

TexPool *Prime* Investment Policy

Texas Local Government Investment Pool

Effective November 1, 2023

G35884-53

I. PURPOSE AND OBJECTIVES STATEMENT

A. TEXPOOL *PRIME*

The Interlocal Cooperation Act, chapter 791 of the Texas Government Code, and the Public Funds Investment Act, chapter 2256 of the Texas Government Code (the “Act”), provide for the creation of public funds investment pools through which political subdivisions and other entities may invest public funds.

TexPool *Prime* will use amortized cost to value portfolio assets and follow the criteria established by Governmental Accounting Standards Board (“GASB”) Statement No. 79 for use of amortized cost. This Investment Policy shall be interpreted and applied in a manner consistent with GASB guidance on external investment pools that use amortized cost to value all portfolio assets.

Pursuant to subchapter G of chapter 404, the Comptroller of Public Accounts (the “Comptroller”) administers the Texas Local Government Investment Pools (the “TexPool Portfolios”) as public funds investment pools through the Texas Treasury Safekeeping Trust Company (the “Trust Company”). The Trust Company is a special-purpose trust company authorized to receive, transfer, and disburse money and securities as provided by statute or belonging to the state, agencies, and local political subdivisions and other organizations created on behalf of the state or agency or political subdivision of the state. The Comptroller is the sole officer, director, and shareholder of the Trust Company.

The Comptroller and the Trust Company have contracted with an administrator and investment manager (“Investment Manager”) for the TexPool Portfolios. The TexPool Portfolios comprise two investment alternatives: TexPool and TexPool *Prime*. This Investment Policy relates only to TexPool *Prime*. TexPool *Prime* invests in U.S. Treasury and government agency securities, repurchase agreements, certain mutual funds, commercial paper, and certificates of deposit.

In accordance with the Act, the Comptroller has appointed the TexPool *Prime* Investment Advisory Board (the “Board”) to advise with respect to TexPool *Prime*. The Board is composed equally of participants in the TexPool Portfolios and other persons who do not have a business relationship with the TexPool Portfolios and are qualified to advise the TexPool Portfolios.

B. PURPOSE

The purpose of TexPool *Prime* is to offer a safe, efficient, and liquid investment alternative to local governments in the State of Texas. The expectation is that local governments will benefit from the receipt of higher investment returns as a result of economies of scale and the investment expertise and management oversight of the Comptroller and the Trust Company. Investments are made in accordance with this investment policy (the “TexPool *Prime* Investment Policy”) established by the Trust Company and approved by the Comptroller. The TexPool *Prime* Investment Policy’s investment parameters are more conservative than those contained in the Act. The TexPool *Prime* Investment Policy is reviewed annually and revised as necessary.

C. OBJECTIVES

As required by the Act, the investment objectives of TexPool *Prime* in order of priority are:

- preservation and safety of principal;
- liquidity; and
- yield

TexPool *Prime*'s additional objective is to maintain a stable \$1.00 price per unit. In accordance with the Act, TexPool *Prime* securities are marked to market daily, and if the ratio of the market value of the portfolio divided by the book value of the portfolio is less than 0.995 or greater than 1.005, TexPool *Prime* will take any appropriate action necessary to maintain the ratio between 0.995 and 1.005. However, the \$1.00 price is not guaranteed or insured by the State of Texas.

D. STANDARD OF CARE

As also required by the Act, TexPool *Prime* investments are made subject to the “prudent person” standard of care. Accordingly, the Investment Manager must make investment decisions:

“with [the] judgement and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.”

E. STRATEGIES

1. Portfolio composition

The TexPool *Prime* portfolio is designed and managed to ensure that it maintains its AAAM rating (or the equivalent) by a nationally recognized statistical rating organization (“NRSRO”).

The following guidelines shall be followed by the Investment Manager to maintain the portfolio maturity consistent with a stable net asset value per share:

- The maximum remaining maturity of any security or other investment acquired for the portfolio shall be 397 calendar days or less.
- The portfolio should maintain a weighted average maturity of 60 days or less.
- The portfolio should maintain a weighted average life of 120 days or less.

Maturity limits are applied as defined in GASB 79.

A cure period of not more than 10 business days shall be permitted in the event that the weighted average maturity of the portfolio exceeds these limits, consistent with NRSRO guidelines.

2. Risk Management

Principal is protected and market and credit risks minimized by investing in a diversified pool of assets of high credit quality. Actual risks are minimized by adequate collateralization and use of delivery versus payment procedures.

The following procedure shall be followed by the Investment Manager to monitor investment rating changes:

- Perform ongoing monitoring of the credit risks of all securities.
- Create and update, as necessary, an approved list of issuers and securities.
- Maintain the approved list in the Investment Manager’s trading and compliance system and utilize the system to monitor the credit risk on a pre-trade compliance basis.
- Note any changes in the rating of a security and determine whether such change is in compliance with the Act.
- If an investment is downgraded such that it is not in compliance with the Act, liquidate the security as required by the Act.

3. Liquidity

Cash needs and cash expectations take priority in the design and structure of *TexPool Prime*. Income and expenditure history are developed and continuously updated to determine the liquidity needs of *TexPool Prime*. Reports of anticipated cash flow needs are used to develop the maturity structure of the portfolio to provide liquidity to all participants. To meet the anticipated liquidity needs, *TexPool Prime* is invested to ensure sufficient distribution of investments in liquid, short-term instruments. The maturities of the investments are distributed such that there is a continuing stream of securities maturing at frequent intervals.

Under normal operating conditions, *TexPool Prime* seeks to remain fully invested. At the end of each business day, cash is primarily swept into repurchase agreements and/or an eligible money market fund.

4. Returns

After consideration of safety and liquidity, *TexPool Prime* assets are invested with the goal of achieving a competitive rate of return that meets or exceeds the yield on money market mutual funds with similar investment authority. *TexPool Prime* is structured to benefit from anticipated market conditions and to achieve a reasonable return.

F. DISTRIBUTION OF GAINS AND LOSSES

All gains or losses from the sale of securities are distributed among *TexPool Prime* participants, and will be amortized over the remaining term to maturity of the liquidated securities.

II. AUTHORIZED INVESTMENTS

The Act governs the investment of *TexPool Prime*. The Act sets out a number of authorized investments. *TexPool Prime* funds may be invested only in the following authorized investments:
