to 0.05% (A class) and 0.75% (for B class and C class) of average net assets to the Distributor for the sale, distribution, administration and customer servicing of the Fund's A class, B class and C class. When the Distributor receives Rule 12b-1 fees, it may pay some or all of them to financial intermediaries whose customers purchase Shares. The A class of the Fund has no present intention of paying, accruing or incurring any Rule 12b-1 Fees until such time as approved by the Fund's Board. In addition, in connection with the sale of the B class and C class, Federated Hermes and its subsidiaries make advance commission payments to financial intermediaries and in return may receive Rule 12b-1 fees and contingent deferred sales loads from the B class and C class. Federated Hermes and its subsidiaries may benefit or sustain losses from such arrangements. Because these Shares pay marketing fees on an ongoing basis, your investment cost may be higher over time than other shares with different sales charges and marketing fees.

SERVICE FEES

A, B, C & F Classes

The A class, B class, C class and F class may pay Service Fees of up to 0.25% of average net assets to financial intermediaries or to Federated Shareholder Services Company (FSSC), a subsidiary of Federated Hermes, for providing services to shareholders and maintaining shareholder accounts. Intermediaries that receive Service Fees may include a company affiliated with management of Federated Hermes. If a financial intermediary receives Service Fees on an account, it is not eligible to also receive Account Administration Fees on that same account.

ACCOUNT ADMINISTRATION FEES

A, B, C & F Classes

The A class, B class, C class and F class may pay Account Administration Fees of up to 0.25% of average net assets to banks that are not registered as broker-dealers or investment advisers for providing administrative services to the Fund and its shareholders. If a financial intermediary receives Account Administration Fees on an account, it is not eligible to also receive Service Fees or Recordkeeping Fees on that same account.

RECORDKEEPING FEES

The Fund may pay Recordkeeping Fees on an average-net-assets basis or on a per-account-per-year basis to financial intermediaries for providing recordkeeping services to the Fund and its shareholders. If a financial intermediary receives Recordkeeping Fees on an account, it is not eligible to also receive Account Administration Fees or Networking Fees on that same account.

NETWORKING FEES

The Fund may reimburse Networking Fees on a per-account-per-year basis to financial intermediaries for providing administrative services to the Fund and its shareholders on certain non-omnibus accounts. If a financial intermediary receives Networking Fees on an account, it is not eligible to also receive Recordkeeping Fees on that same account.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Distributor may pay out of its own resources amounts to certain financial intermediaries, including broker-dealers, banks, registered investment advisers, independent financial planners and retirement plan administrators, that support the sale of Shares or provide services to Fund shareholders. The amounts of these payments could be significant, and may create an incentive for the financial intermediary or its employees or associated persons to recommend or sell Shares of the Fund to you. Not all financial intermediaries receive such payments, and the amount of compensation may vary by intermediary. In some cases, such payments may be made by or funded from the resources of companies affiliated with the Distributor (including the Adviser). These payments are not reflected in the fees and expenses listed in the fee table section of the Fund's Prospectus and described above because they are not paid by the Fund.

These payments are negotiated and may be based on such factors as: the number or value of Shares that the financial intermediary sells or may sell; the value of client assets invested; the level and types of services or support furnished by the financial intermediary; or the Fund's and/or other Federated Hermes funds' relationship with the financial intermediary. These payments may be in addition to payments, as described above, made by the Fund to the financial intermediary. In connection with these payments, the financial intermediary may elevate the prominence or profile of the Fund and/or other Federated Hermes funds, within the financial intermediary's organization by, for example, placement on a list of preferred or recommended funds and/or granting the Distributor preferential or enhanced opportunities to promote the funds in various ways within the financial intermediary's organization. In addition, as discussed above in "Commissions on Certain Shares," if you purchase IS Shares through a broker acting solely as an agent on behalf of its customers, you may be required to pay a commission to the broker in an amount determined and separately disclosed to you by the broker. You can ask your financial intermediary for information about any payments it receives from the Distributor or the Fund and any services provided, as well as about fees and/or commissions it charges.

How to Purchase Shares

As described in more detail in the section entitled "How is the Fund Sold?" under the subheading "Class B Share Closure," the Fund's Class B Shares are closed to new investments by new investors and existing shareholders (excluding reinvestment of dividends and capital gains). Reinvestment of dividends and capital gains will continue uninterrupted. Please disregard any further references to purchases of Class B Shares with the exception of Class B Share exchanges. Class B Shares of the Fund may be exchanged for Class B Shares of any other Federated Hermes fund.

You may purchase Shares of the Fund any day the NYSE is open. Shares will be purchased at the NAV next calculated after your investment is received by the Fund, or its agent, in proper form. The Fund reserves the right to reject any request to purchase or exchange Shares. New investors must submit a completed New Account Form. All accounts, including those for which there is no minimum initial investment amount required, are subject to the Fund's policy on "Accounts with Low Balances" as discussed later in this Prospectus.

Where the Fund offers more than one Share class and you do not specify the class choice on your New Account Form or form of payment (e.g., Federal Reserve wire or check), you automatically will receive the A class.

For important account information, see the section "Security and Privacy Protection."

A, B, C & F Classes

You may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated Hermes fund.

IS Class

Eligible investors may purchase Shares through a financial intermediary, directly from the Fund or through an exchange from another Federated Hermes fund in the manner described above under "How is the Fund Sold?"

Where applicable, the required minimum initial investment for the IS class is generally \$1,000,000. There is no minimum subsequent investment amount.

THROUGH A FINANCIAL INTERMEDIARY

- Establish an account with the financial intermediary; and
- Submit your purchase order to the financial intermediary before the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time).

The Fund has authorized certain intermediaries to accept Share purchase orders on its behalf. When authorized intermediaries receive an order in proper form, the order is considered as being placed with the Fund, and Shares will be bought at the NAV next calculated after such an order is received by the authorized intermediary. If your financial intermediary is not an authorized intermediary, the Fund or its agent must receive the purchase order in proper form from your financial intermediary by the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time) in order for your transaction to be priced at that day's NAV. In addition, your financial intermediary must forward your payment by the prescribed trade settlement date (typically within one to three business days) to the Fund's transfer agent, State Street Bank and Trust Company ("Transfer Agent"). You will become the owner of Shares and receive dividends when your payment is received in accordance with these time frames (provided that, if payment is received in the form of a check, the check clears). If your payment is not received in accordance with these time frames, or a check does not clear, your purchase will be canceled and you could be liable for any losses, fees or expenses incurred by the Fund or the Fund's Transfer Agent.

Financial intermediaries should send payments according to the instructions in the sections "By Wire" or "By Check."

Financial intermediaries may impose higher or lower minimum investment requirements on their customers than those imposed by the Fund. Keep in mind that financial intermediaries may charge you fees for their services in connection with your Share transactions.

Shareholders are encouraged to ask their financial intermediary if they are an authorized agent for the Fund and about any fees that may be charged by the financial intermediary.

DIRECTLY FROM THE FUND

- Establish your account with the Fund by submitting a completed New Account Form; and
- Send your payment to the Fund by Federal Reserve wire or check.

You will become the owner of Shares and your Shares will be priced at the next calculated NAV after the Fund receives your wire or your check. If your check does not clear, your purchase will be canceled and you could be liable for any losses or fees incurred by the Fund or the Fund's Transfer Agent.

By Wire

To facilitate processing your order, please call the Fund before sending the wire. Send your wire to:

State Street Bank and Trust Company
Boston, MA
Dollar Amount of Wire
ABA Number 011000028
BNF: 23026552
Attention: Federated Hermes EDGEWIRE
Wire Order Number, Dealer Number or Group Number
Nominee/Institution Name
Fund Name and Number and Account Number

You cannot purchase Shares by wire on holidays when wire transfers are restricted.

By Check

Make your check payable to **The Federated Hermes Funds**, note your account number on the check, and send it to:

The Federated Hermes Funds
P.O. Box 219318
Kansas City, MO 64121-9318

If you send your check by a **private courier or overnight delivery service** that requires a street address, send it to:

The Federated Hermes Funds
430 W 7th Street
Suite 219318
Kansas City, MO 64105-1407

Payment should be made in U.S. dollars and drawn on a U.S. bank. The Fund reserves the right to reject **any** purchase request. For example, to protect against check fraud the Fund may reject any purchase request involving a check that is not made payable to **The Federated Hermes Funds** (including, but not limited to, requests to purchase Shares using third-party checks) or involving temporary checks or credit card checks.

By Direct Deposit

You may establish Payroll Deduction/Direct Deposit arrangements for investments into the Fund by either calling a Client Service Representative at 1-800-341-7400; or by completing the Payroll Deduction/Direct Deposit Form, which is available on FederatedInvestors.com under "Resources" and then "Literature and Forms," then "Forms." You will receive a confirmation when this service is available.

THROUGH AN EXCHANGE

You may purchase Fund Shares through an exchange from another Federated Hermes fund. To do this you must:

- meet any applicable shareholder eligibility requirements;
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. The Fund reserves the right to reject any request to purchase or exchange Shares. The Fund may modify or terminate the exchange privilege at any time.

A, B, C & F Classes

You may purchase Shares through an exchange from the same share class of another Federated Hermes fund.

IS Class

You may purchase Shares through an exchange from any Federated Hermes fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Shares of Federated Hermes Institutional Money Market Management, Federated Hermes Institutional Tax-Free Cash Trust, Federated Hermes Institutional Prime Obligations Fund, Federated Hermes Institutional Prime Value Obligations Fund, no-load Class A Shares and Class R Shares of any Fund.

By Online Account Services

You may access your accounts online to purchase shares through Federated Hermes' Shareholder Account Access system once you have registered for access. This is only available for accounts held directly with the Fund. Online transactions may be subject to certain limitations including limitations as to the amount of the transaction. For more information about the services available through Shareholder Account Access, please visit FederatedInvestors.com and select "Sign In" and "Access and Manage Investments," or call (800) 245-4770 to speak with a Client Service Representative.

BY SYSTEMATIC INVESTMENT PROGRAM (SIP)

Once you have opened an account, you may automatically purchase additional Shares on a regular basis by completing the SIP section of the New Account Form or by contacting the Fund or your financial intermediary. The minimum investment amount for SIPs is \$50.

BY AUTOMATED CLEARING HOUSE (ACH)

Once you have opened an account, you may purchase additional Shares through a depository institution that is an ACH member. This purchase option can be established by completing the appropriate sections of the New Account Form.

RETIREMENT INVESTMENTS

A, B, C & F Classes

You may purchase Shares as retirement investments (such as qualified plans and IRAs or transfer or rollover of assets). Call your financial intermediary or the Fund for information on retirement investments. We suggest that you discuss retirement investments with your tax adviser. You may be subject to an account fee charged by your financial intermediary.

How to Redeem and Exchange Shares

Class B Shares of the Fund may be exchanged for Class B Shares of any other Federated Hermes fund.

You should redeem or exchange Shares:

- through a financial intermediary if you purchased Shares through a financial intermediary; or
- directly from the Fund if you purchased Shares directly from the Fund.

Shares of the Fund may be redeemed for cash, or exchanged for shares of other Federated Hermes funds as described herein, on days on which the Fund computes its NAV. Redemption requests may be made by telephone or in writing.

Redemption proceeds normally are wired or mailed within one business day for each method of payment after receiving a timely request in proper form. Depending upon the method of payment, when shareholders receive redemption proceeds can differ. Payment may be delayed for up to seven days under certain circumstances (see "Limitations on Redemption Proceeds").

For important account information, see the section "Security and Privacy Protection."

THROUGH A FINANCIAL INTERMEDIARY

Submit your redemption or exchange request to your financial intermediary by the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time). The redemption amount you will receive is based upon the next calculated NAV after the Fund receives the order from your financial intermediary.

DIRECTLY FROM THE FUND

By Telephone

You may redeem or exchange Shares by simply calling the Fund at 1-800-341-7400.

If you call before the end of regular trading on the NYSE (normally 4:00 p.m. Eastern time), you will receive a redemption amount based on that day's NAV.

By Mail

You may redeem or exchange Shares by sending a written request to the Fund.

You will receive a redemption amount based on the next calculated NAV after the Fund receives your written request in proper form.

Send requests by mail to:

The Federated Hermes Funds
P.O. Box 219318
Kansas City, MO 64121-9318

Send requests by **private courier or overnight delivery service** to:

The Federated Hermes Funds
430 W 7th Street
Suite 219318
Kansas City, MO 64105-1407

All requests must include:

- Fund name and Share class, account number and account registration;
 - amount to be redeemed or exchanged;
 - signatures of all shareholders exactly as registered; and
 - **if exchanging**, the Fund name and Share class, account number and account registration into which you are exchanging.
- Call your financial intermediary or the Fund if you need special instructions.

Signature Guarantees

Signatures must be guaranteed by a financial institution which is a participant in a Medallion signature guarantee program if:

- your redemption will be sent to an address other than the address of record;
- your redemption will be sent to an address of record that was changed within the last 30 days;
- a redemption is payable to someone other than the shareholder(s) of record; or
- transferring into another fund with a different shareholder registration.

A Medallion signature guarantee is designed to protect your account from fraud. Obtain a Medallion signature guarantee from a bank or trust company, savings association, credit union or broker, dealer or securities exchange member. **A notary public cannot provide a signature guarantee.**

By Online Account Services

You may access your accounts online to redeem or exchange Shares through FederatedInvestors.com's Shareholder Account Access system once you have registered for access. Online transactions may be subject to certain limitations including limitations as to the amount of the transaction. For more information about the services available through Shareholder Account Access, please visit FederatedInvestors.com and select "Sign In" and "Access and Manage Investments," or call 1-800-245-4770 to speak with a Client Service Representative.

PAYMENT METHODS FOR REDEMPTIONS

Your redemption proceeds will be mailed by check to your address of record. The following payment options are available if you complete the appropriate section of the New Account Form or an Account Service Options Form. These payment options require a signature guarantee if they were not established when the account was opened:

- An electronic transfer to your account at a financial institution that is an ACH member; or
- Wire payment to your account at a domestic commercial bank that is a Federal Reserve System member.

METHODS THE FUND MAY USE TO MEET REDEMPTION REQUESTS

The Fund intends to pay Share redemptions in cash. To ensure that the Fund has cash to meet Share redemptions on any day, the Fund typically expects to hold a cash or cash equivalent reserve or sell portfolio securities.

In unusual or stressed circumstances, the Fund may generate cash in the following ways:

- **Inter-fund Borrowing and Lending.** The SEC has granted an exemption that permits the Fund and all other funds advised by subsidiaries of Federated Hermes (“Federated Hermes funds”) to lend and borrow money for certain temporary purposes directly to and from other Federated Hermes funds. Inter-fund borrowing and lending is permitted only: (a) to meet shareholder redemption requests; (b) to meet commitments arising from “failed” trades; and (c) for other temporary purposes. All inter-fund loans must be repaid in seven days or less.
- **Committed Line of Credit.** The Fund participates with certain other Federated Hermes funds, on a several basis, in an up to \$500,000,000 unsecured, 364-day, committed, revolving line of credit (LOC) agreement. The LOC was made available to temporarily finance the repurchase or redemption of shares of the funds, failed trades, payment of dividends, settlement of trades and for other short-term, temporary or emergency general business purposes. The Fund cannot borrow under the LOC if an inter-fund loan is outstanding.
- **Redemption in Kind.** Although the Fund intends to pay Share redemptions in cash, it reserves the right to pay the redemption price in whole or in part by an “in-kind” distribution of the Fund’s portfolio securities. Because the Fund has elected to be governed by Rule 18f-1 under the 1940 Act, the Fund is obligated to pay Share redemptions to any one shareholder in cash only up to the lesser of \$250,000 or 1% of the net assets represented by such Share class during any 90-day period. Redemptions in kind are made consistent with the procedures adopted by the Fund’s Board, which generally include distributions of a pro rata share of the Fund’s portfolio assets. Redemption in kind is not as liquid as a cash redemption. If redemption is made in kind, securities received may be subject to market risk and the shareholder could incur taxable gains and brokerage or other charges in converting the securities to cash.

LIMITATIONS ON REDEMPTION PROCEEDS

Redemption proceeds normally are wired or mailed within one business day after receiving a request in proper form. Payment may be delayed for up to seven days:

- to allow your purchase to clear (as discussed below);
- during periods of market volatility;
- when a shareholder’s trade activity or amount adversely impacts the Fund’s ability to manage its assets; or
- during any period when the Federal Reserve wire or applicable Federal Reserve banks are closed, other than customary weekend and holiday closings.

If you request a redemption of Shares recently purchased by check (including a cashier’s check or certified check), money order, bank draft or ACH, your redemption proceeds may not be made available for up to seven calendar days to allow the Fund to collect payment on the instrument used to purchase such Shares. If the purchase instrument does not clear, your purchase order will be canceled and you will be responsible for any losses incurred by the Fund as a result of your canceled order.

In addition, the right of redemption may be suspended, or the payment of proceeds may be delayed (including beyond seven days), during any period:

- when the NYSE is closed, other than customary weekend and holiday closings;
- when trading on the NYSE is restricted, as determined by the SEC;
- in which an emergency exists, as determined by the SEC, so that disposal of the Fund’s investments or determination of its NAV is not reasonably practicable; or
- as the SEC may by order permit for the protection of Fund shareholders.

You will not accrue interest or dividends on uncashed redemption checks from the Fund when checks are undeliverable and returned to the Fund.

REDEMPTIONS FROM RETIREMENT ACCOUNTS

A, B, C & F Classes

In the absence of your specific instructions, 10% of the value of your redemption from a retirement account in the Fund may be withheld for taxes. This withholding only applies to certain types of retirement accounts.

EXCHANGE PRIVILEGE

You may exchange Shares of the Fund. To do this, you must:

- meet any applicable shareholder eligibility requirements;
- ensure that the account registrations are identical;
- meet any applicable minimum initial investment requirements; and
- receive a prospectus for the fund into which you wish to exchange.

An exchange is treated as a redemption and a subsequent purchase, and is a taxable transaction. The Fund reserves the right to reject any request to purchase or exchange Shares. The Fund may modify or terminate the exchange privilege at any time.

In addition, the Fund may terminate your exchange privilege if your exchange activity is found to be excessive under the Fund's frequent trading policies. See "Account and Share Information – Frequent Trading Policies."

Financial intermediaries may have different policies and procedures regarding the availability of intra-fund exchanges ("automatic exchanges"). These exchanges which are directed by the financial intermediary and not the Fund are discussed in Appendix B to this Prospectus.

A, B, C & F Classes

You may exchange Shares into shares of the same class of another Federated Hermes fund.

IS Class

You may exchange Shares of the Fund for shares of any Federated Hermes fund or share class that does not have a stated sales charge or contingent deferred sales charge, except Shares of Federated Hermes Institutional Money Market Management, Federated Hermes Institutional Tax-Free Cash Trust, Federated Hermes Institutional Prime Obligations Fund, Federated Hermes Institutional Prime Value Obligations Fund, no-load Class A Shares and Class R Shares of any Fund.

SYSTEMATIC WITHDRAWAL/EXCHANGE PROGRAM

You may automatically redeem or exchange Shares. The minimum amount for all new or revised systematic redemptions or exchanges of Shares is \$50 per transaction per fund. Complete the appropriate section of the New Account Form or an Account Service Options Form or contact your financial intermediary or the Fund. Your account value must meet the minimum initial investment amount at the time the program is established. This program may reduce, and eventually deplete, your account. Payments should not be considered yield or income.

Generally, it is not advisable to continue to purchase Shares subject to a sales charge while redeeming Shares using this program.

Systematic Withdrawal Program (SWP) on B Class

You will not be charged a CDSC on SWP redemptions if:

- you redeem 12% or less of your account value in a single year;
- you reinvest all dividends and capital gains distributions;
- your account has at least a \$10,000 balance when you establish the SWP (You cannot aggregate multiple B class accounts to meet this minimum balance.); and
- for all B class accounts established on or after August 2, 2010, the minimum SWP redemption amount is \$50 per transaction, per fund, including transactions that qualify for a CDSC waiver as outlined in this Prospectus.

You will be subject to a CDSC on redemption amounts that exceed the 12% annual limit. In measuring the redemption percentage, your account is valued when you establish the SWP and then annually at calendar year-end. You can redeem monthly, quarterly or semi-annually.

ADDITIONAL CONDITIONS

Telephone Transactions

The Fund will record your telephone instructions. If the Fund does not follow reasonable procedures, it may be liable for losses due to unauthorized or fraudulent telephone instructions.

Share Certificates

The Fund does not issue share certificates.

Security and Privacy Protection

ONLINE ACCOUNT AND TELEPHONE ACCESS SECURITY

Federated Hermes will not be responsible for losses that result from unauthorized transactions, unless Federated Hermes does not follow procedures designed to verify your identity. When initiating a transaction by telephone or online, shareholders should be aware that any person with access to your account and other personal information including PINs (Personal Identification Numbers) may be able to submit instructions by telephone or online. Shareholders are responsible for protecting their identity by using strong usernames and complex passwords which utilize combinations of mixed case letters, numbers and symbols, and change passwords and PINs frequently.

Using [FederatedInvestors.com](https://www.federatedinvestors.com)'s Account Access website means you are consenting to sending and receiving personal financial information over the Internet, so you should be sure you are comfortable with the risks. You will be required to accept the terms of an online agreement and to establish and utilize a password in order to access online account services. The Transfer Agent has adopted security procedures to confirm that internet instructions are genuine. The Transfer Agent will also send you written confirmation of share transactions. The Transfer Agent, the Fund and any of its affiliates will not be liable for losses or expenses that occur from fraudulent Internet instructions reasonably believed to be genuine.

The Transfer Agent or the Fund will employ reasonable procedures to confirm that telephone transaction requests are genuine, which may include recording calls, asking the caller to provide certain personal identification information, sending you written confirmation, or requiring other confirmation security procedures. The Transfer Agent, the Fund and any of its affiliates will not be liable for relying on instructions submitted by telephone that the Fund reasonably believes to be genuine.

ANTI-MONEY LAUNDERING COMPLIANCE

To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify, and record information that identifies each new customer who opens a Fund account and to determine whether such person's name appears on governmental lists of known or suspected terrorists or terrorist organizations. Pursuant to the requirements under the USA PATRIOT Act, the information obtained will be used for compliance with the USA PATRIOT Act or other applicable laws, regulations and rules in connection with money laundering, terrorism or other illicit activities.

Information required includes your name, residential or business address, date of birth (for an individual), and other information that identifies you, including your social security number, tax identification number or other identifying number. The Fund cannot waive these requirements. The Fund is required by law to reject your Account Application if the required information is not provided. If, after reasonable effort, the Fund is unable to verify your identity or that of any other person(s) authorized to act on your behalf, or believes it has identified potentially suspicious, fraudulent or criminal activity, the Fund reserves the right to close your account and redeem your shares at the next calculated NAV without your permission. Any applicable contingent deferred sales charge (CDSC) will be assessed upon redemption of your shares.

The Fund has a strict policy designed to protect the privacy of your personal information. A copy of Federated Hermes' privacy policy notice was given to you at the time you opened your account. The Fund sends a copy of the privacy notice to you annually. You may also obtain the privacy notice by calling the Fund, or through [FederatedInvestors.com](https://www.federatedinvestors.com).

Account and Share Information

CONFIRMATIONS AND ACCOUNT STATEMENTS

You will receive confirmation of purchases, redemptions and exchanges (except for systematic transactions). In addition, you will receive periodic statements reporting all account activity, including systematic transactions, dividends and capital gains paid.

DIVIDENDS AND CAPITAL GAINS

The Fund declares and pays any dividends monthly to shareholders. Dividends are paid to all shareholders invested in the Fund on the record date. The record date is the date on which a shareholder must officially own Shares in order to earn a dividend.

In addition, the Fund pays any capital gains at least annually, and may make such special distributions of dividends and capital gains as may be necessary to meet applicable regulatory requirements. Your dividends and capital gains distributions will be automatically reinvested in additional Shares without a sales charge, unless you elect cash payments. Dividends may also be reinvested without sales charges in shares of any class of any other Federated Hermes fund of which you are already a shareholder.

If you purchase Shares just before the record date for a dividend or capital gain distribution, you will pay the full price for the Shares and then receive a portion of the price back in the form of a taxable distribution, whether or not you reinvest the distribution in Shares. Therefore, you should consider the tax implications of purchasing Shares shortly before the record date for a dividend or capital gain. Contact your financial intermediary or the Fund for information concerning when dividends and capital gains will be paid.

Under the federal securities laws, the Fund is required to provide a notice to shareholders regarding the source of distributions made by the Fund if such distributions are from sources other than ordinary investment income. In addition, important information regarding the Fund's distributions, if applicable, is available via the link to the Fund and share class name at [Federatedinvestors.com/FundInformation](https://www.federatedinvestors.com/FundInformation).

SMALL DISTRIBUTIONS AND UNCASHED CHECKS

Generally, dividend and/or capital gain distributions payable by check in an amount of less than \$25 will be automatically reinvested in additional shares. This policy does not apply if you have elected to receive cash distributions that are directly deposited into your bank account via wire or ACH.

Additionally, if one or more dividend or capital gain distribution checks are returned as “undeliverable,” or remain uncashed for 180 days, all subsequent dividend and capital gain distributions will be reinvested in additional shares. No interest will accrue on amounts represented by uncashed distribution checks. For questions on whether reinvestment applies to your distributions, please contact a Client Service Representative at 1-800-341-7400.

Certain states, including the state of Texas, have laws that allow shareholders to designate a representative to receive abandoned or unclaimed property (“escheatment”) notifications by completing and submitting a designation form that generally can be found on the official state website. If a shareholder resides in an applicable state, and elects to designate a representative to receive escheatment notifications, escheatment notices generally will be delivered as required by such state laws, including, as applicable, to both the shareholder and the designated representative. A completed designation form may be mailed to the Fund (if Shares are held directly with the Fund) or to the shareholder’s financial intermediary (if Shares are not held directly with the Fund). Shareholders should refer to relevant state law for the shareholder’s specific rights and responsibilities under his or her state’s escheatment law(s), which can generally be found on a state’s official website.

ACCOUNTS WITH LOW BALANCES

Federated Hermes reserves the right to close accounts if redemptions or exchanges cause the account balance to fall below:

- \$1,500 for the A, B, C and F classes (or in the case of IRAs, \$250); and
- \$25,000 for the IS class.

Before an account is closed, you will be notified and allowed at least 30 days to purchase additional Shares to meet the minimum.

TAX INFORMATION

The Fund sends an IRS Form 1099 and an annual statement of your account activity to assist you in completing your federal, state and local tax returns. It is anticipated that Fund distributions will be primarily dividends that are partially exempt from federal income tax and partially eligible for any applicable reduced federal income tax-rate that may be available with respect to qualified dividends, although a portion of the Fund’s dividends may not be exempt or advantaged. Shareholders should note the federal income tax laws may change, and any exemption or reduced income tax rate may change or be eliminated. Dividends also may be subject to state and local taxes.

It is the understanding of the Adviser that, to obtain the full advantage of any applicable reduced federal income tax rate that may be available with respect to qualified dividends paid by the Fund, it may be necessary for a shareholder to hold Shares of the Fund for at least some minimum period of time. Shareholders should consult their tax advisor regarding any applicable holding period requirements. If any federal exemption or reduced income tax rate is eliminated, dividends from the Fund will be taxable at ordinary federal income tax rates. The Fund may realize and distribute capital gains from time to time as a result of the Fund’s normal investment activities. Distributions of net short-term capital gains are taxable to you as ordinary income. Distributions of net long-term capital gains are taxable to you as long-term capital gains regardless of how long you have owned your Shares. Fund distributions of non-exempt dividends and capital gains are taxable whether paid in cash or reinvested in the Fund. Dividends are taxable at different rates depending on the source of the dividend income. Redemptions and exchanges are taxable sales. Please consult your tax adviser regarding your federal, state and local taxation.

FREQUENT TRADING POLICIES

Frequent or short-term trading into and out of the Fund can have adverse consequences for the Fund and shareholders who use the Fund as a long-term investment vehicle. Such trading in significant amounts can disrupt the Fund’s investment strategies (e.g., by requiring it to sell investments at inopportune times or maintain excessive short-term or cash positions to support redemptions), increase brokerage and administrative costs and affect the timing and amount of taxable gains distributed by the Fund. Investors engaged in such trading may also seek to profit by anticipating changes in the Fund’s NAV in advance of the time as of which NAV is calculated.

The Fund’s Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund’s Shares. The Fund’s fair valuation procedures are intended in part to discourage short-term trading strategies by reducing the potential for these strategies to succeed. See “What Do Shares Cost?” The Fund also monitors trading in Fund Shares in an effort to identify disruptive trading activity. The Fund monitors trades into and out of the Fund within a period of 30 days or less. The Fund may also monitor trades into and out of the Fund for potentially disruptive trading

activity over periods longer than 30 days. The size of Share transactions subject to monitoring varies. Where it is determined that a shareholder has exceeded the detection amounts twice within a period of 12 months, the Fund will temporarily prohibit the shareholder from making further purchases or exchanges of Fund Shares. If the shareholder continues to exceed the detection amounts for specified periods, the Fund will impose lengthier trading restrictions on the shareholder, up to and including permanently prohibiting the shareholder from making any further purchases or exchanges of Fund Shares. Whether or not the specific monitoring limits are exceeded, the Fund's management or the Adviser may determine from the amount, frequency or pattern of purchases and redemptions or exchanges that a shareholder is engaged in excessive trading that is or could be detrimental to the Fund and other shareholders and may prohibit the shareholder from making further purchases or exchanges of Fund Shares. No matter how the Fund defines its limits on frequent trading of Fund Shares, other purchases and sales of Fund Shares may have adverse effects on the management of the Fund's portfolio and its performance.

The Fund's frequent trading restrictions do not apply to purchases and sales of Fund Shares by other Federated Hermes funds. These funds impose the same frequent trading restrictions as the Fund at their shareholder level. In addition, allocation changes of the investing Federated Hermes fund are monitored, and the managers of the recipient fund must determine that there is no disruption to their management activity. The intent of this exception is to allow investing fund managers to accommodate cash flows and other activity that result from non-abusive trading in the investing fund, without being stopped from such trading because the aggregate of such trades exceeds the monitoring limits. Nonetheless, as with any trading in Fund Shares, purchases and redemptions of Fund Shares by other Federated Hermes funds could adversely affect the management of the Fund's portfolio and its performance.

The Fund will not restrict transactions made on a non-discretionary basis by certain asset allocation programs, wrap programs, fund of funds, collective funds or other similar accounts that have been pre-approved by Federated Hermes ("Approved Accounts"). The Fund will continue to monitor transactions by the Approved Accounts and will seek to limit or restrict even non-discretionary transactions by Approved Accounts that are determined to be disruptive or harmful to the Fund.

The Fund's objective is that its restrictions on short-term trading should apply to all shareholders that are subject to the restrictions, regardless of the number or type of accounts in which Shares are held. However, the Fund anticipates that limitations on its ability to identify trading activity to specific shareholders, including where Shares are held through intermediaries in multiple or omnibus accounts, will mean that these restrictions may not be able to be applied uniformly in all cases.

Other funds in the Federated Hermes family of funds may impose different monitoring policies or in some cases, may not monitor for frequent or short-term trading. Under normal market conditions such monitoring policies are designed to protect the funds being monitored and their shareholders and the operation of such policies and shareholder investments under such monitoring are not expected to have materially adverse impact on the Federated Hermes funds or their shareholders. If you plan to exchange your fund shares for shares of another Federated Hermes fund, please read the prospectus of that other Federated Hermes fund for more information.

PORTFOLIO HOLDINGS INFORMATION

Information concerning the Fund's portfolio holdings is available via the link to the Fund and share class name at [FederatedInvestors.com/FundInformation](https://www.federatedinvestors.com/FundInformation). A complete listing of the Fund's portfolio holdings as of the end of each month is posted on the website 15 days (or the next business day) after the end of the month and remains posted for six months thereafter. Summary portfolio composition information as of the close of each month is posted on the website 15 days (or the next business day) after month-end and remains posted until replaced by the information for the succeeding month. The summary portfolio composition information may include identification of the Fund's top 10 equity holdings, top five fixed-income holdings, equity and fixed-income portfolio profile statistics (such as weighted medium market cap and weighted average effective duration), and percentage breakdowns of the portfolio by credit quality, asset class and sector.

You may also access portfolio information as of the end of the Fund's fiscal quarters via the link to the Fund and share class name at [FederatedInvestors.com](https://www.federatedinvestors.com). The Fund's Annual and Semi-Annual Shareholder Reports contain complete listings of the Fund's portfolio holdings as of the end of the Fund's second and fourth fiscal quarters. Fiscal quarter information is made available on the website within 70 days after the end of the fiscal quarter. This information is also available in reports filed with the SEC at the SEC's website at [sec.gov](https://www.sec.gov).

Each fiscal quarter, the Fund will file with the SEC a complete schedule of its monthly portfolio holdings on "Form N-PORT." The Fund's holdings as of the end of the third month of every fiscal quarter, as reported on Form N-PORT, will be publicly available on the SEC's website at [sec.gov](https://www.sec.gov) within 60 days of the end of the fiscal quarter upon filing. You may also access this information via the link to the Fund and share class name at [FederatedInvestors.com](https://www.federatedinvestors.com).

In addition, from time to time (for example, during periods of unusual market conditions), additional information regarding the Fund's portfolio holdings and/or composition may be posted to FederatedInvestors.com. If and when such information is posted, its availability will be noted on, and the information will be accessible from, the home page of the website.

Who Manages the Fund?

The Board governs the Fund. The Board selects and oversees the Adviser, Federated Equity Management Company of Pennsylvania. The Adviser manages the Fund's assets, including buying and selling portfolio securities. Federated Advisory Services Company (FASC), an affiliate of the Adviser, provides research, quantitative analysis, equity trading and transaction settlement and certain support services to the Adviser. The fee for these services is paid by the Adviser and not by the Fund.

The address of the Adviser and FASC is 1001 Liberty Avenue, Pittsburgh, PA 15222-3779.

The Adviser has delegated daily management of some or all of the Fund assets to the Sub-Adviser, Federated Investment Management Company, who is paid by the Adviser and not by the Fund, based on the portion of securities the Sub-Adviser manages. The Sub-Adviser's address is 1001 Liberty Avenue, Pittsburgh, PA 15222-3779.

The Adviser, Sub-Adviser and other subsidiaries of Federated Hermes advise approximately 135 equity, fixed-income and money market mutual funds as well as a variety of other pooled investment vehicles, private investment companies and customized separately managed accounts (including non-U.S./offshore funds) which totaled approximately \$575.9 billion in assets as of December 31, 2019. Federated Hermes was established in 1955 as Federated Investors, Inc. and is one of the largest investment managers in the United States with nearly 1,900 employees. Federated Hermes provides investment products to approximately 11,500 investment professionals and institutions.

The Adviser advises approximately 16 equity mutual funds (including sub-advised funds) which totaled approximately \$17.7 billion in assets as of December 31, 2019.

The Sub-Adviser advises approximately 75 fixed-income and money market mutual funds (including sub-advised funds) and private investment companies, which totaled approximately \$344.3 billion in assets as of December 31, 2019.

PORTFOLIO MANAGEMENT INFORMATION

Linda Bakhshian and Michael Jura are the portfolio managers responsible for managing the Fund's equity portfolio. R.J. Gallo and Ann Ferentino are the portfolio managers responsible for managing the Fund's fixed-income portfolio.

Linda Bakhshian

Linda Bakhshian, CA and CPA, Senior Portfolio Manager, has been the Fund's portfolio manager since November of 2009.

Ms. Bakhshian is head of the Value Income Team and is responsible for the investment strategy, asset allocation and equity security selection of the Fund. She has been with the Adviser or an affiliate since 2007; has worked in investment management since 2002; and has managed investment portfolios since 2009. Education: B.B., University of New England (Australia).

Michael Jura

Michael Jura, Portfolio Manager, has been the Fund's portfolio manager since December of 2020. Mr. Jura is jointly responsible for the equity security selection of the Fund. He has been with the Adviser or an affiliate since 2012; has worked in investment management since 2012; and has managed investment portfolios since 2020. Education: B.S., Carnegie Mellon University; M.B.A., Tepper School of Business, Carnegie Mellon University.

R.J. Gallo

R.J. Gallo, CFA, Senior Portfolio Manager, has been the Fund's portfolio manager since its inception in September of 2003.

Mr. Gallo is head of the Municipal Bond Investment Group and Chairman of the Duration Management Committee. He has primary responsibility for investment strategy and security selection in relation to the fixed income portion of the Fund. Mr. Gallo has been with the Adviser or an affiliate since 2000; has worked in investment management since 1996; and has managed investment portfolios since 2002. Education: B.A., University of Michigan; M.P.A., Princeton University.

Ann Ferentino

Ann Ferentino, CFA, Portfolio Manager, has been the Fund's portfolio manager since December of 2013.

Ms. Ferentino is jointly responsible for the fixed-income security selection of the Fund. She has been with the Adviser or an affiliate since 1995; has worked in investment management since 2000; and has managed investment portfolios since 2013. Education: B.S., University of Dayton; M.B.A., University of Pittsburgh.

The Fund's SAI provides additional information about the Portfolio Managers' compensation, management of other accounts and ownership of securities in the Fund.

ADVISORY FEES

The Fund's investment advisory contract provides for payment to the Adviser of an annual investment advisory fee of 0.65% of the Fund's average daily net assets. The Adviser may voluntarily waive a portion of its fee or reimburse the Fund for certain operating expenses. The Adviser and its affiliates have also agreed to certain "Fee Limits" as described in the footnote to the "Risk/Return Summary: Fees and Expenses" table found in the "Fund Summary" section of the Prospectus.

A discussion of the Board's review of the Fund's investment advisory contract is available in the Fund's annual and semi-annual shareholder reports for the periods ended October 31 and April 30, respectively.

Financial Information

FINANCIAL HIGHLIGHTS

The Financial Highlights will help you understand the Fund's financial performance for its past five fiscal years. Some of the information is presented on a per Share basis. Total returns represent the rate an investor would have earned (or lost) on an investment in the Fund, assuming reinvestment of any dividends and capital gains.

This information has been audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the Fund's audited financial statements, is included in the Annual Report.

Financial Highlights – Class A Shares

(For a Share Outstanding Throughout Each Period)

Year Ended October 31	2020	2019	2018	2017	2016
Net Asset Value, Beginning of Period	\$12.98	\$13.08	\$13.36	\$12.41	\$12.25
Income From Investment Operations:					
Net investment income	0.31 ¹	0.30	0.29	0.29	0.32
Net realized and unrealized gain (loss)	0.04	0.56	(0.28)	0.95	0.16
TOTAL FROM INVESTMENT OPERATIONS	0.35	0.86	0.01	1.24	0.48
Less Distributions:					
Distributions from net investment income	(0.31)	(0.30)	(0.29)	(0.29)	(0.32)
Distributions from net realized gain	—	(0.66)	—	—	—
TOTAL DISTRIBUTIONS	(0.31)	(0.96)	(0.29)	(0.29)	(0.32)
Net Asset Value, End of Period	\$13.02	\$12.98	\$13.08	\$13.36	\$12.41
Total Return²	2.73%	6.99%	0.04%	10.13%	4.02%

Ratios to Average Net Assets:

Net expenses ³	1.00% ⁴	1.00% ⁴	1.00% ⁴	1.00%	1.00%
Net investment income	2.40%	2.34%	2.19%	2.28%	2.65%
Expense waiver/reimbursement ⁵	0.07%	0.08%	0.07%	0.07%	0.07%

Supplemental Data:

Net assets, end of period (000 omitted)	\$577,400	\$610,305	\$638,891	\$625,239	\$638,593
Portfolio turnover	68%	50%	87%	71%	55%

1 Per share number has been calculated using the average shares method.

2 Based on net asset value, which does not reflect the sales charge, redemption fee or contingent deferred sales charge, if applicable.

3 Amount does not reflect net expenses incurred by investment companies in which the Fund may invest.

4 The net expense ratio is calculated without reduction for expense offset arrangements. The net expense ratio is 1.00% for the years ended October 31, 2020, 2019 and 2018, respectively, after taking into account these expense reductions.

5 This expense decrease is reflected in both the net expense and net investment income ratios shown above. Amount does not reflect expense waiver/reimbursement recorded by investment companies in which the Fund may invest.

Further information about the Fund's performance is contained in the Fund's Annual Report, dated October 31, 2020, which can be obtained free of charge.

Appendix A: Hypothetical Investment and Expense Information

The following charts provide additional hypothetical information about the effect of the Fund's expenses, including investment advisory fees and other Fund costs, on the Fund's assumed returns over a 10-year period. Each chart shows the estimated expenses that would be incurred in respect of a hypothetical investment of \$10,000, assuming a 5% return each year, and no redemption of Shares. Each chart also assumes that the Fund's annual expense ratio stays the same throughout the 10-year period (except the B class, which converts to the A class after you have held them for eight years) and that all dividends and distributions are reinvested. The annual expense ratios used in each chart are the same as stated in the "Fees and Expenses" table of this Prospectus (and thus may not reflect any fee waiver or expense reimbursement currently in effect). The maximum amount of any sales charge that might be imposed on the *purchase* of Shares (and deducted from the hypothetical initial investment of \$10,000; the "Front-End Sales Charge") is reflected in the "Hypothetical Expenses" column. The hypothetical investment information does not reflect the effect of charges (if any) normally applicable to *redemptions* of Shares (e.g., deferred sales charges, redemption fees). Mutual fund returns, as well as fees and expenses, may fluctuate over time, and your actual investment returns and total expenses may be higher or lower than those shown below.

FEDERATED HERMES MUNI AND STOCK ADVANTAGE FUND - A CLASS

Appendix B: Sales Charge Waivers and Exchange Features for Shareholders Purchasing Through Certain Financial Intermediaries

The term “fund family,” used herein, shall refer to the Federated Hermes mutual funds.

AMERIPRISE FINANCIAL

CLASS A SHARES FRONT-END SALES CHARGE WAIVERS AVAILABLE AT AMERIPRISE FINANCIAL:

The following information applies to Class A shares purchases if you have an account with or otherwise purchase Fund shares through Ameriprise Financial:

Effective January 15, 2021, shareholders purchasing Fund shares through an Ameriprise Financial retail brokerage account are eligible for the following front-end sales charge waivers, which may differ from those disclosed elsewhere in this Fund’s prospectus or SAI:

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same Fund (but not any other fund within the same fund family).
- Shares exchanged from Class C shares of the same fund in the month of or following the 7-year anniversary of the purchase date. To the extent that this prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares or conversion of Class C shares following a shorter holding period, that waiver will apply.
- Employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise financial advisor and/or the advisor’s spouse, advisor’s lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor’s lineal descendant (son, step-son, daughter, step-daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e., Rights of Reinstatement).

ROBERT W. BAIRD & CO., INC.

Effective June 15, 2020, shareholders purchasing Fund shares through a Baird platform or account will only be eligible for the following sales charge waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or the SAI.

Front-End Sales Charge Waivers on Investors A-shares Available at Baird

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing share of the same fund;
- Share purchase by employees and registered representatives of Baird or its affiliate and their family members as designated by Baird;
- Shares purchase from the proceeds of redemptions within the same fund family, provided: (1) the repurchase occurs within 90 days following the redemption; (2) the redemption and purchase occur in the same accounts; and (3) redeemed shares were subject to a front-end or deferred sales charge (known as rights of reinstatement);
- Class C (i.e., level-load) shares that are no longer subject to a CDSC and are exchanged to Class A shares (or the appropriate share class) of the same fund pursuant to Baird’s intra-fund share class policies and procedures;
- Employer-sponsored retirement plans or charitable accounts in a transactional brokerage account at Baird, including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.

CDSC Waivers on Investor A and C Shares Available at Baird

- Shares sold upon the death or disability of the shareholder;
- Shares sold as part of a systematic withdrawal plan as described in the Fund’s Prospectus;

- Shares bought due to returns of excess contributions from an IRA Account;
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code;
- Shares sold to pay Baird fees but only if the transaction is initiated by Baird;
- Shares acquired through a right of reinstatement.

Front-End Sales Charge Discounts Available at Baird: Breakpoints and/or Rights of Accumulations

- Breakpoints as described in this prospectus;
- Rights of accumulations which entitles shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Baird. Eligible fund family assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets;
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases within a fund family through Baird, over a 13-month period of time.

EDWARD JONES

Effective on or after May 1, 2020, shareholders purchasing Fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge waivers (front-end sales charge waivers and contingent deferred sales charge (CDSC), or back-end sales charge, waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of fund family or other facts qualifying the purchaser for waivers or discounts. Edward Jones can ask for documentation of such circumstance.

Front-End Sales Load Waivers on Class A and F Shares Available at Edward Jones

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and their family members who are in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.
- Shares purchased in an Edward Jones fee-based program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased from the proceeds of redeemed shares of the same fund family so long as the following conditions are met: (1) the proceeds are from the sale of shares within 60 days of the purchase; and (2) the sale and purchase are made in the same share class and the same account or the purchase is made in an individual retirement account with proceeds from liquidations in a non-retirement account.
- Shares exchanged into Class A shares from another share Class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84th month following the anniversary of the purchase date or earlier at the discretion of Edward Jones. Edward Jones will be responsible for any remaining CDSC due to the fund company, if applicable.

CDSC Waivers on A, B, C and F Shares Available at Edward Jones

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder will be responsible to pay the CDSC except in the following conditions:

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan (limited to up to 10% per year of the account value).
- Return of excess contributions from an Individual Retirement Account (IRA).
- Shares sold as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares sold to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable.
- Shares acquired through a right of reinstatement.

FRONT-END LOAD DISCOUNTS AVAILABLE AT EDWARD JONES:

Rights of Accumulation (ROA)

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except any money market funds and retirement plan share classes) of the fund family held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations (“pricing groups”). This includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible fund family assets in the rights of accumulation calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation.
- ROA is determined by calculating the higher of cost or market value (current shares x NAV).

Letter of Intent (LOI)

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying his or her financial advisor of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not covered under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.

OTHER IMPORTANT INFORMATION

Minimum Purchase Amounts

1. \$250 initial purchase minimum
2. \$50 subsequent purchase minimum

Minimum Balances

3. Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:
 1. A fee-based account held on an Edward Jones platform
 2. A 529 account held on an Edward Jones platform
 3. An account with an active systematic investment plan or letter of intent (LOI)

Changing Share Classes

4. At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder’s holdings in a fund to Class A shares.

JANNEY MONTGOMERY SCOTT LLC

Effective May 1, 2020, if you purchase or redeem Fund shares through a Janney Montgomery Scott LLC (“Janney”) brokerage account, you will be eligible for the following load waivers (front-end sales charge waivers and contingent deferred sales charge (CDSC), or back-end sales charge, waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s Prospectus or SAI.

Front-end sales charge waivers on Class A Shares available at Janney

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).
- Shares purchased by employees and registered representatives of Janney or its affiliates and their family members as designated by Janney.
- Shares purchased from the proceeds of redemptions within the same fund family, provided: (1) the repurchase occurs within ninety (90) days following the redemption; (2) the redemption and purchase occur in the same account; and (3) redeemed shares were subject to a front-end or deferred sales load (i.e., right of reinstatement).
- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans.

- Shares acquired through a right of reinstatement.
- Class C shares that are no longer subject to a contingent deferred sales charge and are exchanged to Class A shares (or the appropriate share class) of the same fund pursuant to Janney’s intra-fund share class policies and procedures.

CDSC Waivers on Class A and C Shares available at Janney

- Shares sold upon the death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund’s Prospectus.
- Shares purchased in connection with a return of excess contributions from an IRA account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares sold to pay Janney fees but only if the transaction is initiated by Janney.
- Shares acquired through a right of reinstatement.
- Shares exchanged into the same share class of a different Federated Hermes fund, if the shares were held for the applicable CDSC holding period (the holding period on the shares purchased in the exchange will include the holding period of the shares sold in the exchange).

Front-end sales charge discounts available at Janney: Breakpoints, Rights of Accumulation, and/or Letters of Intent

- Breakpoints as described in the fund’s Prospectus.
- Rights of accumulation (“ROA”), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser’s household at Janney. Eligible fund family assets not held at Janney may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Janney may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

MERRILL LYNCH

Shareholders purchasing Fund shares through a Merrill Lynch platform or account will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund’s prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at Merrill Lynch

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan;
- Shares purchased by a 529 Plan (does not include 529 Plan units or 529-specific share classes or equivalents);
- Shares purchased through a Merrill Lynch affiliated investment advisory program or exchanged due to the holdings moving from the program;
- Shares exchanged due to the holdings moving from a Merrill Lynch affiliated investment advisory program to a Merrill Lynch brokerage (non-advisory) account pursuant to Merrill Lynch’s policies relating to sales load discounts and waivers;
- Shares purchased by third party investment advisors on behalf of their advisory clients through Merrill Lynch’s platform;
- Shares of funds purchased through the Merrill Edge Self-Directed platform (if applicable);
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family);
- Shares exchanged from Class C (i.e., level-load) shares of the same fund pursuant to Merrill Lynch’s policies relating to sales load discounts and waivers;
- Employees and registered representatives of Merrill Lynch or its affiliates and their family members;
- Directors or Trustees of the Fund, and employees of the Fund’s investment adviser or any of its affiliates, as described in the prospectus;

- Eligible shares purchased from the proceeds of redemptions within the same fund family, provided: (1) the repurchase occurs within 90 days following the redemption; (2) the redemption and purchase occur in the same account; and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement). Automated transactions (i.e., systematic purchases and withdrawals) and purchases made after shares are automatically sold to pay Merrill Lynch's account maintenance fees are not eligible for reinstatement.

CDSC Waivers on A, B and C Shares available at Merrill Lynch

- Death or disability of the shareholder;
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus;
- Return of excess contributions from an IRA Account;
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code;
- Shares sold to pay Merrill Lynch fees but only if the transaction is initiated by Merrill Lynch;
- Shares acquired through a right of reinstatement;
- Shares held in retirement brokerage accounts, that are exchanged for a lower cost share class due to transfer to certain fee based accounts or platforms (applicable to A and C shares only);
- Class A Shares received through an exchange due to the holdings moving from a Merrill Lynch affiliated investment advisory program to a Merrill Lynch brokerage (non-advisory) account pursuant to Merrill Lynch's policies relating to sales load discounts and waivers.

Front-end load Discounts Available at Merrill Lynch:

Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus;
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts as described in the Fund's prospectus will be automatically calculated based on the aggregated holding of fund family assets held by accounts (including 529 program holdings, where applicable) within the purchaser's household at Merrill Lynch. Eligible fund family assets not held at Merrill Lynch may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets;
- Letters of Intent (LOI) which allow for breakpoint discounts based on anticipated purchases within a fund family, through Merrill Lynch, over a 13-month period of time (if applicable).

MORGAN STANLEY SMITH BARNEY

Shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

Front-End Sales Charge Waivers on Class A Shares Available at Morgan Stanley Wealth Management

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans;
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules;
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund;
- Shares purchased through a Morgan Stanley self-directed brokerage account;
- Class C (i.e., level-load) shares that are no longer subject to a contingent deferred sales charge and are exchanged to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's intra-fund share class exchange program;
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.

OPPENHEIMER & CO., INC.

Effective May 1, 2020, shareholders purchasing Fund shares through an Oppenheimer & Co., Inc. (OPCO) platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan
- Shares purchased by or through a 529 Plan
- Shares purchased through an OPCO affiliated investment advisory program
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund (but not any other fund within the fund family)
- Shares purchased from the proceeds of redemptions within the same fund family, provided: (1) the repurchase occurs within 90 days following the redemption; (2) the redemption and purchase occur in the same account; and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C shares will have their shares automatically exchanged at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the automatic exchange is in line with the policies and procedures of OPCO
- Employees and registered representatives of OPCO or its affiliates and their family members
- Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus

CDSC Waivers on A, B and C Shares available at OPCO

- Death or disability of the shareholder
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus
- Return of excess contributions from an IRA Account
- Shares sold as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO
- Shares acquired through a right of reinstatement

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.
- Rights of Accumulation (ROA), which entitle shareholders to breakpoint discounts, will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at OPCO. Eligible fund family assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets

RAYMOND JAMES & ASSOCIATES, INC., RAYMOND JAMES FINANCIAL SERVICES, INC. AND EACH ENTITY'S AFFILIATES ("RAYMOND JAMES")

Effective March 1, 2019, shareholders purchasing and redeeming Fund shares through a Raymond James platform or account, or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-End Sales Load Waivers on Class A Shares Available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains and dividend distributions.
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided: (1) the repurchase occurs within 90 days following the redemption; (2) the redemption and purchase occur in the same account; and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).
- A shareholder in the Fund's Class C shares will have their shares automatically exchanged at net asset value to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the automatic exchange is in line with the policies and procedures of Raymond James.

CDSC Waivers on A, B and C Shares Available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the fund's prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-End Load Discounts Available at Raymond James: Breakpoints, Rights of Accumulation, and/or Letters of Intent

- Breakpoints as described in this prospectus;
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of Intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

STIFEL, NICOLAUS & COMPANY, INCORPORATED

Effective July 1, 2020, shareholders purchasing Fund shares through a Stifel, Nicolaus & Company, Incorporated ("Stifel") platform or account or who own shares for which Stifel or an affiliate is the broker-dealer of record are eligible for the following additional sales charge waiver.

Front-End Sales Load Waiver on Class A Shares

- Class C shares that have been held for more than seven (7) years will be converted to Class A shares of the same Fund pursuant to Stifel's policies and procedures
- All other sales charge waivers and reductions described elsewhere in the Fund's Prospectus or SAI still apply.

An SAI dated December 31, 2020, is incorporated by reference into this Prospectus. Additional information about the Fund and its investments is contained in the Fund's SAI and Annual and Semi-Annual Reports to shareholders as they become available. The Annual Report's Management's Discussion of Fund Performance discusses market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year. The SAI contains a description of the Fund's policies and procedures with respect to the disclosure of its portfolio securities. To obtain the SAI, Annual Report, Semi-Annual Report and other information without charge, and to make inquiries, call your financial intermediary or the Fund at 1-800-341-7400.

These documents, as well as additional information about the Fund (including portfolio holdings, performance and distributions), are also available on [FederatedInvestors.com](https://www.federatedinvestors.com).

You can obtain information about the Fund (including the SAI) by accessing Fund information from the EDGAR Database on the SEC's website at [sec.gov](https://www.sec.gov). You can purchase copies of this information by contacting the SEC by email at publicinfo@sec.gov.
